

The electronic version of the public docket for this action contains a copy of the proposed settlement agreement and is available through <https://www.regulations.gov>. You may use <https://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the official public docket, and access those documents in the public docket that are available electronically. Once in the system, key in the appropriate docket identification number then select “search.”

B. How and to whom do I submit comments?

Submit your comments, identified by Docket ID No. EPA–HQ–OGC–2023–0243 via <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from this docket. EPA may publish any comment received to its public docket. Do not submit to EPA’s docket at <https://www.regulations.gov> any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. For additional information about submitting information identified as CBI, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an email address or other contact information in the body of your comment. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA’s electronic public docket. If EPA cannot read your comment due to technical difficulties

and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <https://www.regulations.gov> website to submit comments to EPA electronically is EPA’s preferred method for receiving comments. We strongly encourage you to send your comments electronically to ensure that they are received prior to the close of the comment period. The electronic public docket system is an “anonymous access” system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment.

Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked “late.” EPA does not plan to consider these late comments.

Steven Neugeboren,

Associate General Counsel.

Small Community Advisory Subcommittee Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification of public meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act (FACA), EPA hereby provides notice of a meeting for the Local Government Advisory Committee’s (LGAC) Small Community Advisory Subcommittee (SCAS) on the date and time described below. This meeting will be open to the public. For information on public attendance and participation, please see the registration information under **SUPPLEMENTARY INFORMATION**.

DATES: The SCAS will meet virtually May 5th, 2023, from 12 p.m. through 1:15 p.m. Eastern Standard Time.

FOR FURTHER INFORMATION CONTACT: Edlynzia Barnes, Designated Federal Officer (DFO), at Barnes.edlynzia@epa.gov or 773–638–9158.

Information on Accessibility: For information on access or services for individuals requiring accessibility accommodations, please contact Edlynzia Barnes by email at Barnes.edlynzia@epa.gov. To request accommodation, please do so five (5) business days prior to the meeting, to

give EPA as much time as possible to process your request.

SUPPLEMENTARY INFORMATION: The SCAS will discuss the PFAS National Drinking Water Proposal Standard and PFAS Risk Communication. An agenda will be posted online (link below) prior to the meeting.

Registration: The meeting will be held virtually through an online audio and video platform. Members of the public who wish to participate should register by contacting the Designated Federal Officer (DFO) at Barnes.edlynzia@epa.gov by April 28, 2023. The agenda and other supportive meeting materials will be available online at <https://www.epa.gov/ocir/small-community-advisory-subcommittee-scas> and will be emailed to all registered. In the event of cancellation for unforeseen circumstances, please contact the DFO or check the website above for reschedule information.

Edlynzia Barnes,

Designated Federal Officer, U.S. Environmental Protection Agency.

Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption Reissuance—Class I Hazardous Waste Injection; Lyondell Channelview Plant, Texas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of a final decision on a no migration petition reissuance.

SUMMARY: Notice is hereby given that a reissuance of an exemption to the land disposal restrictions, under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act, has been granted to Lyondell Chemical Company for three Class I hazardous waste injection wells at the Lyondell Channelview Plant located in Channelview, Texas.

DATES: This action was effective as of December 13, 2022.

ADDRESSES: Copies of the petition reissuance and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency (EPA), Region 6, Water Division, Safe Drinking Water Branch (6WD–D), 1201 Elm Street, Suite 500, Dallas, Texas 75270–2102.

FOR FURTHER INFORMATION CONTACT: Ian Ussery, Physical Scientist, Ground Water/UIC Section, EPA—Region 6, telephone (214) 665-6639.

SUPPLEMENTARY INFORMATION: As required by 40 CFR part 148, Lyondell has adequately demonstrated to the satisfaction of the EPA by the petition reissuance application and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by the Lyondell Channelview Plant, of the specific restricted hazardous wastes identified in this exemption reissuance, into Class I hazardous waste injection Wells WDW-148, WDW-162, and WDW-438 when it is drilled in the future, until December 31, 2050, unless EPA moves to terminate this exemption under provisions of 40 CFR 148.24. Additional conditions included in this final decision may be reviewed by contacting the Region 6 Ground Water/UIC Section. As required by 40 CFR 148.22(b) and 124.10, a public notice was issued September 13, 2022. The public comment period closed on October 28, 2022. No comments were received. This decision constitutes final Agency action, and there is no Administrative appeal.

Dated: April 17, 2023.

Charles W. Maguire,

Director, Water Division, Region 6.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Chromium Finishing Industry Data Collection (New)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Chrome Finishing Industry Data Collection (EPA ICR Number 2723.01, OMB Control Number 2040-NEW) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a request for

approval of a new collection. Public comments were previously requested via the **Federal Register** on November 16, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before May 22, 2023.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OW-2021-0869, to EPA online using www.regulations.gov (our preferred method), by email to OW-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Dr. Phillip Flanders, Engineering and Analysis Division, Office of Science and Technology, 4303T, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-566-8323; email address: Flanders.Phillip@epa.gov.

SUPPLEMENTARY INFORMATION: This is a request for approval of a new collection. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on November 16, 2022 during a 60-day comment period (87 FR 68689). This notice allows for an additional 30 days for public comments. Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC.

The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: As mentioned in Effluent Guidelines Program Plan 15, published in January 2023, EPA plans to conduct a rulemaking to address Per- and Polyfluoroalkyl Substances (PFAS) discharges from a subset of facilities in the Metal Finishing and Electroplating point source categories. Specifically, facilities performing certain chromium operations that employ hexavalent chromium (hereafter referred to as "chrome finishing facilities"), including chromium plating, chromium anodizing, chromic acid etching, and chromate conversion coating that use or have used PFAS to control hexavalent chromium emissions. These facilities are expected to be the predominant sources of PFAS discharges in the Metal Finishing and Electroplating point source categories. Publicly available data on such facilities, including whether they perform chrome finishing operations and use and discharge of PFAS at the national scale, are limited. EPA reviewed the 2017 National Emissions Inventory (NEI), Compliance and Emissions Data Reporting Interface (CEDRI), Environmental Compliance History Online (ECHO), and Integrated Compliance Information System (ICIS), as well as data collected by several state environmental agencies. However, none of these data sources provide a complete population of chromium finishing facilities in the United States nor do they provide the detailed information on specific facility operations (including use of hexavalent chromium or PFAS), generation and management of wastewater, or wastewater characteristics necessary for the complex technical and economic analyses required for the review and development of ELGs. Therefore, this questionnaire and wastewater sampling program are necessary for EPA to determine if the current regulations remain appropriate and to develop new regulations if they are deemed to be warranted. EPA has identified and compiled mailing addresses for approximately 2,035 potential chromium finishing facilities in the United States. All active metal finishing and electroplating facilities that conduct or have conducted one or more of the specified chromium finishing operations will be required to complete the questionnaire.

Form numbers: 6100-079.

Respondents/affected entities: All chrome finishing facilities in the U.S. will receive the questionnaire and no
