

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records are retrieved by name, telephone number, Social Security Number or other assigned identifiers of the individuals on whom they are maintained.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records in this system are retained and disposed of in accordance with the schedule approved by the Archivist of the United States, VHA Records Control Schedule 10–1, Item Number 1930.1.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

1. VA will maintain the data in compliance with applicable VA security policy directives that specify the standards that will be applied to protect sensitive personal information. VA's security measures comply with applicable Federal Information Processing Standards issued by the National Institute of Standards and Technology.

Access to and use of national administrative databases, warehouses and data marts are limited to those persons whose official duties require such access, and VA has established security procedures to ensure that access is appropriately limited. Information security officers and system data stewards review and authorize data access requests. VA regulates data access with security software that authenticates users and requires individually-unique codes and passwords. VA requires information security training for all staff and instructs staff on the responsibility each person has for safeguarding data confidentiality.

3. Physical access to computer rooms housing national administrative databases, warehouses and data marts is restricted to authorized staff and protected by a variety of security devices. Unauthorized employees, contractors and other staff are not allowed in computer rooms.

4. Data transmissions between operational systems and national administrative databases, warehouses and data marts maintained by this system of record are protected by state-of-the-art telecommunication software and hardware. This may include firewalls, intrusion detection devices, encryption and other security measures necessary to safeguard data as it travels across the VA-Wide Area Network.

5. In most cases, copies of back-up computer files are maintained at off-site locations.

6. VA Enterprise Cloud data storage conforms to security protocols as

stipulated in VA Directives 6500 and 6517. Access control standards are stipulated in specific agreements with cloud vendors to restrict and monitor access.

Not later than business 10 days after the date of a request to amend a record, the VA official concerned will acknowledge in writing such receipt. If a determination for correction or amendment has not been made, the acknowledgement will inform the individual of when to expect information regarding the action taken on the request. VA will complete a review of the request to amend or correct a record within 30 business days of the date of receipt. Where VA agrees with the individual's request to amend his or her record(s), the requirements of 5 U.S.C. 552a(d) will be followed.
