

and its tributaries below the mouth of the Ohio and above Baton Rouge; (3) the Ohio River and its tributaries; (4) the Gulf Intracoastal Waterway in Louisiana and Texas; (5) the Gulf Intracoastal Waterway east of New Orleans and associated fuel-taxed waterways including the Tennessee-Tombigbee, plus the Atlantic Intracoastal Waterway below Norfolk; and (6) the Columbia-Snake Rivers System and Upper Willamette. The intent is that each region shall be represented by at least one representative organization, with that representation determined by the regional concentration of the firm's traffic on the waterways.

(3) *Commodity Representation.* Waterway commerce has been aggregated into six commodity categories based on "inland" ton-miles shown in Waterborne Commerce of the United States. These categories are (1) Farm and Food Products; (2) Coal and Coke; (3) Petroleum, Crude and Products; (4) Minerals, Ores, and Primary Metals and Mineral Products; (5) Chemicals and Allied Products; and (6) All Other. A consideration in the selection of representative organizations to the Board will be that the commodities carried or shipped by those firms will be reasonably representative of the above commodity categories.

d. Nomination. Reflecting preceding selection criteria, the current representation by the six (6) organizations whose terms are expiring includes Regions 1, 2, 3, 5 and 6, representation of four carriers, 1 shipper and two of both, and commodity representation of Food and Farm Products; Coal and Coke; Petroleum, Crude and Products; Chemicals and Allied Products; and Other.

Individuals, firms or associations may nominate representative organizations to serve on the Board. Nominations will:

- (1) Include the commercial operations of the carrier and/or shipper representative organization being nominated. This commercial operations information will show the actual or estimated ton-miles of each commodity carried or shipped on the inland waterways system in the most recent year (or years), using the waterway regions and commodity categories previously listed.

- (2) State the region(s) to be represented.

- (3) State whether the nominated representative organization is a carrier, shipper or both.

- (4) Provide the name of an individual to be the principal person representing the organization and information pertaining to their personal

qualifications, to include a current within six months biography or resume.

Previous nominations received in response to notices published in the **Federal Register** in prior years will not be retained for consideration. Re-nomination of representative organizations is required.

e. Deadline for Nominations. All nominations must be received at the address shown above no later than June 15, 2023.

Directorate of Civil Works, U.S. Army Corps

Title of Collection: U.S. Department of Education Green Ribbon Schools Nominee Presentation Form.

OMB Control Number: 1860-0509.

Type of Review: Extension without change of a currently approved ICR.

Respondents/Affected Public: State, local, and Tribal governments.

Total Estimated Number of Annual Responses: 90.

Total Estimated Number of Annual Burden Hours: 22.

Abstract: Begun in 2011-2012, U.S. Department of Education Green Ribbon Schools (ED-GRS) is a recognition award that honors schools, districts, and postsecondary institutions that are making great strides in three Pillars: (1) reducing environmental impact and costs, including waste, water, energy use, and transportation; (2) improving the health and wellness of students and staff, including environmental health of

premises, nutrition, and fitness; and (3) providing effective sustainability education, including STEM, civic skills, and green career pathways.

The award is a tool to encourage State education agencies, stakeholders and higher education officials to consider matters of facilities, health and environment comprehensively and in coordination with State health, environment and energy counterparts. In order to be selected for Federal recognition, schools, districts and postsecondary institutions must be high achieving in all three of the above Pillars, not just one area. Schools, districts, colleges and universities apply to their State education authorities. State authorities can submit up to six nominees to ED, documenting achievement in all three Pillars. This information is used at the Department to select the awardees.

ED collects information on nominees from State nominating authorities regarding their schools, districts, and postsecondary nominees. State agencies are provided sample applications for all three types of nominees for their use and adaptation. Most states adapt the sample to their State competition. There is no one Federal application for the award, but rather various applications determined by States. They do use a required two-page Nominee Submission Form as a cover sheet, which ED provides. This document, in school, district, and postsecondary submission formats is attached. The burden varies greatly from State authority to authority and how they chose to approach the award.

The recognition award is part of a U.S. Department of Education (ED) effort to identify and communicate practices that result in improved student engagement, academic achievement, graduation rates, and workforce preparedness, and reinforce Federal efforts to increase energy independence and economic security.

Encouraging resource efficient schools, districts, and IHEs allows administrators to dedicate more resources to instruction rather than operational costs. Healthy schools and wellness practices ensure that all students learn in an environment conducive to achieving their full potential, free of the health disparities that can aggravate achievement gaps. Sustainability education helps students engage in hands-on learning, hone critical thinking skills, learn many disciplines and develop a solid foundation in STEM subjects. It motivates postsecondary students in many disciplines, and especially those underserved in STEM subjects, to

persist and graduate with sought after degrees and robust civic skills.

So that the Administration can receive States' nominations, ED seeks to provide the Nominee Presentation Form to States—essentially a cover sheet for States' evaluation of their nominees to ED—in three versions: one for school nominees, another for district nominees, and a third form for postsecondary nominees.

Type of Review: Extension without change of a currently approved ICR.

Respondents/Affected Public: State, local, and Tribal governments.

Total Estimated Number of Annual Responses: 2,812.

Total Estimated Number of Annual Burden Hours: 4,061.

Abstract: The U.S. Department of Education (ED) is requesting a three-year extension of the Annual Report of Children in Institutions for Neglected or Delinquent Children, Adult Correctional Institutions, and Community Day Programs for Neglected and Delinquent Children. Approval of this form is needed in order to continue the ongoing collection of data used to allocate funds authorized under title I, part A and title I, part D, subparts 1 and 2 of the Elementary and Secondary Education Act of 1965 (ESEA). Title I, part A provides formula grants to local educational agencies (LEAs), through State educational agencies (SEAs), to improve the teaching and learning of at-risk students in high-poverty schools. In order to calculate title I, part A allocations, ED must annually collect data on the number of children living in locally operated institutions for neglected or delinquent (N or D) children.
