Need For and Use of Information:

Abstract: Renewal of this information collection will enable TVA to obtain qualitative customer and stakeholder feedback and input in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery and enable the public to register for public forums, events, and other opportunities. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback and input will provide TVA with insights into customer or stakeholder perceptions, experiences, and expectations; help TVA quickly identify actual or potential problems with how the agency provides services to the public; focus attention on areas where communication, training, or changes in operations might improve TVA's delivery of its products or services; and engage the public on community needs and concerns to guide the direction of new products and services. These collections will allow for ongoing, collaborative, and actionable communications between TVA and its customers and

stakeholders. It will also allow feedback and input to contribute directly to the improvement of program management. TVA will solicit feedback and input in areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, resolution of issues with service delivery, impacts of events, community needs and concerns, and interest in new programs and services. TVA will use the responses to plan and inform its efforts to improve or maintain the quality of service and programs offered to the public and chart the direction of new programs and offerings. TVA will use the registration information for logistical planning for public events, required access control to government property, and connection to service and program offerings. If this information is not collected, TVA will not have access to vital feedback and input from customers and stakeholders about the agency's services and programs and the public will not have access to TVA-sponsored events, programs, or services. TVA will only submit an information collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- The collections are targeted to the solicitation of feedback and input from respondents who have experience with the program or who may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and will not be retained beyond the immediate need;
- Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency (if released, TVA will indicate the qualitative nature of the information);
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information, and the collections will not be designed or expected to yield statistically reliable results or used as though the results are

generalizable to the population of study. Feedback collected under this generic clearance provides useful information, but will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

[Docket No. FAA-2022-1739]

Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Airport Grants Program

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on January 5, 2023. The collection involves gathering data from airport sponsors and planning agencies to determine eligibility, ensure compliance with Federal requirements, and ensure proper use of Federal funds and project accomplishments for the Airport Improvement Program and Bipartisan Infrastructure Law (BIL) programs. Submission is required to receive funds. **DATES:** Written comments should be submitted by July 5, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/

PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Kay Ryder by email at: kay.ryder@faa.gov; phone: 202–267–3831.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

Standard Forms 424, 425, 425A, 1445. DOL Form 347.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on January 5, 2023 (88 FR 900).

Codification of certain U.S. Transportation laws at 49 U.S.C., repealed the Airport and Airway Improvement Act of 1982, as amended, and the Aviation Safety and Noise Abatement Act of 1979, as amended, and re-codified them without substantive change at Title 49 U.S.C., which is referred to as the “Act.” The Act provides funding for airport planning and development projects at airports included in the National Plan of Integrated Airport Systems. The Act also authorizes funds for noise compatibility planning and to carry out noise compatibility programs. The Infrastructure Investment and Jobs Act, referred to as the Bipartisan Infrastructure Law (BIL), provided approximately \$20 billion for airport infrastructure, terminal development, including multimodal terminal development and on-airport rail access projects, and airport owned towers. The information required by these programs is necessary to protect the Federal interest in safety, efficiency, and utility of the Airport. Data is collected to meet reporting requirements of 2 CFR part

200 for certifications of domestic preferences and representations, financial management and performance measurement.

Respondents: Approximately 22,362.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: Approximately 8.2 hours.

Estimated Total Annual Burden: Approximately 182,675 hours.

Issued in Washington, DC, on May 31, 2023.

Type of Review: Renewal of an information collection

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on February 28, 2023 (88 FR 12715). In 2010, the FAA issued a final rule mandating equipage requirements and performance standards for Automatic Dependent Surveillance–Broadcast (ADS–B) Out avionics on aircraft operating in certain airspace after December 31, 2019. Aircraft operators must be equipped with ADS–B Out to fly in most controlled airspace. Federal Regulations 14 CFR 91.225 and 14 CFR 91.227 contain requirement details. Each registered aircraft is assigned an aircraft registration number and an ICAO 24-bit aircraft address. This is also referred to as a “Mode S Code” in some FAA documents and websites, including the FAA Aircraft Registry. Where a 1090–MHz Extended Squitter (1090ES) transponder is required for ADS–B Out compliance, this ICAO 24-bit aircraft address, based on current transponder avionics standards, is openly broadcasted on the 1090 MHz frequency in transponder replies and
