Summary of Collection: The National Agricultural Statistics Service’s (NASS) primary function is to prepare and issue state and national estimates of crop and livestock production, disposition and prices as well as specialty agricultural and environmental statistics. The Cotton Ginning Survey provides statistics concerning cotton ginning for specific dates and geographic regions and aids in forecasting cotton production. The Cotton Ginning surveys obtain data mandated under U.S.C. Title 13, Section 42(a). General authority for these data collection activities is granted under U.S. Code Title 7, section 2204.

All active gins for a given crop season are included in the survey. This includes gins in all 17 cotton producing states. The survey begins on August 1st for the current production year. The sample size increases as the amount of cotton harvested and ginned increases. The peak number of gins that are surveyed will occur in November. The sample size will decline after that to coincide with the completion of harvesting and ginning in some States. The “End of Season” questionnaire is sent to each gin as they complete their ginning for the year, the summarized end of season data will be published in May.

Description of Respondents: Business or other for-profit.

Number of Respondents: 575.

Frequency of Responses: Reporting: Monthly, Annually.

SUPPLEMENTARY INFORMATION:

Title: National Veterinary Accreditation Program.

OMB Control Number: 0579–0297.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Secretary of Agriculture is authorized to protect the health of U.S. livestock by preventing the introduction and interstate spread of serious diseases and pests of livestock and for eradicating such diseases from the United States when feasible. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS). In connection with this mission, the U.S. Department of Agriculture established the National Veterinary Accreditation Program (NVAP) so that accredited private practitioners can assist Federal veterinarians in controlling animal diseases and facilitating the movement of animals. Regulations concerning the accreditation of veterinarians and the suspension and revocation of accreditation are in 9 CFR parts 160 through 162.

NVAP is a voluntary program that is administered by APHIS. As part of this program, APHIS uses an NVAP application form to collect information regarding an applicant’s eligibility for accreditation and, among other things, to update an individual’s contact information and renew or revise his or her accreditation status.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.40 hours per response.

Respondents: Veterinarians.
Estimated annual number of respondents: 24,820.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 24,821.

Estimated total annual burden on respondents: 9,929 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 12th day of April 2023.
