Abstract: This ICR covers provisions under the Montreal Protocol on Substances that Deplete the Ozone Layer (Montreal Protocol) and Title VI of the CAA that establish limits on total U.S. production, import, and export of class I and class II ozone-depleting substances (or controlled substances). Production and import of class I controlled substances (chlorofluorocarbons and others) was phased out in the United States. The phaseout includes exceptions for essential uses, critical uses of methyl bromide, quarantine and pre-shipment uses of methyl bromide, previously used material, and material that will be transformed or destroyed. There are also regulations that restrict the use of class II controlled substances and require a gradual reduction in the production and consumption of these chemicals leading to their eventual phaseout. The class II controlled substance phaseout regulations include exceptions for previously used material and material that will be transformed or destroyed.

Form Numbers: 5900–137, 5900–136, 5900–149, 5900–150, 5900–153, 5900–151, 5900–199, 5900–202, 5900–200, 5900–201, 5900–205, 5900–155, 5900–140, 5900–144, 5900–142, 5900–141, 5900–148, 5900–147, 5900–473, 5900–138, 5900–139, 5900–152, 5900–472, 5900–154, 5900–146.

Respondents/affected entities: Producers, importers, exporters, and certain users of ozone-depleting substances; methyl bromide applicators, distributors, and end users including commodity storage and quarantine users.

Respondent’s obligation to respond: Mandatory (CAA sections 114, 603(b), and 604(d)(6)).

Estimated number of respondents: 1,174 (total).

Frequency of response: Quarterly, annually, as needed.

Total estimated burden: 3,022 hours (per year). Burden is defined as 5 CFR 1320.03(b)

Total estimated cost: \$375,086 (per year), includes \$8,250 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 83 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is a result of updated assumptions associated with recordkeeping requirements that are more consistent with other ICRs that cover similar recordkeeping activities (e.g., the HFC Allowance Allocation

Program ICR, OMB Control No. 2060–0734).

Director, Regulatory Support Division.
