*Title; Associated Form; and OMB Number:* DoD DLA Desktop Browse Survey; OMB Control Number 0704-DDBS.

*Needs and Uses:* The Defense Logistics Agency is an organization with a public-facing website used to inform and work with its customers in the military services; Federal, State, and local governments; industry and small business; and the general public. Measurement and feedback through surveying is needed to better meet the needs of the agency's audiences and provide both overall goals for improvement and to address specific issues presented by website visitors. DLA Public Affairs uses the feedback to address immediate concerns and set both short and long-term goals for improving the agency's website.

Actionable survey comments are addressed with DLA offices who manage the corresponding website content for quick, specific, and direct content improvements. Short-term actions include fixing broken links, adding or updating page content, restructuring, or altering page layouts to make content easier to browse, and creating new resources to meet previously unknown customer needs. Combined data and trends inform DLA Public Affairs strategy for larger-scale website improvement projects and are summarized for DLA senior leader awareness and long-term planning. Larger efforts include changes to sitewide navigation, homepage redesigns, and aggregating previously dispersed similar sitewide resources to central, prominent places.
