Foreign Agricultural Service

Title: Faculty Exchange Program.

OMB Control Number: 0551—New.

Summary of Collection: The primary purpose for this information collection is to implement the Faculty Exchange Program implemented by USDA's Foreign Agricultural Service, Global Programs, Fellowship Programs. FEP began in 1995 to bring junior or mid-level university professors from countries in the Former Soviet Union to the United States for one semester to increase their knowledge of, and ability to, teach agricultural economics, marketing, and agribusiness management at their home institutions. Between 2002–2012, the program evolved to also include an Agricultural Science area, which focused on subjects such as animal health, food quality, food inspection, phytosanitary measures, and grades and standards, and involved scientists from Africa and Central America in addition to Eastern Europe and Eurasian countries. In 2016, the FEP narrowed its geographic focus solely to Africa, and to the area of Veterinary Science. Since 2016, this Veterinary Science area of the program has hosted 71 early to mid-career instructors at Colleges of Veterinary Science and Medicine from Ethiopia, Ghana, Kenya, Tanzania, and Uganda.

Authority for these programs falls under: National Agricultural Research, Extension, and Teaching Policy Act of 1977, PL 95–113, as amended, 7 U.S.C. 3291 and 3319a.

Need and Use of the Information: The information collected through the application is used to evaluate candidates' qualifications for the Fellowship Exchange Program. The information is collected through the Scientific Exchanges Fellowship Application that candidates submit to FAS staff through an electronic application. The evaluation forms are used by Faculty Exchange Program staff to assess the success of each training program. Fellowship staff use the evaluation forms to assess whether program goals were achieved and receive feedback from participants on how to improve future programming. This is critical part of Fellowship Programs as it helps improve programs and ensure Fellowship Programs is meeting FAS goals.

Without the application and evaluation form, the Foreign Agricultural Service would not be able to execute the Faculty Exchange Program and it would be severely impacted and the objected and goals would not be met.

Description of Respondents: Individuals or households.

Number of Respondents: 35.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 888.

Departmental Information Collection Clearance Officer.

Title: Online Architectural Barriers Act (ABA) Complaint Form.

Form Number: The Online Architectural Barriers Act (ABA) Complaint Form is not assigned a form number.

Type of Review: Renewal of an information collection.

Background: The Access Board enforces the Architectural Barriers Act of 1968 (ABA) by investigating complaints from members of the public concerning particular buildings or facilities, *i.e.*, those that are: constructed or altered by or on behalf of the United States; leased with federal funds; or constructed or altered with funds from a federal grant or loan. Over 90% of

complaints the Access Board receives each year are submitted using the standardized, user-friendly, and accessible Online ABA Complaint Form; the remainder are submitted in writing, without the need to use a hard-copy complaint form, by email, mail, or fax. The Online ABA Complaint Form allows complaints to be filed 24 hours per day, seven days per week, and allows for greater efficiency, clarity, and timeliness in the complaint filing process and resolution of complaints.

The Online ABA Complaint Form prompts complainants to provide the information the Access Board needs to investigate their complaint. First, complainants must complete the form fields for at least the name of the building or facility and the city and state in which it is located. Second, complainants must describe each barrier to accessibility they have found at the building or facility. Third, complainants are given the option, but are not required, to provide personal information, including their name, address, telephone number(s), and email address. Where provided, personal information is not disclosed outside the agency without the written permission of the complainant. Complainants are also given the option to upload electronic files containing pictures, drawings, or other documents relevant to their complaint. Once any additional information and the complaint is submitted, the system provides complainants confirmation that their complaint has been submitted successfully, a complaint number for them to use when making inquiries about the status of their complaint, and an option to print their complaint. Complainants also receive an automatically generated email (if they have provided an email address) confirming the submission of their complaint.

Respondents: Individual members of the public; approximately 200 individuals file ABA complaints with the Access Board each year.

Frequency: Complainants need only submit one complaint for each building or facility at which they have found accessibility barriers, regardless of the number of barriers they found. Most complainants file only one ABA complaint. Complainants need to submit a separate form for each additional building or facility at which they have found an accessibility barrier.

Estimated Average Burden per Response: On average, less than 30 minutes; the burden may vary depending on how many allegations the complainant includes in the complaint.

There is no financial burden on respondents.

Estimated Total Annual Burden: Approximately 100 hours annually.

Request for Comment: Comments are invited on any aspect of this information collection, including: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the estimated burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information from respondents; and (d) ways to minimize the burden of the collection of information on those who are to respond.

Christopher Kuczynski,
General Counsel.
