5. *Type of Information Collection Request:* Reinstatement with change of a previously approved collection; *Title of Information Collection:* End Stage Renal Disease Medical Evidence Report Medicare Entitlement and/or Patient Registration; *Use:* Section 226A (2) of the Social Security Act specifically states that a person must be “medically determined to have end stage renal disease. . . .” Similarly, Section 188(a) of the law states “The benefits provided by parts A and B of this title shall include benefits for individuals who have been determined to have end stage renal disease as provided in Section 226A”. The End Stage Renal Disease (ESRD) Medical Evidence (CMS–2728) is completed for all ESRD patients either by the first treatment facility or by a Medicare-approved ESRD facility when it is determined by a physician that the patient’s condition has reached that stage of renal impairment that a regular course of kidney dialysis or a kidney transplant is necessary to maintain life.

The data reported on the CMS–2728 is used by the Federal Government, ESRD Networks, treatment facilities, researchers and others to monitor and assess the quality and type of care provided to end stage renal disease beneficiaries. The data collection captures the specific medical information required to determine the Medicare medical eligibility of End Stage Renal Disease claimants. It also collects data for research and policy on this population.

The three main data systems available for evaluating the ESRD program and for monitoring epidemiology, access, and quality and reimbursement effects on quality are: (1) The United States Renal Data System (USRDS) provides basic data on patterns of incidence of ESRD in the United States. The USRDS database is intended to be used for biomedical research by investigators throughout the United States and abroad. The USRDS data is intended to supplement (and not replace) public use files produced by CMS. (2) United Network for Organ Sharing (UNOS) focus is on organ donation, transplantation and educational activities. (3) The ESRD Program Management and Medical System

(PMMIS), maintained by CMS, provide the foundation data for the USRDS. This system, as required by Public Law 95–292, section C(1)(A), is designed to serve the needs of the Department of Health and Human Services in support of program analysis, policy development, and epidemiological research.

The ESRD PMMIS includes information on both Medicare and non-Medicare ESRD patients and on Medicare approved ESRD hospitals and dialysis facilities. The methods of ESRD data collection (e.g., use of same forms, sharing of analysis) by CMS, UNOS, and USRDS have all agreed on a common data collection process that will provide needed additional information on the ESRD population.

SUPPLEMENTARY INFORMATION:

Description: Under title IV–B, subparts 1 and 2, of the Social Security Act (the Act), States, Territories, and tribes are required to submit a CFSP. The CFSP lays the groundwork for a system of coordinated, integrated, and culturally relevant family services for the subsequent 5 years (45 CFR 1357.15(a)(1)). The CFSP outlines initiatives and activities the State, Tribe or Territory will carry out in administering programs and services to promote the safety, permanency, and well-being of children and families, including, as applicable, those activities conducted under the John H. Chafee Foster Care Program for Successful Transition to Adulthood (section 477 of the Act); and the State grant authorized by the Child Abuse Prevention and Treatment Act (CAPTA). By June 30 of each year, States, Territories, and Tribes are also required to submit an APSR and a financial report called the CFS–101. The APSR is a yearly report that discusses progress made by a State, Territory or Tribe in accomplishing the goals and objectives cited in its CFSP (45 CFR 1357.16(a)). The APSR contains new and updated information about service needs and organizational capacities throughout the 5-year plan period and includes information on the use of the Family First Transition Grants and Funding Certainty Grants authorized by the Family First

Transition Act included in Public Law 116–94. The CFS–101 has three parts. Part I is an annual budget request for the upcoming fiscal year. Part II includes a summary of planned expenditures by program area for the upcoming fiscal year, the estimated number of individuals or families to be served, and the geographical service area. Part III

includes actual expenditures by program area, numbers of families and individuals served by program area, and the geographic areas served for the last complete fiscal year.

Respondents: States, Territories, and Tribes must complete the CFSP, APSR, and CFS–101. Tribes and Territories are exempted from the monthly caseworker

visits reporting requirement of the CFSP/APSR. There are approximately 180 tribal entities that currently receive IV–B funding. There are 53 States (including Puerto Rico, the District of Columbia, and the Virgin Islands) that must complete the CFSP, APSR, and CFS–101. There are a total of 233 possible respondents.
