Federal Railroad Administration

[Docket No. FRA–2023–0011]

Request for Information Regarding Uses for Used Creosote-Treated Railroad Ties

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Request for information (RFI).

SUMMARY: The Federal Railroad Administration is seeking information on potential uses and options for disposal or repurposing used creosote-treated railroad ties (CTRTs), which are the wooden rail cross-ties that support the rail track. Every year, approximately 23 million CTRTs are replaced along the nation’s rail network. Because a number of FRA’s grant programs fund rail infrastructure projects, which may include the replacement of worn CTRTs, understanding the options to dispose of CTRTs will assist FRA and its grantees from the implementation of FRA’s grant

programs and assessing the impacts of such disposition (*e.g.*, life-cycle maintenance impacts). Depending on the responses, FRA may develop a best practices document for rail tie disposal.

DATES: Written comments on this RFI must be received on or before June 26, 2023. FRA will consider comments filed after this date to the extent practicable in the development of any potential best practices.

ADDRESSES: Comments: Comments should refer to docket number FRA–2023–0011 and be submitted at <https://www.regulations.gov>. Search by using the docket number and follow the instructions for submitting comments.

Instructions: All submissions must include the agency name and docket number (FRA–2023–0011) for this RFI. Please note that comments submitted online via www.regulations.gov are not immediately posted to the docket. Several business days may elapse after a comment has been submitted online before it is posted to the docket.

Privacy Act: DOT solicits comments from the public to better inform its regulatory process. DOT posts these comments, without edit, to www.regulations.gov, as described in the system of records notice, DOT/ALL–14 FDMS, accessible through www.dot.gov/privacy. To facilitate comment tracking and response, commenters are encouraged to provide their name, or the name of their organization; however, submission of names is completely optional. Whether or not commenters identify themselves, all timely comments will be fully considered. If you wish to provide comments containing proprietary or confidential information, please contact the agency for alternate submission instructions.

Docket: For access to the docket to read comments received, please visit <https://www.regulations.gov> and follow the online instructions for accessing the docket.

FOR FURTHER INFORMATION CONTACT: For further information related to this RFI, please contact Michael Johnsen, Senior Advisor for Climate and Sustainability, Office of Environmental Program Management, at telephone: 202–450–8540, email: Michael.johnsen@dot.gov.

SUPPLEMENTARY INFORMATION: Cross-ties support the metal rails upon which trains run and the majority of them are made of creosote-treated wood. Creosote is an oil-based preservative allowing the ties to maintain a lifespan of about 30 years. There are approximately 207,000 miles of rail track in the U.S. requiring about 620 million cross-ties. About 23 million cross-ties are replaced every
