

Time: 10:00 a.m. to 9:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Rockledge II, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Subhamoy Pal, Ph.D., Scientific Review Officer, Center for Scientific Review, 6701 Rockledge Drive, Bethesda, MD 20892, 301-594-0926, subhamoy.pal@nih.gov.

Name of Committee: Endocrinology, Metabolism, Nutrition and Reproductive Sciences Integrated Review Group; Pathophysiology of Obesity and Metabolic Disease Study Section.

Date: June 27–28, 2023.

Time: 10:00 a.m. to 8:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Rockledge II, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Heather Marie Brockway, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 813H, Bethesda, MD 20892, (301) 594-5228, brockwayhm@csr.nih.gov.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG-2021-0345]

Port Access Route Study: The Pacific Coast From Washington to California

AGENCY: Coast Guard, DHS.

ACTION: Notice of availability of study.

SUMMARY: The Coast Guard announces the availability of the study results of the Pacific Coast Port Access Route Study. This study evaluated safe access routes for the movement of vessel traffic proceeding to or from ports or places along the western seaboard of the United States. As a result of the study data and public input, the Coast Guard recommends the establishment of voluntary shipping fairways (“fairway”) for coastwise and nearshore vessel traffic to promote the safe, unobstructed navigation of vessels in the study area.

FOR FURTHER INFORMATION CONTACT: For information about this document call or

email LCDR Sara Conrad, Coast Guard Pacific Area (PAC-54), U.S. Coast Guard; telephone (510) 437-3813, email Sara.E.Conrad@uscg.mil or Mr. Tyrone Conner, Eleventh Coast Guard District (dpw), U.S. Coast Guard; telephone (510) 437-2968, email Tyrone.L.Conner@uscg.mil or Mr. John Moriarty, Thirteenth Coast Guard District (dpw), U.S. Coast Guard; telephone (206) 220-7274, email John.F.Moriarty@uscg.mil.

SUPPLEMENTARY INFORMATION:

Background

The Ports and Waterways Safety Act, (PWSA)(46 U.S.C. 70003(c)(1)), authorizes the Commandant of the Coast Guard to designate necessary fairways and traffic separations schemes (TSSs) to provide safe access routes for vessels proceeding to and from United States ports. The designation of fairways and TSSs recognizes the paramount right of navigation over all other uses in the designated areas.

Before establishing or adjusting fairways, 46 U.S.C. 70003(c)(1) requires the Coast Guard to study potential traffic density and assess the need for safe access routes for vessels. During this process, the Coast Guard considers the views of the maritime community, environmental groups, and other stakeholders to reconcile the need for safe access routes with reasonable waterway uses. See 46 U.S.C. 70003(c)(3).

On July 28, 2021, the Coast Guard announced that the Coast Guard Pacific Area Command would conduct a Pacific Coast Port Access Route Study (PAC-PARS). 86 FR 40791. The study area encompassed all vessel traffic patterns approaching and departing major ports along the west coast to include all current Traffic Separation Schemes and vessel maneuvering along the Pacific Coast from Washington to California and all federal navigable waters out to the EEZ. The PAC-PARS was focused on vessel traffic and navigation mitigation techniques to improve and support safe navigation transits within the major Pacific Coast Ports and the United States EEZ.

The PAC-PARS aimed to enhance navigational safety by examining existing shipping routes and waterway uses and, to the extent practicable, reconciling the paramount right of navigation within designated port access routes with other waterway uses such as the development of aquaculture farms, offshore renewable energy, commercial space ports/re-entry sites, marine sanctuaries, ports supporting Panamax vessels, potential LNG ports

and additional commercial vessel traffic.

On August 26, 2022, the Coast Guard published a draft study containing recommended routing measures and requested public comments. After examining stakeholder responses to the draft recommendations, analyzing current and historical vessel traffic, fishing vessel information, agency and stakeholder experience in vessel traffic management, navigation, ship handling, and effects of weather, the study determined that there is a need to establish voluntary fairways for coastwise and nearshore vessel traffic to promote safety of navigation in the study area. As part of the PAC-PARS Final Report, which is available for public review in this docket, charts of the recommended fairways are included as Appendices I, II, and III. Examples of public notice and outreach documents are included in Appendices IV–X. Two vessel traffic analyses, for coastal waters and port approaches, are included as Enclosures 1 and 2, respectively. Earlier **Federal Register** announcements associated with this effort are included as Enclosures 3–5. Enclosure 6 contains the Public Comments adjudication included in the Draft Study. Finally, the three recommendation memorandums from each Coast Guard command involved in this study are provided in Enclosures 7, 8, and 9.

The Final Study, appendices, and enclosures can also be found at the Coast Guard Navigation Center website Port Access Route Studies | Navigation Center (uscg.gov).

This notice is issued under authority of 46 U.S.C. 70003(c)(1).

Dated: May 25, 2023.

A.J. Tionson,

Vice Admiral, U.S. Coast Guard, Commander, Pacific Area.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2023-0002; Internal Agency Docket No. FEMA-B-2343]

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations,

which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before September 5, 2023.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

You may submit comments, identified by Docket No. FEMA-B-2343, to Rick Sacibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472,

(202) 646-7659, or (email) patrick.sacibit@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Rick Sacibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacibit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be

considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at https://www.floodsrp.org/pdfs/srp_overview.pdf.

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables. For communities with multiple ongoing Preliminary studies, the studies can be identified by the unique project number and Preliminary FIRM date listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

Federal Emergency Management Agency

[Docket ID FEMA–2023–0002; Internal Agency Docket No. FEMA–B–2222]

Proposed Flood Hazard Determinations for McIntosh County, North Dakota and Incorporated Areas

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice; withdrawal.

SUMMARY: The Federal Emergency Management Agency (FEMA) is withdrawing its proposed notice concerning proposed flood hazard determinations, which may include the addition or modification of any Base Flood Elevation, base flood depth, Special Flood Hazard Area boundary or zone designation, or regulatory floodway (herein after referred to as proposed flood hazard determinations) on the Flood Insurance Rate Maps and, where applicable, in the supporting Flood Insurance Study reports for McIntosh County, North Dakota and Incorporated Areas.

DATES: This withdrawal is effective June 5, 2023.

ADDRESSES: You may submit comments, identified by Docket No. FEMA–B–2222, to Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) patrick.sacbibit@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646–7659, or (email) patrick.sacbibit@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: On March 15, 2022, FEMA published a proposed notice at 87 FR 14550, proposing flood hazard determinations for McIntosh County, North Dakota and Incorporated Areas. FEMA is withdrawing the proposed notice.

Authority: 42 U.S.C. 4104; 44 CFR 67.4.
