NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

[NRC–2018–0291]

RIN 3150–AK23

American Society of Mechanical Engineers Code Cases and Update Frequency; Extension of Comment Period

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule; extension of comment period.

SUMMARY: On March 6, 2023, the U.S. Nuclear Regulatory Commission (NRC) solicited comments on proposed amendments to its regulations to incorporate by reference proposed revisions to three regulatory guides, which would approve new, revised, and reaffirmed code cases published by the American Society of Mechanical Engineers. In addition, the rulemaking proposed to extend the time periods required for licensees to update their codes of record. The public comment period was originally scheduled to close on May 5, 2023. The NRC has decided to extend the public comment period by an additional 42 days to June 16, 2023, to allow more time for members of the public to develop and submit their comments.

DATES: The due date of comments requested in the document published on March 6, 2023 (88 FR 13717) is extended. Comments should be filed no later than June 16, 2023. Comments received after this date will be considered, if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

II. Discussion

On March 6, 2023, the NRC solicited comments on proposed amendments to

its regulations to incorporate by reference proposed revisions to three regulatory guides, which would approve new, revised, and reaffirmed code cases published by the American Society of Mechanical Engineers. In addition, the NRC requested comments on its proposal to extend the time periods required for licensees to update their codes of record. The public comment period was originally scheduled to close on May 5, 2023.

On April 19, 2023, the NRC received two public comments (ADAMS Accession Nos. ML23109A141 and ML23109A142) requesting that the comment period for the proposed rule be extended by an additional 1 to 2 months. The requesters expressed that American Society of Mechanical Engineers (ASME) Code Committee meetings are scheduled for May 2023, and that these ASME meetings would be beneficial to allow discussions of the proposed rule before submission of any further public comments.

The NRC seeks to ensure that the public has a reasonable opportunity to provide the NRC with comments on this proposed action. The NRC acknowledges that discussions at the ASME Code Committee meetings may assist in the development of comments. The NRC has decided to extend the public comment period on this document until June 16, 2023, to allow more time for members of the public to submit their comments.

The NRC may post materials related to this document, including public comments, on the Federal rulemaking website at <https://www.regulations.gov> under Docket ID NRC-2018-0291. In addition, the Federal rulemaking website allows members of the public to receive alerts when changes or additions occur in a docket folder. To subscribe: (1) navigate to the docket folder (NRC-2018-0291); (2) click the "Subscribe" link; and (3) enter an email address and click on the "Subscribe" link.

Dated: April 26, 2023.
