This action extends the Class E airspace extending upward from 700 feet above the surface surrounding Redstone Army Airfield (AAF) and Huntsville Executive Tom Sharp Jr. Field. The FAA will also update terminology in the Class D and Class E surface airspace descriptions for Redstone AAF.

**DATES:** Effective date 0901 UTC, October 5, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

**SUPPLEMENTARY INFORMATION:****Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations in the area.

**History**

The FAA published a notice of proposed rulemaking for Docket No. FAA 2023-0503 in the **Federal Register** (88 FR 21141; April 10, 2023), amending Class E airspace extending upward from 700 feet above the surface at Redstone AAF and Huntsville Executive Tom Sharp Field in Huntsville, AL. This action also updates terminology in the Class D and Class E surface airspace descriptions for Redstone AAF. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

**Incorporation by Reference**

Class D and E airspace designations are published in paragraphs 5000, 6002, and 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 annually. This document amends the current version of

that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next FAA Order JO 7400.11 update.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### The Rule

This action amends 14 CFR part 71 by amending Class E airspace extending upward from 700 feet above the surface of Redstone AAF by increasing the radius to 14.1 miles (previously 9.5 miles). The FAA amends Class E airspace extending upward from 700 feet above the surface of Huntsville Executive Tom Sharp Field by increasing the radius to 7.6 miles (previously 6.3 miles). In doing so, the FAA removes Huntsville International-Carl T. Jones Field: RWY 36L-LOC from the legal description of Huntsville Executive Tom Sharp Field as it is no longer a necessary part of the legal description. In addition, this action replaces the outdated terms Airport/Facility Directory with the term Chart Supplement and Notice to Airmen with the term Notice to Air Missions in the Huntsville Class D and Class E surface airspace descriptions.

### Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially

significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
