

**FOR FURTHER INFORMATION CONTACT:**

Requests for additional information or specific questions related to collection activities should be directed to S. Dumas, the DOC PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, 14th and Constitution Avenue NW, Washington, DC 20230, (202) 482-3306 or at [PRAComments@doc.gov](mailto:PRAComments@doc.gov).

**SUPPLEMENTARY INFORMATION:****I. Abstract**

This request is for an extension of a currently approved generic clearance for the collection of routine information requested of respondents in challenges and competitions that the Department of Commerce posts on the General Service Administration (GSA)'s *Challenge.gov* website since passage of the America COMPETES Act of 2011. In order for DOC to launch competitions quickly and effectively on a continual basis, DOC seeks generic clearance to collect information for these challenges and competitions, which will generally include first name, last name, email, city, state and when applicable other demographic information. It can also include other information necessary to evaluate submissions and understand their impact related to the general goals of the competition. Upon entry or during the judging process, applicants under the age of 18 may be asked to confirm parental consent, requiring students under 18 to have a parent's signature on a parental consent form provided by the DOC in order to qualify for the contest. For certain challenges we may also need to collect data such as types of data sets used in the solution, types of software tools used in the solution, and information regarding uses of proprietary software (*i.e.*, licenses or use agreements). Information obtained from participants will be used by the program managers (challenge manager), technical reviewers, and other agency officials (such as agency counsels).

In 2011, Federal agencies including DOC were given prize authority for administering challenges and competitions. Section 105(a) of the America Competes Act, adds Section 24 to the Stevenson-Wylder Technology Innovation Act of 1980 (15 U.S.C. 3701 *et seq.*) that addresses provisions for challenges and competitions with prizes conducted by Federal agencies. Challenges and competitions enable DOC to tap into the expertise and creativity of the public in new ways. DOC evaluates submissions and typically awarded monetary or non-monetary prizes to winning entries. DOC may sponsor challenges and

competitions in a wide variety of areas to increase public participation and solicit new ideas on a wide array of topics important to the agency's mission. DOC's goal is to engage a broader number of stakeholders who are inspired to work on some of our most pressing issues.

The information collected will be used to understand whether the participant has met the technical requirements for the challenge, assist in the technical review and judging of the solutions that are provided, and assess how the competition was administered. Information may be collected during the competition or after its completion.

This clearance applies to challenges posted on *Challenge.gov*, which uses a common platform for the solicitation of challenges from the public. Each agency designs the criteria for its solicitations based on the goals of the challenge and the specific needs of the agency. There is no standard submission format for solution providers to follow, and there is no set schedule for the issuance of challenges; they are developed and issued on an "as needed" basis in response to issues the federal agency wishes to solve.

**II. Method of Collection**

The primary method of collection will be electronic. Some supporting documents may be emailed, mailed, or collected in person.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

This is a request for an extension of a currently approved information collection.

In March 2018, the Administration of President Trump launched the President's Management Agenda (PMA) and established new Cross-Agency Priority (CAP) Goals. Excellent service was established as a core component of the mission, service, stewardship model that frames the entire PMA, embedding a customer-focused approach in all of the PMA's initiatives. This model was also included in the 2018 update of the Federal Performance Framework in Circular A–11, ensuring 'excellent service' as a focus in future agency strategic planning efforts. The PMA included a CAP Goal on Improving Customer Experience with Federal Services, with a primary strategy to drive improvements within twenty-five of the nation's highest impact programs. This effort is supported by an interagency team and guidance in Circular A–11 requiring the collection of customer feedback data and increasing the use of industry best practices to conduct customer research.

The continuation of this information collection will enable the Department of Commerce to act in accordance with OMB Circular A–11 Section 280 to ultimately transform the experience of its customers to improve both efficiency and mission delivery and increase accountability by communicating about these efforts with the public.

Commerce will collect, analyze, and interpret information gathered through

this generic clearance to identify services' accessibility, navigation, and use by customers, and make improvements in service delivery based on customer insights gathered through developing an understanding of the user experience interacting with Government. To support this, OMB Circular A–11 Section 280 established government-wide standards for mature customer experience organizations in government and measurement. To enable Federal programs to deliver the experience taxpayers deserve, they must undertake three general categories of activities: conduct ongoing customer research, gather, and share customer feedback, and test services and digital products.

These data collection efforts may be either qualitative or quantitative in nature or may consist of mixed methods. Additionally, data may be collected via a variety of means, including but not limited to electronic or social media, direct or indirect observation (*i.e.*, in person, video and audio collections), interviews, questionnaires, surveys, and focus groups. DOC will limit its inquiries to data collections that solicit strictly voluntary opinions or responses. Steps will be taken to ensure anonymity of respondents in each activity covered by this request.

All High Impact Service Providers listed at <https://www.performance.gov/cx/HISPList.pdf> are required to ask questions in these domains of their customers. However, all agencies are encouraged to conduct their customer experience measurements in line with these standard measures.

As discussed in OMB guidance, agencies should identify their highest-impact customer journeys (using customer volume, annual program cost, and/or knowledge of customer priority as weighting factors) and select touchpoints/transactions within those journeys to collect feedback. For the purposes of this collection, Federal customer experience will focus on real-time transaction-level measures.

The results will be used to improve the delivery of Federal services and programs. It will also provide government-wide data on customer experience that can be displayed on [www.performance.gov](http://www.performance.gov) to help build transparency and accountability of Federal programs to the customers they serve.

As a general matter, these information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual

behavior and attitudes, and religious beliefs.

The Department of Commerce will only submit collections under this generic clearance if it meets the following conditions:

The collections are voluntary.

The collections are low-burden for respondents (based on considerations of total burden hours or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government.

The collections are non-controversial and do not raise issues of concern to other Federal agencies. Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future.

Personally identifiable information (PII) is collected only to the extent necessary and is not retained. Information gathered is intended to be used for general service improvement and program management purposes.

Upon agreement between OMB and the agency all or a subset of information may be released as part of A–11, Section 280 requirements only on [performance.gov](http://performance.gov). Summaries of customer research and user testing activities may be included in public-facing customer journey maps.

Additional release of data must be done coordinated with OMB. These collections will allow for ongoing, collaborative, and actionable communications between the Agency, its customers and stakeholders, and OMB as it monitors agency compliance on Section 280. These responses will inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on services will be unavailable.

**II. Method of Collection**

The Department of Commerce will collect this information by electronic means, when possible, as well as by mail, fax, telephone, technical discussions; and customer experience activities such as feedback surveys, focus groups, user testing, and in-person interviews.

The Department of Commerce may also utilize observational techniques to collect this information.

**III. Data**

*OMB Control Number:* 0690–0035.

*Form Number(s):* None.

*Type of Review:* Regular submission, extension without change of a currently approved collection.

*Estimated Number of Respondents:* 300,000.

*Estimated Time per Response:* Varied, dependent upon the data collection method used. The possible response time to complete a questionnaire or survey may be 3 minutes or up to 2 hours to participate in an interview or focus group.

*Estimated Total Annual Burden Hours:* 27,725.

*Estimated Total Annual Cost to the Public:* Zero.

*Respondent's Obligation:* Voluntary.

*Affected Public:* Collections will be targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future. For the purposes of this request, “customers” are individuals, businesses, and organizations that interact with a Federal Government agency or program, either directly or via a Federal contractor. This could include individuals or households; businesses or other for-profit organizations; not-for-profit institutions; State, local or tribal governments; Federal government; and Universities.

#### IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
