Safety Zone; Lake of the Ozarks MM .5-1, Approximately 500 Feet Off the Bagnell Dam, Lake of the Ozarks, MO

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone for all navigable waters of the Lake of the Ozarks at mile marker .5 to mile marker 1 approximately 500 feet southwest of the Bagnell Dam. The safety zone is needed to protect personnel, vessels, and the marine environment from potential hazards created by a series of fireworks displays. Entry of vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port Sector Upper Mississippi River or a designated representative.

DATES: This rule is effective June 17, 2023, through September 2, 2023.

I. Table of Abbreviations

CFR Code of Federal Regulations
 DHS Department of Homeland Security
 FR Federal Register
 NPRM Notice of proposed rulemaking
 § Section
 U.S.C. United States Code

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because publishing an NPRM would be impractical and contrary to the public interest due to the date the event is taking place. It is impracticable and contrary to the public interest to publish an NPRM because we must establish this safety zone by June 17, 2023, to guard against potential hazards associated with this series of events. Potential safety hazards include the accidental discharge of fireworks, dangerous projectiles, and falling hot embers or other debris.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be impracticable and contrary to the public interest due to the date the event is taking place and the need to protect against associated potential hazards. It would be impracticable to wait 30 days after publishing because we must establish this safety zone by June 17, 2023.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034. The Captain of the Port Sector Upper Mississippi River (COTP) has determined that potential hazards associated with Celebrations Cruise fireworks, on June 17, July 1, July 8, July 15, July 22, July 29, August 5, August 19, and September 2, 2023, will be a safety concern for anyone within the fallout zone. This rule is needed to protect personnel, vessels, and the marine environment in the navigable waters within the safety zone during the fireworks displays.

IV. Discussion of the Rule

This rule establishes a safety zone from June 17, 2023, through September 2, 2023. The zone will be enforced from 8:45 p.m. until 10:15 p.m. on each of the following days in 2023: June 17, July 1,

July 8, July 15, July 22, July 29, August 5, August 19, and September 2. The safety zone will cover all navigable waters within the outlined fallout zone, on the Lake of the Ozarks, between Mile Markers .5 to 1 approximately 500 feet southwest of the Bagnell Dam. The duration of enforcement of the zone is intended to protect personnel, vessels, and the marine environment in these navigable waters during the fireworks display. No vessel or person will be permitted to transit the safety zone without obtaining permission from the COTP or a designated representative.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This rule has not been designated a "significant regulatory action," under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on a series of fireworks displays that impact a one half mile stretch of the Lake of the Ozarks mile marker .5 to mile marker 1 approximately 500 feet southwest of the Bagnell Dam on June 17, July 1, July 8, July 15, July 22, July 29, August 5, August 19, and September 2, 2023 from 8:45 p.m. to 10:15 p.m. Moreover, the Coast Guard will issue a Broadcast Notice to Mariners via VHF-FM marine channel 16 about the safety zone, mariners may seek permission to enter the zone.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601-612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.
