BILLING CODE 4164-01-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID: FEMA-2023-0015; OMB No. 1660-0040]

Agency Information Collection Activities: Proposed Collection; Comment Request; Standard Flood Hazard Determination Form (SFHDF)

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: 60-Day notice of renewal and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public to take this opportunity to comment on an extension, without change, of a currently approved information collection. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning this instrument, which is used by Federally-regulated lending institutions when making, increasing, extending, renewing or purchasing each loan for the purpose of determining whether flood insurance is required and available.

DATES: Comments must be submitted on or before August 7, 2023.

ADDRESSES: To avoid duplicate submissions to the docket, please submit comments at www.regulations.gov under Docket ID FEMA-2023-0015. Follow the instructions for submitting comments.

SUPPLEMENTARY INFORMATION: Section 1365 of the National Flood Insurance Act of 1968 (NFIA) (42 U.S.C. 4104b), as added by section 528 of the National Flood Insurance Reform Act of 1994 (Pub. L. 103-325, title V), requires that FEMA develop a standard hazard determination form for recording the determination of whether a structure is located within an identified Special Flood Hazard Area and whether flood insurance is available. Regulated lending institutions, Federal Agency lenders, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, and the Government National Mortgage Association must complete this form for any loan made, increased, extended, renewed or purchased by these entities. The requirement for Federally-regulated lending institutions to determine whether a building or mobile home securing a loan is located in an area having special flood hazards and whether flood insurance is available has been in effect since the enactment of the Flood Disaster Protection Act of 1973, although the use of a standard form was not required until the enactment of the section 1365 of the NFIA. The establishment of the SFHDF has enabled lenders to provide consistent information.

SUPPLEMENTARY INFORMATION: The Emergency Communications Division, formed under title XVIII of the Homeland Security Act of 2002, 6 U.S.C. 571 *et seq.*, as amended, provides emergency communications-related technical assistance at no charge to State, regional, local, and tribal government officials. To receive this technical assistance, stakeholders must submit a request form identifying their priorities. In order for ECD to assess the value of the services it provides through technical assistance; an evaluation form is also requested of those receiving technical assistance.

ECD uses the Technical Assistance Request Form (DHS Form 9043) to identify the number and type of technical assistance services needed by the State, territory, local, and tribal agencies. This information enables ECD to plan and align resources accordingly. ECD considers each request based on the priority indicated by the State, as well as the anticipated impact of the service offering on the implementation of the Statewide Communication Interoperability Plan (SCIP) and the applicability to National Emergency Communications Plan (NECP). The evaluation form (DHS Form 9042) is completed by stakeholders at the completion of ECD technical assistance services and enables ECD to assess the

quality of technical assistance services provided and, in a holistic fashion, measure the value of the services. The information collected through these evaluations is used by ECD for continued improvement planning.

Approximately 100 percent of request and evaluation forms are submitted electronically by logging into the portal at <https://www.cisa.cisa.gov/safecom/ictapscip-resources>.

From the website, users are able to select the appropriate form, either the Technical Assistance Requests (DHS Form 9043) and/or the TA Evaluation forms (DHS Form 9042), to complete as a fillable PDF. Each form is then submitted by email to either TARequest@cisa.dhs.gov or TAevaluations@cisa.dhs.gov, respectively.

The changes to the collection since the previous OMB approval include:

Updating the web address, decreasing the estimated number of responses, decreasing the burden time, and increasing the cost estimates.

This is a renewal of the existing information collection. There are no substantial changes to the current approval. TA services by category type (NAME) have been added or removed throughout the form lifecycle. The current approval is set to expire on 7/31/2023.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.
