Abstract: There are private businesses in more than 100 national parks under contract to the NPS that manage food, lodging, tours, whitewater rafting, boating, and many other recreational activities and amenities. These services gross more than \$1 billion every year and provide jobs for more than 25,000 people during peak seasons.

The regulations codified in 36 CFR part 51 primarily implement title IV of the National Parks Omnibus Management Act of 1998 (54 U.S.C. 101911 *et seq.* also referred to as Pub. L. 105-391), which provides legislative authority, policies, and requirements for the solicitation, award, and administration of NPS concession contracts. Furthermore, 54 U.S.C. 101911 *et seq.* provides that all proposed concession contracts shall be awarded by the Secretary to the person, corporation or other entity submitting the best proposal, as determined by the Secretary through a competitive selection process. Such competitive process shall include simplified procedures for small, individually owned, concessions contracts. We use the information collected to objectively evaluate offers to assure that the park resources will be adequately protected and determine which offeror will provide the best service to visitors. For the purpose of this submission, we are requesting an extension of the currently approved information collections associated with the administration of NPS concessions contracts.

Title of Collection: "30 CFR part 582, Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas, and Sulfur."

Abstract: The Outer Continental Shelf (OCS) Lands Act (43 U.S.C. 1334 and 1337(k)(1)) authorizes the Secretary of the Interior to issue leases on available areas of the U.S. OCS to the highest qualified bidder to develop any mineral resources other than oil, gas, and sulfur. The Secretary may prescribe the royalty, rental, and other terms and conditions at the time the lease is offered. The act also authorizes the Secretary to issue regulations governing such leasing.

The Secretary delegated authority to implement these provisions governing leasing and development of minerals other than oil, gas, and sulfur to BOEM. The Department's regulations at 30 CFR part 582 implement the statutory requirements governing such OCS leasing and development.

Competitive leasing has not occurred for OCS minerals other than oil, gas, and sulfur in many years. Accordingly, BOEM has not generally collected information under the part 582 regulations. However, given the regulatory requirements and heightened interest in critical minerals, the potential exists that BOEM may require information under this part. Therefore, BOEM seeks OMB renewal of this information collection.
