#### National Institute of Mental Health; Notice of Closed Meeting

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of a meeting of the Board of Scientific Counselors, National Institute of Mental Health.

The meeting will be closed to the public as indicated below in accordance with the provisions set forth in section 552b(c)(6), Title 5 U.S.C., as amended for the review, discussion, and evaluation of individual intramural programs and projects conducted by the National Institute of Mental Health, including consideration of personnel qualifications and performance, and the competence of individual investigators, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

*Name of Committee:* Board of Scientific Counselors, National Institute of Mental Health.

*Date:* June 7–9, 2023.

*Time:* June 7, 2023, 12:45 p.m. to 5:20 p.m.

*Agenda:* To review and evaluate personnel qualifications and performance, and competence of individual investigators.

*Place:* Porter Neuroscience Research Center, Building 35A, 35 Convent Drive, Bethesda, MD 20892 (Hybrid Meeting).

*Time:* June 8, 2023, 10:00 a.m. to 7:00 p.m.

*Agenda:* To review and evaluate personnel qualifications and performance, and competence of individual investigators.

*Place:* Porter Neuroscience Research Center, Building 35A, 35 Convent Drive, Bethesda, MD 20892 (Hybrid Meeting).

*Time:* June 9, 2023, 10:00 a.m. to 1:45 p.m.

*Agenda:* To review and evaluate personnel qualifications and performance, and competence of individual investigators.

*Place:* Porter Neuroscience Research Center, Building 35A, 35 Convent Drive, Bethesda, MD 20892 (Hybrid Meeting).

*Contact Person:* Jennifer E. Mehren, Ph.D., Scientific Advisor, Division of Intramural Research Programs, National Institute of Mental Health, National Institutes of Health, 35A Convent Drive, Bethesda, MD 20892–3747, 301–496–3501, [mehrenj@mail.nih.gov](mailto:mehrenj@mail.nih.gov). #### Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews for 67 Southeastern Species

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of initiation of reviews; request for information.

**SUMMARY:** We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act of 1973, as amended, for 67 animal and plant species. A 5-year review is an assessment of the best scientific and commercial data available at the time of the review to ensure the accuracy of the species classification. We are requesting submission of any such information that has become available since the previous status review for each species.

**DATES:** To ensure consideration of the information in our reviews, we must receive your comments or information on or before July 10, 2023. However, we will continue to accept new information about any listed species at any time.

**ADDRESSES:** For instructions on how to submit information for each species, see the table in the **SUPPLEMENTARY INFORMATION** section.

**FOR FURTHER INFORMATION CONTACT:** To request information on specific species, contact the appropriate person in the table in the **SUPPLEMENTARY INFORMATION** section or, for general information, contact Aaron Valenta, via phone at (404) 679–4144, via email at [aaron\\_valenta@fws.gov](mailto:aaron_valenta@fws.gov), or via U.S. mail at U.S. Fish and Wildlife Service, 1875 Century Boulevard, Atlanta, GA 30345. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act of 1973, as amended (ESA) (16 U.S.C. 1531 *et seq.*), for 36 animal species and 31 plant species. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission

of any such information that has become available since the last review for the species, particularly information on the status, threats, and recovery of the species that may have become available.

#### Why do we conduct 5-year reviews?

Under the ESA, we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in title 50 of the Code of Federal Regulations at 50 CFR 17.11(h) (for wildlife) and 50 CFR 17.12(h) (for plants). Listed wildlife can be found at <https://www.ecfr.gov/current/title-50/chapter-I/subchapter-B/part-17/subpart-B/section-17.11>. Listed plants are at <https://www.ecfr.gov/current/title-50/chapter-I/subchapter-B/part-17/subpart-B/section-17.12>. Section 4(c)(2)(A) of the ESA requires us to review each listed species' status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing species under active review; however, we may review the status of any species at any time based upon a petition or other information available to us. For additional information about 5-year reviews, refer to our fact sheet at: <https://www.fws.gov/project/five-year-status-reviews>.

#### What information do we consider in our review?

A 5-year review considers the best scientific and commercial data that have become available since the current listing determination or most recent status review of each species, such as:

(A) Species biology, including but not limited to population trends, distribution, abundance, demographics, habitat requirements, tolerance thresholds, and genetics;

(B) Habitat conditions, including but not limited to amount, distribution, and suitability;

(C) Conservation measures that have been implemented or are planned that benefit the species;

(D) Current threats and trends in relation to the five listing factors (as defined in section 4(a)(1) of the ESA); and

(E) Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

New information will be considered in the 5-year review and ongoing recovery programs for the species.

**Which species are under review?**

This notice announces 5-year status reviews for the species listed in the table below.

#### Cheyenne River Sioux Tribe Alcoholic Beverages Control Law

**AGENCY:** Bureau of Indian Affairs, Interior.

**ACTION:** Notice.

**SUMMARY:** This notice publishes the Cheyenne River Sioux Tribe Alcoholic Beverages Control Law (“Ordinance”). This Ordinance amends and supersedes the existing Alcoholic Beverages Control Law, published in the **Federal Register** on May 20, 1992.

**DATES:** *Effective Date:* This Ordinance shall become effective June 12, 2023.

**FOR FURTHER INFORMATION CONTACT:** Todd Gravelle, Supervisory Tribal Operations Specialist, Great Plains Regional Office, Bureau of Indian Affairs, 115 Fourth Avenue Southeast, Suite 400, Aberdeen, South Dakota 57401, Telephone: (605) 226-7376, Fax: (605) 226-7379.

**SUPPLEMENTARY INFORMATION:** Pursuant to the Act of August 15, 1953, Public Law 83-277, 67 Stat. 586, 18 U.S.C. 1161, as interpreted by the Supreme

Court in *Rice v. Rehner*, 463 U.S. 713 (1983), the Secretary of the Interior shall certify and publish in the **Federal Register** notice of adopted liquor control laws for the purpose of regulating liquor transactions in Indian country. The Cheyenne River Sioux Tribe’s first Alcoholic Beverages Control Law was published in the **Federal Register** on May 20, 1992, (57 FR 21554) and this amendment supersedes the existing Ordinance, duly adopted by the Cheyenne River Sioux Tribe by Resolution No. 43-2023-CR on March 10, 2023. By the delegated authority contained in 3 IAM 4.4, the Great Plains Regional Director, Bureau of Indian Affairs, approved the amendment on April 6, 2023.

This notice is published in accordance with the authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs. I certify that the Cheyenne River Sioux Tribe duly adopted this Alcoholic Beverages Control Law by Resolution No. 43-2023-CR on March 10, 2023.

Bryan Newland,

Assistant Secretary—Indian Affairs.

The Cheyenne River Sioux Tribe’s Alcoholic Beverages Control Law shall read as follows:

#### Ordinance No. 48

#### Alcoholic Beverages Control Law Cheyenne River Sioux Tribe of South Dakota

#### As Amended

#### Section 1. Legislative Findings and Policy

Sec. 1-1-1. *Alcohol Abuse is an Epidemic.* The Tribal Council, being vested with the power to protect the public health and to provide for the peace and safety of residents of the Cheyenne River Sioux Indian Reservation, hereby finds that alcohol abuse is an epidemic within the territory of the Cheyenne River Sioux Tribe, and further finds that:

(A) Alcohol abuse leads to frequent early loss of life and morbidity among tribal members and other residents of the Reservation. For example, the age adjusted accident death rates due to homicide, suicide, motor vehicle accidents and diseases related to alcohol abuse are several times higher among tribal members than the general population of the United States, and 90 to 95% of serious trauma cases treated by the Indian Health Service on the Reservation are alcohol related.

(B) Alcohol abuse results in dysfunctional families on the Reservation, and the vast majority of child abuse, spousal abuse and elderly

abuse that occurs on the Reservation are alcohol related.

(C) Fetal Alcohol Syndrome and Fetal Alcohol Effect occur at alarming rates among children born within the territory of the Tribe, and children born with parental alcohol damage have difficulty caring for themselves all of their lives. The Tribe has a compelling interest in protecting children from Fetal Alcohol Syndrome and Fetal Alcohol Effect.

(D) Unemployment ranges from 60 to 65% among tribal members on the Reservation and poverty is widespread. Many tribal members suffer economic deprivation due to alcohol abuse, ranging from unemployment to starvation.

(E) Alcohol abuse contributes to the vast majority of the crime which takes place within tribal territory and places heavy burdens on the tribal criminal justice system and the tribal courts.

(F) Alcohol abuse has a devastating impact on our families and the Reservation Community, and the Tribal Council has a duty to combat alcohol abuse.

(G) Both the Tribe and the Federal Government devote tremendous resources to prevent and treat problems of alcohol abuse on the Reservation, yet even the combined treatment programs sponsored by the Tribe and Federal Government are not sufficient to address the problems of alcohol abuse. Far more must be done.

(H) The Tribe must exercise its regulatory authority to combat the problems of alcohol abuse on the Reservation through a comprehensive, consistent, and clearly defined plan to minimize alcohol consumption on the Reservation and to discourage unsafe drinking practices. In addition, the Tribe must raise additional revenue to combat the problems of alcohol abuse.

(I) Teenagers, young adults, and others are susceptible to new and increasingly dangerous high-alcohol-content beverages, some of which contain additives such as caffeine or sugar and increase the health concerns related to addiction and alcohol abuse.

Sec. 1-1-2. *Declaration of War on Alcohol Abuse.* For the spiritual well-being of our children and families and for the survival and strengthening of our people, the Cheyenne River Sioux Tribe declares War on Alcohol Abuse and strives for the speedy elimination of alcohol abuse and its associated problems from the Cheyenne River Indian Reservation. In furtherance of the Tribe’s War on Alcohol Abuse, the Tribal Council hereby declares that it is the policy of the Cheyenne River Sioux Tribe:
