Abstract: The BLM is required by the Materials Act of 1947 (30 U.S.C. 601 and 602) and section 302 of the Federal Land Policy and Management Act (43 U.S.C. 1732) to manage the sale and free use of mineral materials that are not subject to mineral leasing or location under the mining laws (*e.g.*, common varieties of sand, stone, gravel, pumice, pumicite, clay, and rock). The BLM uses the information to process each request for disposal, determine whether the request to dispose of mineral materials meets statutory requirements, and whether to approve the request. This OMB Control Number is currently scheduled to expire on February 29, 2024. The BLM plans to request that OMB renew this OMB Control Number for an additional three years.
