

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in 154(i) of the Communications Act of 1934, as amended.

Total Annual Burden: 253 hours.

Total Annual Cost: None.

Needs and Uses: The information collection requirements contained under 47 CFR 73.1350(g) require licensees to submit a “letter of notification” to the FCC in Washington, DC, Attention: Audio Division (radio) or Video Division (television), Media Bureau, whenever a transmission system control point is established at a location other than at the main studio or transmitter within three days of the initial use of that point. The letter should include a list of all control points in use for clarity. This notification is not required if responsible station personnel can be contacted at the transmitter or studio site during hours of operation.

Federal Communications Commission.

Katura Jackson,

Federal Register Liaison Officer.

Administration for Community Living

Intent To Award a Single-Source Supplement for the Amputee Coalition of America, Inc. for the National Limb Loss Resource Center Cooperative Agreement

ACTION: Notice.

SUMMARY: The Administration for Community Living (ACL) announces the intent to award a single-source supplement to the current cooperative agreement held by the Amputee Coalition of America, Inc. for the National Limb Loss Resource Center (NLLRC).

FOR FURTHER INFORMATION CONTACT: For further information or comments regarding this program supplement, contact Elizabeth Leef, U.S. Department of Health and Human Services, Administration for Community Living, Administration on Disabilities, Office of Disability Services Innovation at (202) 475–2486 or Elizabeth.leef@acl.hhs.gov.

SUPPLEMENTARY INFORMATION: The purpose of this project is to expand on current grant activities occurring across

communities. These activities include programs that promote independence, community living, and the adoption of healthy behaviors that promote wellness and prevent and/or reduce chronic conditions associated with limb loss and increase partnerships and collaborations with ACL programs that will benefit all people living with limb loss or limb differences. The administrative supplement for FY 2023 will be for \$667,048 bringing the total award for FY 2023 to \$4,065,215.

The additional funding will not be used to begin new projects. The funding will be used to enhance and expand existing programs that can serve an increased number of veterans and people living with limb loss and limb differences by providing increased technical assistance activities; promoting health and wellness programs; addressing healthcare access issues, including maternity care; promoting the adoption of healthy behaviors with the objective of preventing and/or reducing chronic conditions associated with limb loss; increasing partnerships and collaborations with ACL programs that will benefit all people living with limb loss or limb differences; enhancing and expanding the evaluation activities currently under way; and enhancing website capacities for improved information dissemination.

Program Name: National Limb Loss Resource Center.

Recipient: The Amputee Coalition of America, Inc.

Period of Performance: The supplement award will be issued for the fifth year of the five-year project period of April 1, 2019, through March 29, 2024.

Total Supplement Award Amount: \$667,048 in FY 2023.

Award Type: Cooperative Agreement Supplement.

Statutory Authority: This program is authorized under Section 317 of the Public Health Service Act (42 U.S.C. 247(b–4)); Consolidated and Further Continuing Appropriations Act, 2015, Public Law 113–235 (Dec. 16, 2014).

Basis for Award: The Amputee Coalition of America, Inc. is currently funded to carry out the objectives of this program, entitled *The National Limb Loss Resource Center* for the period of April 1, 2019, through March 29, 2024. Almost 2 million Americans have experienced amputations or were born with limb difference and another 28 million people in our country are at risk for amputation. The supplement will enable the grantee to carry their work even further, serving more people living with limb loss and/or limb differences

and providing even more comprehensive training and technical assistance in the development of long-term supportive services. The additional funding will not be used to begin new projects or activities. The NLLRC will enhance and expand currently funded activities such as conducting national outreach for the development and dissemination of patient education materials, programs, and services; providing technical support and assistance to community based limb loss support groups; and raising awareness about the limb loss and limb differences communities.

Establishing an entirely new grant project at this time would be potentially disruptive to the current work already well under way. More importantly, the people living with limb loss and limb differences currently being served by this program could be negatively impacted by a service disruption, thus posing the risk of not being able to find the right resources that could negatively impact on health and wellbeing. If this supplement were not provided, the project would be less able to address the significant unmet needs of additional limb loss survivors. Similarly, the project would be unable to expand its current technical assistance and training efforts in NLLRC concepts and approaches, let alone reach beyond traditional providers of services to this population to train more “mainstream” providers of disability services.

Dated: May 4, 2023.

Alison Barkoff,

Acting Administrator and Assistant Secretary for Aging.
