

862) and release dates for all noncitizen migrants served by SSP funding. This includes a summary list reporting A-Numbers (where available), names, corresponding DHS release dates, and corresponding service dates.

Shelter and Services Program (SSP) Program-Specific Required Forms and Information

In addition to the application worksheet, applicants must submit a variety of forms and information with their funding request. The list of requested information includes Form 990s when applicable, rental agreements for applicants who are requesting funding for renovations or modifications to existing facilities, and proof of purchase documentation for reimbursement requests.

State and Local Cybersecurity Grant Program (SLCGP) Investment Justification (IJ)

As part of the FY 2023 SLCGP application process, applicants must develop and submit no more than four Investment Justification forms, corresponding to each of the four SLCGP objectives described in the Notice of Funding Opportunity (NOFO). The IJ acts as a program narrative, where the applicant describes how their investments will address existing cybersecurity gaps, risks, and threats; how each investment aligns to the SLCGP Objectives; and how each project within an investment will align to the 16 cybersecurity elements described in the NOFO. The IJ concludes with an implementation schedule, a planning tool for applicants to describe the key activities and milestones associated with each project. This schedule gives applicants the ability to categorize each project within main processes of the Project Management life cycle (*e.g.*, initiate, execute, control, or close out) to allow for ease of management, reporting, and monitoring purposes.

State and Local Cybersecurity Grant Program (SLCGP) Project Worksheet (PW)

In addition to the IJ, applicants for FY2023 SLCGP funding must submit a Project Worksheet. This tool captures baseline project and budget information at the time of application. For each project, the applicant must describe each project, categorize each project within one of the objectives described in the FY 2023 SLCGP NOFO, quantify the amount to be spent for planning, organization, equipment, training and exercises (POETE) activities, identify their proposed management and administrative costs, determine whether

the project builds sustain existing core capabilities or builds new core capabilities. The projects identified in this worksheet must align to the applicant's Cybersecurity Plan.
