SUPPLEMENTARY INFORMATION:

Agenda

The Skate Committee will meet to consider Advisory Panel input and provide final input on the development of a white paper regarding thorny skate.

They will consider recent work by the Plan Development Team on the performance of skate possession limits and make recommendations to the Council on the development of possession limit alternatives to consider along with fishing year 2024-25 specifications. This could include revising the skate bait and wing possession limit, increasing the possession limit for barndoor skate, and allowing smooth skate possession. The Committee would need to recommend initiating a framework adjustment action if revising species-specific possession limits is recommended. Other business may be discussed as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.
