

Officer, FEMA Region 10, *FEMA-R10-ESAComments@fema.dhs.gov*, 425-487-4713, or visit the EIS website (see **ADDRESSES** above).

SUPPLEMENTARY INFORMATION: On March 6, 2023, FEMA published a notice announcing its intent to prepare an Environmental Impact Statement (EIS) for the implementation of the plan for National Flood Insurance Program (NFIP)—Endangered Species Act (ESA) Integration in Oregon.¹ FEMA gave notice that the public scoping process had begun for the preparation of an EIS for the proposed action. The purpose of the scoping process is to solicit public comments regarding the range of issues, information, and analyses relevant to the proposed action, including potential environmental impacts and reasonable alternatives to address in the EIS. FEMA also notified the public of its intent to host in-person and virtual public scoping meetings to provide additional information to the public, and solicit comments on potential issues, concerns, and reasonable alternatives that FEMA should consider. FEMA is preparing this EIS in compliance with the National Environmental Policy Act (NEPA) of 1969 and the NEPA regulations implemented by the Council on Environmental Quality as of the date of this Notice.

Public Scoping Process, Including Scoping Meetings

This NEPA scoping process is in addition to previous opportunities available to the public to understand and influence FEMA's draft Implementation Plan. The purpose of the EIS scoping process is to gather input on the issues, concerns, possible alternatives, and potential significant impacts to the quality of the human environment that FEMA should consider in the EIS. Participants are anticipated to include, and are not limited to, agencies (Federal, state, county, and local), Tribes, public interest groups, nongovernmental organizations, businesses, trade associations, and individual members of the public.

As described under the **DATES** section of this notice, FEMA is facilitating virtual and in-person meetings to accommodate and encourage public participation. At these meetings, the public will have the opportunity to present comments on the scope of the EIS. FEMA representatives will be available to answer questions and provide additional information to

meeting attendees. In addition to providing comments at the public scoping meetings, stakeholders may submit written comments as described in the **ADDRESSES** section. Comments may be broad in nature or restricted to specific areas of concern, but they should be directly relevant to the NEPA process or potential environmental impacts as described in the **Comments** section below. Comments already submitted do not need to be resubmitted.

Comments

FEMA is seeking input on relevant information, studies, or analyses of any kind concerning impacts that result from the proposed action or alternatives. Specifically:

1. Potential effects (adverse or beneficial) that the proposed action could have on biological resources, including species and their habitat.
2. Potential effects that the proposed action could have on physical resources and natural floodplain functions.
3. Potential effects that the proposed action could have on socioeconomic, including demographics, employment, economics, minority, low-income populations, and Tribes, land use, zoning, housing, commerce, transportation, community growth, and community infrastructure.

4. Other possible reasonable alternatives to the proposed action that FEMA should consider, including additional or alternative avoidance, minimization, and mitigation measures that achieve the performance standard of no-net loss of three key natural floodplain functions.

FEMA regulation, at 40 CFR 1502.17, requires that FEMA append to the draft EIS or otherwise publish all comments received during the scoping process that identifies alternatives, information, and analysis for FEMA's consideration. FEMA respects each commentator's desire to withhold sensitive information (such as the costs associated with development in the floodplain) but, at the same time, recognizes that one set of impacts that may be associated with the implementation of the draft plan is the economic, social, and equity burden that individuals, businesses, and communities may face.

To promote informed decision-making, comments should be as specific as possible and should provide as much detail as necessary to meaningfully and fully inform FEMA of the commentator's position. Comments should explain why the issues raised are important to the consideration of potential environmental impacts and possible alternatives to the proposed action as

well as to economic, employment, and other impacts affecting the quality of the human environment.

Authority: 42 U.S.C. 4321, *et seq.*, and 40 CFR 1501.9.

Donna Defrancesco,

Assistant Administrator for Environmental Planning and Historic Preservation, Federal Emergency Management Agency.

CybersecurityAdvisoryCommittee@cisa.dhs.gov.

SUPPLEMENTARY INFORMATION: The CISA Cybersecurity Advisory Committee was established under the National Defense Authorization Act for Fiscal Year 2021, Public Law 116-283. Notice of this meeting is given under FACA, 5 U.S.C. ch. 10 (Pub. L. 92-463). The CISA Cybersecurity Advisory Committee advises the CISA Director on matters related to the development, refinement, and implementation of policies, programs, planning, and training pertaining to the cybersecurity mission of the Agency.

Agenda: The CISA Cybersecurity Advisory Committee will hold an in-person meeting on Thursday, June 22, 2023, to discuss current CISA Cybersecurity Advisory Committee activities. The open session will include: (1) a period for public comment and (2) a discussion on subcommittee updates and next steps.

The committee will also meet in a closed session from 9:00 a.m. to 1:30 p.m. ET to participate in an operational discussion that will address areas of critical cybersecurity vulnerabilities and priorities for CISA. Government officials will share sensitive information with CSAC members on initiatives and future security requirements for assessing cyber risks to critical infrastructure.

Basis for Closure: In accordance with section 10(d) of FACA and 5 U.S.C. 552b(c)(9)(B), *The Government in the Sunshine Act*, it has been determined that certain agenda items require closure, as the premature disclosure of the information that will be discussed would be likely to significantly frustrate implementation of proposed agency actions.

This agenda item addresses areas of CISA’s operations that include critical cybersecurity vulnerabilities and priorities for CISA. Government officials will share sensitive information with CSAC members on initiatives and future security requirements for assessing cyber risks to critical infrastructure.

As the premature disclosure of the information that will be discussed would be likely to significantly frustrate implementation of proposed agency action, this portion of the meeting is required to be closed pursuant to section 10(d) of FACA and 5 U.S.C. 552b(c)(9)(B).

Megan M. Tsuyi,

Designated Federal Officer, CISA Cybersecurity Advisory Committee, Cybersecurity and Infrastructure Security Agency, Department of Homeland Security.
