On May 30, 2023, the Commission terminated the investigation with respect to SMC due to withdrawal of the complaint. Order No. 27 (April 27, 2023), *unreviewed by Comm'n Notice* (May 30, 2023).

On May 8, 2023, Bell filed an unopposed motion to withdraw the complaint and terminate the investigation and suspend the procedural schedule with respect to the remaining NXP respondents, pursuant to Commission Rule 210.21(a) (19 CFR 210.21(a)). On May 9, 2023, OUII filed a response in support of Bell's motion.

On May 9, 2023, the presiding ALJ issued the subject ID (Order No. 28) granting the motion, terminating the investigation as to NXP, and terminating the investigation in its entirety. The ALJ ordered suspension of the procedural schedule with respect to NXP pending final disposition by the Commission. The ID finds that the motion meets the requirements of Commission Rule 210.21(a), in that there are no other agreements, written or oral, express or implied, between Bell and SMC concerning the subject matter of the investigation. Order No. 28 at 1. The ALJ further found no extraordinary circumstances that would prevent granting the requested motion. *Id.* at 2.

No party petitioned for review of the subject ID.

The Commission has determined not to review the subject ID. Accordingly, NXP is terminated from this investigation, and this investigation is hereby terminated.

The Commission vote for this determination took place on May 31, 2023.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

Carbon and Alloy Seamless Standard, Line, and Pressure Pipe From Japan and Romania

Determination

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the existing antidumping duty order on large-diameter carbon and alloy seamless standard, line, and pressure pipe from Japan and the antidumping duty orders on small-diameter carbon and alloy seamless standard, line, and pressure pipe from Japan and Romania would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on October 3, 2022 (87 FR 59779) and determined on January 6, 2023 that it would conduct expedited reviews (88 FR 20909, April 6, 2023).

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on May 31, 2023. The views of the Commission are contained in USITC Publication 5427 (May 2023), entitled *Carbon and Alloy Seamless Standard, Line, and Pressure Pipe from Japan and Romania: Investigation Nos. 731-TA-847 and 849 (Fourth Review)*.
