

Justification for Determination of the Effective Date

Section 553(d) of the Administrative Procedure Act (APA) (5 U.S.C. 551 *et seq.*) authorizes agencies to make rules effective in less than thirty days, upon a finding of “good cause.” Since the FAA issued AD 92–02–14, no new occurrences of incorrect cable installations have been reported, and existing maintenance activities are adequate to prevent new occurrences. Therefore, the FAA is issuing this AD to remove AD 92–02–14, and the FAA did not receive any adverse comments or useful information about this AD from U.S. operators that necessitates waiting 30 days for relief from this requirement. Accordingly, the FAA finds that good cause exists pursuant to 5 U.S.C. 553(d) for making this amendment effective in less than 30 days.

Conclusion

The FAA reviewed the relevant data, considered the comment received, and determined that air safety requires adopting this AD as proposed. Except for minor editorial changes, this AD is adopted as proposed in the NPRM. None of the changes will increase the economic burden on any operator.

This AD removes all actions of AD 92–02–14. Therefore, the requirements of AD 92–02–14 are terminated.

Related Costs of Compliance

This AD adds no costs. This AD removes AD 92–02–14 from 14 CFR part 39; therefore, operators are no longer required to show compliance with that AD.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency’s authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority.

Regulatory Findings

The FAA determined that this AD will not have federalism implications under Executive Order 13132. This AD

will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

- (1) Is not a “significant regulatory action” under Executive Order 12866,
- (2) Will not affect intrastate aviation in Alaska, and
- (3) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because immediate action is needed to respond to the potential safety hazards

associated with the high-speed power boat race scheduled to take place on June 10, 2023, and June 11, 2023.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Immediate action is needed to respond to the potential safety hazards associated with the "Southern Maryland Boat Club Piney Point Rumble on the River Regatta" event.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70041. The Captain of the Port, Sector Maryland-National Capital Region (COTP) has determined that potential hazards associated with the vintage and historic racing powerboat demonstration will be a safety concern for anyone intending to participate in this event and for vessels that operate within specified waters of the St. Mary's River. These hazards include risks of injury or death resulting from near or actual contact among participant vessels and spectator vessels or waterway users if normal vessel traffic were to interfere with the event. The purpose of this rule is to protect event participants, non-participants, and transiting vessels before, during, and after the scheduled event.

IV. Discussion of the Rule

This rule establishes special local regulations from 7:30 a.m. on June 10, 2023, through 5 p.m. on June 11, 2023. The regulations will be enforced from 7:30 a.m. to 5 p.m. on June 10, 2023, and from 7:30 a.m. to 5 p.m. on June 11, 2023. The regulated area will cover all navigable waters of St. George Creek within an area bounded by a line connecting the following points: from the shoreline at Cedar Point at position latitude 38°09'03.4" N, longitude 076°29'55.7" W; thence south along the shoreline to Coade Bar at latitude 38°08'22.5" N, longitude 076°29'19.9" W; thence southeast across St. George Creek to Dodson Point at latitude 38°08'03.8" N, longitude 076°29'44.6" W; thence north along the shoreline and the eastern extent of the St. George Island (SR-249) Bridge to Long bar (at the entrance to St. George Harbor) at latitude 38°08'50.6" N, longitude 076°30'13.0" W; thence northeast across St. George Creek to and terminating at the point of origin. The regulated area is approximately 1,750 yards in length and 940 yards in width.

This regulation provides additional information about areas within the regulated area, and their definitions and the restrictions that will apply to mariners. These areas include "Race
