[Docket No. FAA-2022-1347; Airspace Docket No. 22-ASO-25]

RIN 2120-AA66

Withdrawal of NPRM, Morganton, NC

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Proposed rule; withdrawal.

SUMMARY: The FAA is withdrawing the notice of proposed rulemaking published in the **Federal Register** on November 7, 2022, proposing to amend Class E airspace in Morganton, NC, because it is duplicative of a previous action.

DATES: The FAA is withdrawing the proposed rule published November 7, 2022 (87 FR 66974) as of April 18, 2023.

FOR FURTHER INFORMATION CONTACT: John Fornito, Operations Support Group, Eastern Service Center, Federal Aviation Administration, 1701 Columbia Avenue, College Park, GA 30337; telephone (404) 305-6364.

SUPPLEMENTARY INFORMATION:

Reason for Withdrawal

The FAA is withdrawing the NPRM for Docket No. FAA-2022-1347 (87 FR 66974; November 7, 2022) amending Class E airspace for Foothills Regional Airport, Morganton, NC, because it is duplicative of a previously published action. The FAA published a separate NPRM in the **Federal Register** on October 28, 2022 (87 FR 65178), proposing to amend the same airspace.

Conclusion

The FAA determined that the NPRM published on November 7, 2022, is duplicative and unnecessary. Therefore, the FAA withdraws that NPRM.

Issued in College Park, Georgia, on April 12, 2023.

Andree C. Davis,

Manager, Airspace & Procedures Team South, Eastern Service Center, Air Traffic Organization.

RIN 2120-AA66

Revocation of VOR Federal Airway V-456 and Mankato, MN, Low Altitude Reporting Point; Mankato, MN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to revoke Very High Frequency (VHF) Omnidirectional Range (VOR) Federal

airway V-456 and the Mankato, MN, Low Altitude Reporting Point. The FAA is proposing this action due to the planned decommissioning of the VOR portion of the Mankato, MN (MKT), VOR/Distance Measuring Equipment (VOR/DME) navigational aid (NAVAID). The Mankato VOR is being decommissioned in support of the FAA's VOR Minimum Operational Network (MON) program.

DATES: Comments must be received on or before June 2, 2023.

ADDRESSES: Send comments identified by FAA Docket No. FAA-2023-0955 and Airspace Docket No. 22-AGL-37 using any of the following methods:

* *Federal eRulemaking Portal:* Go to www.regulations.gov and follow the online instructions for sending your comments electronically.

* *Mail:* Send comments to Docket Operations, M-30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12-140, West Building Ground Floor, Washington, DC 20590-0001.

* *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

* *Fax:* Fax comments to Docket Operations at (202) 493-2251.

Docket: Background documents or comments received may be read at www.regulations.gov at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12-140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code.

Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the National Airspace System (NAS) as necessary to preserve the safe and efficient flow of air traffic.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through

the FAA's web page at www.faa.gov/air-traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Operations office (see **ADDRESSES** section for address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the office of the Operations Support Group, Central Service Center, Federal Aviation Administration, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Incorporation by Reference

VOR Federal airways are published in paragraph 6010(a) and Domestic Low Altitude Reporting Points are published in paragraph 7001 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

The FAA is planning to decommission the VOR portion of the Mankato, MN, VOR/DME in November 2023. The Mankato VOR is one of the candidate VORs identified for discontinuance by the FAA's VOR MON program and listed in the Final policy statement notice, "Provision of Navigation Services for the Next Generation Air Transportation System (NextGen) Transition to Performance-Based Navigation (PBN) (Plan for Establishing a VOR Minimum Operational Network)," published in the **Federal Register** on July 26, 2016 (81 FR 48694), Docket No. FAA-2011-1082.

Although the VOR portion of the Mankato VOR/DME NAVAID is planned for decommissioning, the co-located DME portion of the NAVAID is being retained to support NextGen PBN flight procedure requirements.

The VOR Federal airway and reporting point affected by the planned Mankato, MN, VOR decommissioning are V-456 and the Mankato, MN, low altitude reporting point. With the planned decommissioning of the Mankato VOR, the remaining ground-based NAVAID coverage in the area is

insufficient to enable the continuity of V-456. As such, V-456 and the Mankato low altitude reporting point are proposed to be revoked.

To address these proposed revocations, instrument flight rules (IFR) traffic could use adjacent VOR Federal airways V-24, V-26, V-398, and V-505 or receive air traffic control (ATC) radar vectors to fly around or through the affected area. Additionally, pilots equipped with RNAV capabilities could use Area Navigation (RNAV) route T-400 or navigate point to point using the existing fixes that would remain in place to support continued operations through the affected area. Visual flight rules (VFR) pilots who elect to navigate via the affected VOR Federal airways could also take advantage of the adjacent ATS routes or ATC services listed previously.

The Proposal

The FAA is proposing to amend 14 CFR part 71 by revoking VOR Federal airway V-456 and the Mankato, MN, low altitude reporting point. The VOR Federal airway and low altitude reporting point revocations are due to the planned decommissioning of the Mankato, MN, VOR. The proposed airway and low altitude reporting point actions are described below.

V-456: V-456 currently extends between the Mankato, MN, VOR/DME and the Flying Cloud, MN, VOR/DME NAVAIDs. The FAA proposes to remove the airway in its entirety.

Mankato, MN: The FAA proposes to remove the Mankato, MN, low altitude reporting point as it would no longer be required by ATC due to the Mankato VOR being decommissioned.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6010(a) Domestic VOR Federal Airways.

* * * * *

V-456 [Removed]

* * * * *

Paragraph 7001 Domestic Low Altitude Reporting Points.

* * * * *

Mankato, MN [Removed]

* * * * *

Issued in Washington, DC, on April 12, 2023.

Brian Konie,

Acting Manager, Airspace Rules and Regulations.

Amendment of VOR Federal Airways V–158 and V–172; Polo, IL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Very High Frequency (VHF) Omnidirectional Range (VOR) Federal airways V–158 and V–172 in the vicinity of Polo, IL. The amendments are due to the planned decommissioning of the VOR portion of the Polo, IL (PLL), VOR/Distance Measuring Equipment (VOR/DME) navigational aid (NAVAID). The Polo VOR is being decommissioned as part of the FAA’s VOR Minimum Operational Network (MON) program.

DATES: Comments must be received on or before June 2, 2023.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2023–0965 and Airspace Docket No. 23–AGL–8 using any of the following methods:
