

Estimated Completion Time per Response: Varies, from 10 minutes to 90 minutes, depending on activity.

Total Estimated Number of Annual Burden Hours: 6,884.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion for applications; annually for reports.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Phadrea Ponds,

Information Collection Clearance Officer,
National Park Service.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Office of Public Health, Disease Reporting and Surveillance Forms

AGENCY: National Park Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the National Park Service (NPS) are proposing to revise an information collection.

DATES: Interested persons are invited to submit comments on or before June 15, 2023.

ADDRESSES: Written comments and suggestions on the information collection requirements should be submitted by the date specified above in **DATES** to <http://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function. Please provide a copy of your comments to the NPS Information Collection Clearance Officer (ADIR-ICCO), 12201 Sunrise Valley Drive, (MS -242) Reston, VA 20191 (mail); or phadrea_ponds@nps.gov (email). Please reference the Office of

Management and Budget (OMB) Control Number "1024-0286" in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Dr. Maria Said, Branch Chief, U.S. Public Health Service Epidemiology, Office of Public Health, National Park Service, Washington, DC 20240 (mail); maria_said@nps.gov (email) or (202) 513-7151 (telephone). Please reference OMB Control Number 1024-0286 in the subject line of your comments. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point of contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on September 12, 2022 (87 FR 55845). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility.
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected.
- (4) How might the agency minimize the burden of the collection of

information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The NPS Organic Act of 1916, 54 U.S.C. 100101 *et seq.*, and the Public Health Service Act, 42 U.S.C. Code chapter 6A, gives the NPS broad authority to collect information to protect and promote visitor health across the National Parks. Each year, the NPS Office of Public Health (OPH) responds to multiple service-wide incidents involving human disease transmission within the park system. Many of these incidents involve the spread of common and highly contagious viruses spread through contaminated food, water, person-to-person, or contaminated surfaces. In the event of illness incidents, public health responders also consider and investigate the possibility of other etiological agents. The Disease Reporting and Surveillance System (DRSS) provides information on the symptoms, duration, and location of illness, which allows public health workers to work rapidly and appropriately to address the incidents.

NPS Forms 10-685 *Concession Employee Illness Report* and 10-686 *Tour Vehicle Passenger Illness Report* are used for monitoring health trends in NPS units, detecting potential clusters or outbreaks, and informing and implementing disease response and control activities. We are seeking to make the following revisions to update the forms.

- (1) adding two questions at the beginning of both forms to obtain the name and email address of the person completing the form
 - (2) a question (on Form 10-685) about whether the sick employee received a diagnosis, and
 - (3) adding the Office of Public Health's contact information.
- This data provides parks, OPH staff, managers of park concessioners, and

park clinic concessioners with an early warning system for potential outbreaks to inform public health interventions.

Title of Collection: Office of Public Health, Disease Reporting and Surveillance Forms.

OMB Control Number: 1024–0286.

Form Number: NPS Forms 10–685 and 10–686.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public:

Individuals/households and private sector.

Total Estimated Number of Annual Responses: 590.

Estimated Completion Time per Response: Concession Employee Illness: 10 minutes; Tour Vehicle Passenger Illness: 15 minutes.

Total Estimated Number of Annual Burden Hours: 73.

Respondent's Obligation: Voluntary.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Phadrea Ponds,

Agency Information Collection Activities; NPS Institutional Animal Care and Use Committee (IACUC) General Submission, Exhibitor, Annual Review, and Amendment Forms

AGENCY: National Park Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the National Park Service (NPS) are proposing to renew an information collection.

DATES: Interested persons are invited to submit comments on or before June 15, 2023.

ADDRESSES: Written comments and suggestions on the information collection requirements should be

submitted by the date specified above in **DATES** to <http://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function. Please provide a copy of your comments to the NPS Information Collection Clearance Officer (ADIR–ICCO), 12201 Sunrise Valley Drive, (MS–242) Reston, VA 20191 (mail); or phadrea_ponds@nps.gov (email). Please reference Office of Management and Budget (OMB) Control Number 1024–0265 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR by mail, contact Allie Petersen, NPS IACUC Administrator by mail at Biological Resource Division, 1201 Oakridge Drive, Suite 200, Fort Collins, CO, 80525; or npsiacuc@nps.gov (email). You may also contact Dr. Laurie Baeten at laurie_baeten@nps.gov (email) or (970) 966–0756 (telephone). Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or Tele Braille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on April 22, 2022 (87 FR 24196) and ended on June 21, 2022. We did not receive any comment on that notice. We reopened the comment period with a second notice published October 28, 2022 (87 FR 65245). This notice including information about a new electronic platform, *Key Solutions protocol IACUC Software Module for Animal Subjects* that was not described in the original

notice. We receive the following comments for that notice.

Comment 1: The first comment was concerned with the welfare of dogs, cats, and primates in lab research, none of which are included in the scope of the NPS IACUC. The NPS IACUC primarily reviews field and ecological research of North American wildlife, most often in free-ranging settings. The second comment was about the review process, not this specific information collection. The commenter also suggested we add more language, definitions, and references regarding harm, pain, and distress to our forms.

NPS Response: In our response, we assured the commenter that our IACUC is well-situated to review the protocols we receive. We will also work towards incorporating additional language, definitions, and references regarding pain and distress in our communications with researchers.

Comment 2: The second comment did not specially address the information in the 60-day notice.

NPS Response: We acknowledge receipt but did not provide a response.

At the time of this submission, the electronic platform is currently under development and will not be in use before this collection expires. Therefore, the program is requesting an extension, without change to the currently approved collection. We will submit a request for revision when the electronic platform is operational.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility.

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.

(3) Ways to enhance the quality, utility, and clarity of the information to be collected.

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of
