Abstract: The information collected under 30 CFR part 203, Relief or Reduction in Royalty Rates is used in our efforts to make decisions on the economic viability of leases requesting a suspension or elimination of royalty or net profit share. These decisions have enormous monetary impact on both the lessee and the Federal government. Royalty relief can lead to increased production of natural gas and oil, creating profits for lessees, and royalty and tax revenues for the Federal government that they might not otherwise receive. We could not make an informed decision without the collection of information required by 30 CFR part 203.
