Privacy Act of 1974; System of Records

AGENCY: Federal Mediation and Conciliation Service.

ACTION: Notice of a modified system of records.

SUMMARY: To fulfill its conflict resolution and training mission, Federal Mediation and Conciliation Service (FMCS) uses Microsoft SharePoint, Microsoft Outlook, and a case records management system new to FMCS to

enable mediators and managers to manage cases, manage reporting requirements, provide data for research and training, store recorded trainings and meetings, and collect information on Agency operations. The Agency's internal drives, SharePoint, Outlook, Cloud-based services such as *Zoom.gov* and Microsoft Teams, and a case records management system are used to store electronic case tracking information, electronic case files (including mediation agreements), and recorded meetings and trainings, permitting the accurate and timely collection, retrieval, and retention of information maintained by offices of the Agency. Inter-Agency Agreements (IAA), agreements for reimbursable services, and requests for mediation and training are also stored in these locations. IAAs and agreements for reimbursable services allow FMCS to provide requested services, such as training and labor dispute resolution, to other federal agencies. The notice amendment includes administrative updates to refine details published under summary, supplementary information, record source categories, routine uses, and the history section. These sections are amended to refine previously published information about the system of records. The dates, addresses, for further information contact, system name, security classification, system location, system manager, authority for maintenance of the system, purpose of the system, categories of individuals covered by the system, categories of records in the system, policies and practices for storage of records, policies and practices for retrieval of records, policies and procedures for retention and disposal of records, administrative safeguards, record access procedures, contesting records procedures, notification procedures, and exemptions promulgated remain unchanged. This amended SORN deletes and supersedes the SORN published in the **Federal Register** on March 16, 2022.

DATES: This system of records will be effective without further notice on May 26, 2023 unless otherwise revised pursuant to comments received. Comments must be received on or before May 26, 2023.

ACTION: Request for information.

SUMMARY: The Centers for Disease Control and Prevention's (CDC) National Institute for Occupational Safety and Health (NIOSH), in the Department of Health and Human Services, announces an opportunity for the public to provide information about approaches to establishing a new World Trade Center (WTC) Health Program research cohort of persons who were exposed to the September 11, 2001, terrorist attacks and were aged 21 years or younger at the time of their exposure. This research cohort will be designed to allow the WTC Health Program to conduct future research studies on the health and educational impacts in the population of persons aged 21 years or younger at the time of their exposures to airborne toxins, or any other hazard or adverse condition, resulting from the terrorist attacks on September 11, 2001. Once established, this new WTC Health Program "youth cohort" would serve as the basis for future WTC Health Program research into the health and educational impacts of this potentially vulnerable group, hereafter referred to as "WTC Youth." Information is requested on specific adverse health, social, and educational effects that are of interest for future research; desired characteristics of the proposed cohort and associated control groups (*e.g.*, size and demographics), and methods for identifying, recruiting, and obtaining informed consent from members; as well as data collection, storage, and management methods necessary for future research investigations.
