SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection. The National Environmental Policy Act (NEPA) (42 U.S.C. 4321-4347) and the White House Council on Environmental Quality's (CEQ) Regulations for Implementing NEPA (40 CFR parts 1500-1508) require that Federal agencies complete an environmental analysis for all major Federal actions significantly affecting the environment. Those actions may include a Federal agency's decision to fund non-Federal projects under grants and cooperative agreements, including infrastructure projects. In order to determine NEPA compliance requirements for a project receiving Department of Commerce (DOC) bureau-level funding, DOC must assess information which can only be provided by the applicant for Federal financial assistance (grant).

The Environmental Questionnaire and Checklist (EQC) provides Federal financial assistance applicants and DOC staff with a tool to ensure that the necessary project and environmental information is obtained. The EQC was developed to collect data concerning potential environmental impacts that the applicant for Federal financial assistance possesses and to transmit that

information to the Federal reviewer. The EQC allows for a more rapid review of projects and facilitate DOC's evaluation of the potential environmental impacts of a project and level of NEPA documentation required. DOC staff use the information provided in answers to the questionnaire to determine compliance requirements for NEPA and conduct subsequent NEPA analysis as needed. Information provided in the questionnaire may also be used for other regulatory review requirements associated with the proposed project, such as the National Historic Preservation Act.
