

OMB No. 3064-0184 Total Estimated Annual Burden (Hours): 4,049.

General Description of Collection: Section 13 of the Bank Holding Company Act of 1956 (“Section 13”) contains certain restrictions on the ability of a banking entity to engage in proprietary trading and to have certain interests in, or relationships with, a hedge fund or private equity fund. The FDIC’s regulations at 12 CFR part 351 (part 351) implement Section 13 with respect to FDIC-supervised insured depository institutions (IDIs). The requirements in part 351 do not apply to FDIC-supervised IDIs that have, and if every company that controls it has, total consolidated assets of \$10 billion or less and total trading assets and trading liabilities, that are 5 percent or less of total consolidated assets.¹ Part 351 contains provisions that constitute information collections (ICs) under the Paperwork Reduction Act corresponding to policies, rules, and regulations regarding periodic reporting requirements, documentation of trading activities and compliance programs, and various other recordkeeping and disclosure requirements for FDIC-supervised IDIs that are subject to the requirements of part 351 (covered bank).

There is no change in the substance or methodology of this information collection. The estimated annual burden for this information collection is 4,049 hours. This is an increase of 856 hours from the total estimated annual burden of 3,193 hours submitted in 2020. As was the case in the 2020, the FDIC assumes that all covered banks have completed the implementation portions of this information collection. Thus, the current estimated annual implementation burden is identical to the estimated annual implementation burden in 2020 (1,664 hours).

The increase in burden is driven entirely by the increase in the total annual ongoing burden which is now estimated to be 2,385 hours, an increase of 856 hours from the estimated annual burden used in 2020 (1,529 hours). Specifically, the number of covered banks considered to have “significant” trading assets and liabilities has increased from one in 2020 to two in the current estimate. . . . Generally, the ICs that apply only to these covered banks—such as those under § 351.20(a)—351.20(e)—have the highest estimated time per response and an increase in the number of respondents will lead to a correspondingly large increase in the total estimated annual burden. This increase is attenuated by a decrease in

the total number of covered banks with “moderate” or “significant” trading assets and liabilities from ten in the 2020 ICR to seven in this ICR, which has led to a corresponding decrease in the total estimated annual burden for those line items that apply to all covered banks with “moderate” or “significant” trading assets and liabilities. The total estimated annual hourly burden for both implementation and ongoing compliance is shown in Tables 1 and 2 above

Request for Comment

Comments are invited on: (a) Whether the collections of information are necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collections of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
