

Mitigation

The BLM added an anti-perching/nesting mitigation measure to the Proposed Action to reduce the potential for raven predation on Bi-State sage-grouse and the Mohave desert tortoise through installation of tubular (no-lattice) transmission structures (e.g., tubular H-frame, three-pole dead end, or monopole structures). Perch and nest deterrent devices would also be installed on all transmission and distribution structures within Mojave desert tortoise recovery units and within two miles of Bi-State sage-grouse Priority Areas for Conservation.

Anticipated Permits and Authorizations

If approved, the BLM, NPS, and BIA would issue a ROWs for their jurisdiction. The term of the ROWs would be for 30-years.

Consultation Efforts

The BLM is utilizing the NEPA substitution process to comply with the requirements of Section 106 of the National Historic Preservation Act (NHPA), 54 U.S.C. 306108, consistent with 36 CFR 800.8(c). The BLM, as lead federal agency, has incorporated information and the steps of the Section 106 process into the Draft EIS, and publication of the Draft EIS will allow the consulting parties and the public an opportunity to review and comment on the process as provided in 36 CFR 800.8(c)(2).

The BLM will continue to consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Additional government-to-government meetings are planned, and coordination will continue through project implementation.

Schedule for the Decision-Making Process

Consistent with the NEPA and BLM's land use planning regulations, the BLM will include a 30-day public protest period and a concurrent 60-day Governor's consistency review when the BLM publishes the Final EIS/Proposed RMPA. The Final EIS/Proposed RMPA is anticipated to be available in winter 2024 with an approved RMPA and Record of Decision in spring 2024.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your

personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Bureau of Ocean Energy Management

[OMB Control Number 1010-0191; Docket ID: BOEM-2023-0004]

Agency Information Collection Activities; Negotiated Noncompetitive Agreement for the Use of Sand, Gravel, and Shell Resources on the Outer Continental Shelf

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Ocean Energy Management (BOEM) proposes this information collection request (ICR) to renew Office of Management and Budget (OMB) control number 1010-0191.

DATES: Comments must be received by BOEM no later than July 25, 2023.

ADDRESSES: Send your comments on this ICR by mail to the BOEM Information Collection Clearance Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166; or by email to anna.atkinson@boem.gov. Please reference OMB control number 1010-0191 in the subject line of your comments. You may also view the ICR and its related documents by searching the docket number "BOEM-2023-0004" at <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Anna Atkinson by email at anna.atkinson@boem.gov, or by telephone at 703-787-1025. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside of the United States should use the relay services offered within their country to make

international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

BOEM is soliciting comments on the proposed ICR described below. BOEM is especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments submitted in response to this notice are a matter of public record. BOEM will include or summarize each comment in its ICR to OMB for approval of this information collection. You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information included in your comment—may be made publicly available at any time.

For BOEM to consider withholding from disclosure your personally identifiable information, you must identify, in a cover letter, any information contained in your comment that, if released, would constitute a clearly unwarranted invasion of your privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm.

Even if BOEM withholds your personally identifiable information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA) (5 U.S.C. 552). If your comment is requested under FOIA, your information will only be withheld if a determination is made that one of the FOIA exemptions to disclosure applies. Such a determination will be made in accordance with the Department of the Interior's (DOI) FOIA implementing regulations (43 CFR part 2) and applicable law.

BOEM will make available for public inspection all comments in their entirety (except proprietary information) submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses. BOEM protects proprietary information in accordance with FOIA and the DOI's implementing regulations.

Title of Collection: "30 CFR part 583, Negotiated Noncompetitive Agreements for the Use of Outer Continental Shelf Sand, Gravel, and/or Shell Resources."

Abstract: In 2017, BOEM published a final rule that created part 583 in title 30 of the Code of Federal Regulations to address the use of Outer Continental Shelf (OCS) sand, gravel, and shell resources for shore protection, beach restoration, or coastal wetlands restoration projects by Federal, State, or local government agencies, or for use in construction projects authorized by or

funded in whole or in part by the Federal Government.

The OCS Lands Act, 43 U.S.C. 1331 *et seq.*, authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of mineral resources on the OCS. Section 1337(k)(2) of title 43 authorizes the Secretary to ". . . negotiate with any person an agreement for the use of Outer Continental Shelf sand, gravel and shell resources—(i) for use in a program of, or project for, shore protection, beach restoration, or coastal wetlands restoration undertaken by a Federal, State, or local government agency; or (ii) for use in a construction project . . . that is funded in whole or in part by or authorized by the Federal Government." The Secretary delegated this authority to BOEM.

OMB Control Number: 1010–0191.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Potential respondents include Federal, State, or local governments.

Total Estimated Number of Annual Responses: 45 responses.

Total Estimated Number of Annual Burden Hours: 299 hours (Hours are same as currently approved).

Respondent's Obligation: Required to retain or obtain a benefit.

Frequency of Collection: On occasion.

Total Estimated Annual Non-hour Burden Cost: BOEM has identified no non-hour paperwork cost burdens for this collection.

Estimated Reporting and Recordkeeping Hour Burden: BOEM estimates that the annual reporting burden for this collection is 299 hours. BOEM has reviewed the hour burdens for requested information under this subpart. The following table details the regulatory sections containing information collections and their respective hour burden estimates.

BURDEN TABLE

Bureau of Ocean Energy Management

[Docket No. BOEM–2023–0029]

Notice of Availability of a Final Environmental Impact Statement for Ocean Wind LLC’s Proposed Wind Energy Facility Offshore New Jersey

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Notice of availability; final environmental impact statement.

SUMMARY: BOEM announces the availability of the final environmental impact statement (FEIS) for the construction and operations plan (COP) submitted by Ocean Wind LLC (Ocean Wind) for its proposed Ocean Wind 1 Offshore Wind Farm Project (Project) offshore New Jersey. The FEIS analyzes the potential environmental impacts of the Project as described in the COP (the proposed action) and the alternatives to the proposed action. The FEIS will inform BOEM’s decision whether to approve, approve with modifications, or disapprove the COP.

ADDRESSES: The FEIS and detailed information about the Project, including the COP, can be found on BOEM’s website at: <https://www.boem.gov/renewable-energy/state-activities/ocean-wind-1>.

FOR FURTHER INFORMATION CONTACT: Jessica Stromberg, BOEM Office of Renewable Energy Programs, 45600 Woodland Road, Sterling, Virginia 20166, (703) 787–1730 or jessica.stromberg@boem.gov.

SUPPLEMENTARY INFORMATION:

Proposed Action: Ocean Wind seeks approval to construct, operate, and maintain the Project: a wind energy

facility and its associated export cables on the Outer Continental Shelf (OCS) offshore New Jersey. The Project would be developed within the range of design parameters outlined in the Ocean Wind 1 COP, subject to applicable mitigation measures. The Project as proposed in the COP would include up to 98 wind turbine generators (WTGs), up to 3 offshore high voltage alternating current substations, inter-array cables linking the individual turbines to the offshore substations, substation interconnector cables linking the substations to each other, offshore export cables, an onshore export cable system, 2 onshore substations, and connections to the existing electrical grid in New Jersey. The WTGs, offshore substations, inter-array cables, and substation interconnector cables would be located on the OCS approximately 13 nautical miles (15 statute miles) southeast of Atlantic City, New Jersey, within the area defined by Renewable Energy Lease OCS–A 0498 (Lease Area). The offshore export cables would be buried below the seabed surface in the OCS and State of New Jersey-owned submerged lands. The onshore export cables, substations, and grid connections would be located in Ocean County and Cape May County, New Jersey.

Alternatives: BOEM considered 26 alternatives when preparing the draft environmental impact statement (DEIS) and carried forward 6 alternatives for further analysis in the DEIS and FEIS. These six alternatives include five action alternatives and the no action alternative. Twenty alternatives were rejected because they did not meet the purpose and need for the proposed action or did not meet screening criteria, which are presented appendix C of the FEIS. The screening criteria included consistency with law and regulations, technical and economic feasibility, environmental impact, and geographic considerations.

Availability of the FEIS: The FEIS, Ocean Wind 1 COP, and associated information are available on BOEM’s website at: <https://www.boem.gov/renewable-energy/state-activities/ocean-wind-1>. BOEM has distributed digital copies of the FEIS to all parties listed in appendix K of the FEIS. If you require a digital copy of the FEIS on a flash drive or paper copy, BOEM will provide one upon request, as long as copies are

available. You may request a flash drive or paper copy of the FEIS by contacting Lisa Landers at (703) 787–1520 or Lisa.Landers@boem.gov.

Cooperating Agencies: The following 11 Federal agencies and State governmental entities participated as cooperating agencies in the preparation of the FEIS: Bureau of Safety and Environmental Enforcement; U.S. Environmental Protection Agency; National Marine Fisheries Service; National Park Service; U.S. Army Corps of Engineers; U.S. Coast Guard; U.S. Fish and Wildlife Service; Department of Defense; New Jersey Board of Public Utilities; New Jersey Department of Environmental Protection; and New York State Department of State.

Authority: 42 U.S.C. 4231 *et seq.* (NEPA, as amended) and 40 CFR 1506.6.
