

groups and forums, and provide for clear and timely communication with the public.

Through the individualized partner and stakeholder outreach, Reclamation will be available for meetings upon request and will prioritize regular, meaningful, and robust consultation with Tribal Nations. Existing forums and groups will be continued and leveraged, such as the monthly Reclamation-hosted Tribal Information Exchanges. Reclamation is also exploring options for increasing tribal involvement through the potential development of new groups and forums. In addition to timely and clear communication with the public at regular NEPA milestones, Reclamation intends to set up a broad partner-stakeholder group to ensure a full understanding of each upcoming step in the NEPA process.

As discussed in the June 2022 **Federal Register** notice, the Department is also committed to identifying processes that can complement the efforts of the International Boundary and Water Commission (IBWC) to develop post-2026 agreements that would succeed current agreements contained in Minute 323 to the 1944 Water Treaty. The Department will continue to coordinate with the IBWC to ensure Interior-led domestic planning processes are implemented in a coordinated and complementary fashion to those of the IBWC with a goal of ensuring similar timelines for informed decision making.
