BILLING CODE 6560-50-P

FEDERAL RESERVE SYSTEM

Privacy Act of 1974; System of Records

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice of a modified system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, notice is given that the Board of Governors of the Federal Reserve System (Board) proposes to modify an existing system of records entitled BGFRS-20, “FRB—Survey of Consumer Finances” to account for changes necessitated by title III of the Foundations for Evidence-Based Policymaking Act of 2018 (Evidence Act). BGFRS-20 is a system of records that covers the Survey of Consumer Finances (SCF), which is a voluntary triennial survey of a representative sample of households that collects information on household finances, income, employment, attitudes and demographics.

DATES: Comments must be received on or before July 21, 2023. This modified system of records will become effective July 21, 2023, without further notice, unless comments dictate otherwise.

The Office of Management and Budget (OMB), which has oversight responsibility under the Privacy Act, requires a 30-day period prior to publication in the **Federal Register** in which to review the system and to

provide any comments to the agency. The public is then given a 30-day period in which to comment, in accordance with 5 U.S.C. 552a(e)(4) and (11).

ADDRESSES: You may submit comments, identified by BGFRS-20 “FRB—Survey of Consumer Finances,” by any of the following methods:

- **Agency Website:** <https://www.federalreserve.gov>. Follow the instructions for submitting comments at <https://www.federalreserve.gov/apps/foia/proposedregs.aspx>.

- **Email:** regs.comments@federalreserve.gov. Include SORN name and number in the subject line of the message.

- **Fax:** (202) 452-3819 or (202) 452-3102.

- **Mail:** Ann E. Misback, Secretary, Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue NW, Washington, DC 20551.

In general, all public comments will be made available on the Board’s website at www.federalreserve.gov/generalinfo/foia/ProposedRegs.cfm as submitted, and will not be modified to remove confidential, contact or any identifiable information. Public comments may also be viewed electronically or in paper in Room M-4365A, 2001 C St. NW Washington, DC 20551, between 9:00 a.m. and 5:00 p.m. during Federal business weekdays.

FOR FURTHER INFORMATION CONTACT: David B. Husband, Senior Counsel, (202) 530-6270, or david.b.husband@frb.gov; Legal Division, Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue NW, Washington, DC 20551. For users of telephone systems via text telephone (TTY) or any TTY-based Telecommunications Relay Services, please call 711 from any telephone, anywhere in the United States.

SUPPLEMENTARY INFORMATION: The Board is modifying this system of records in response to the passage of title III of the Foundations for Evidence-Based Policymaking Act of 2018 (Evidence Act), which reauthorized and expanded the Confidential Information Protection and Statistical Efficiency Act (CIPSEA). Under CIPSEA as amended, OMB is tasked with creating a Standard Application Process (SAP) to permit entities and individuals to apply to access confidential data assets accessed or acquired under CIPSEA by a statistical agency or unit for the purposes of developing evidence. The Board is therefore amending this SORN to permit access to information in the system of records for the purpose of developing evidence.

Specifically, the Board is adding a new routine use to permit access to protected information (the Survey of Consumer Finances (SCF)) by individuals for the purpose of developing evidence, subject to appropriate control, supervision, and agreement to comply with all relevant legal provisions. These include requirements and standards issued by the Office of Management and Budget (OMB) in accordance with the Standard Application Process laid out in M-23-04 or any successor document. The Board is deleting the existing system-specific routine uses because the routine uses do not describe intended sharing of SCF data but rather describe administrative and technical safeguards and thus has moved that language to the administrative and technical safeguards section. The Board is also revising the administrative, technical, and physical safeguards to reflect that access may be granted to outside entities or individuals for the purposes of developing evidence, subject to appropriate controls, supervision, and agreement to comply with all relevant legal provisions. The Board is also adding Routine Use G to permit sharing with contractors and taking the opportunity to update the system location, the system manager, the authority for maintenance of the system, the purpose of the system, and the policies and practices for storage of records.

The Board is also making technical changes to BGFRS-20 consistent with the template laid out in OMB Circular No. A-108. Accordingly, the Board has made technical corrections and non-substantive language revisions to the following sections: “Policies and Practices for Storage of Records,” “Policies and Practices for Retrieval of Records,” “Policies and Practices for Retention and Disposal of Records,” “Administrative, Technical and Physical Safeguards,” “Record Access Procedures,” “Contesting Record Procedures,” and “Notification Procedures.” The Board has also created and populated the following new sections: “Security Classification” and “History.”

SYSTEM NAME AND NUMBER:

BGFRS-20, “FRB—Survey of Consumer Finances”.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 2A and 12A of the Federal Reserve Act (12 U.S.C. 225a and 263) and the Confidential Information Protection and Statistical Efficiency Act of 2018 (44 U.S.C. 3561-3583).

PURPOSE(S) OF THE SYSTEM:

The Microeconomic Survey Section, a recognized statistical unit of the U.S. government, collects and maintains the Survey of Consumer Finance (SCF) records for statistical purposes only in accordance with CIPSEA. The SCF records are used to structure, conduct, and process the SCF. The SCF is a key part of the national statistical system and it provides a basis for a wide variety of government, academic, and other statistical research.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who voluntarily respond to the SCF.

CATEGORIES OF RECORDS IN THE SYSTEM:

NORC, the independent contractor for survey data collection, holds three types of files for the SCF:

(a) Answers given by survey participants in the course of the administration of the survey questionnaire. No identifying information is included in this category.

(b) Answers given by interviewers to questions about the administration, or attempted administration, of the survey interview, and answers given by interviewers to questions about the area around the sample addresses. No identifying information is included in this category.

(c) A control file containing the name, address, other identifying or locating characteristics of members of the survey sample, and technical information describing survey participation.

The Board holds five types of files:

(a) All information included in NORC (a) and NORC (b).

(b) A control file containing general geographic characteristics and technical

information describing survey participation. No identifying information is included in this category.

(c) For a part of the survey sample, information from statistical records derived from individual tax returns, which includes a Social Security Number and date of birth, but otherwise contains no other identifying information.

(d) Files of information matched to the survey data by high-level characteristics, such as general location, occupation, banking market, etc. No identifying information is included in this category.

RECORD SOURCE CATEGORIES:

Survey participants provide the information. Survey interviewers provide other information about the steps taken to obtain an interview, the progress of the interview, and the general characteristics of the neighborhood of the sample address. NORC provides technical sample design information for a geographically based part of the survey sample. Statistical records for sample members in the other part of the sample are derived from individual tax returns, which are obtained from the Statistics of Income Division of the Internal Revenue Service.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

Data collected as a part of the SCF are protected under the Confidential Information Protection and Statistical Efficiency Act of 2018 (CIPSEA). To the extent that disclosure is permitted under CIPSEA, records may be disclosed for general routine uses C, G, I, and J. These general routine uses are located at <https://www.federalreserve.gov/files/SORN-page-general-routine-uses-of-board-systems-of-records.pdf> and are published in the **Federal Register** at 83 FR 43872 at 43873-74 (August 28, 2018). In addition, records may also be disclosed to permit outside entities or individuals to access information for the purposes of developing evidence subject to appropriate controls, supervision, and agreement to comply with all relevant legal provisions. These include requirements and standards issued by the Office of Management and Budget in accordance with the Standard Application Process laid out in M-23-04 or any successor document.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Records are stored in electronic form and some historical records are kept in paper.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records of answers provided by survey participants or interviewers can be retrieved by an identification number (which is generated for administrative purposes). Control file records can be retrieved by all categories of identifying information and above noted identification number.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

All input information is retained at least six months after the accuracy of the database has been verified and destroyed when no longer needed for administrative or reference purposes. The final version of the SCF data set is one statistically altered to protect the identity of the survey participants; this data set is placed in the public domain. A data set without these alterations is retained as a restricted version within the Microeconomics Surveys Section at the Federal Reserve Board.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Access to records is limited to those whose official duties, consistent with CIPSEA, require it, or to outside entities or individuals for the purposes of developing evidence, subject to appropriate controls, supervision, and agreement to comply with all relevant legal provisions. All records are secured by such controls as required to comply with CIPSEA. Electronic files are stored on secure servers. The system has the ability to track individual user actions within the system. The audit and accountability controls are based on NIST and Board standards which, in turn, are based on applicable laws and regulations. The controls assist in detecting security violations and performance or other issues in the system. Users are classified into different roles and common access and usage rights are established for each role. User roles are used to delineate between the different types of access requirements such that users are restricted to data that is required in the performance of their duties. Periodic assessments and reviews are conducted to evaluate the overall security of the system and data, determine whether users still require access, have the appropriate role, and whether there have been any unauthorized changes. The survey contractor uses information in the system to devise and execute a plan to request an interview with all members of the survey sample; access to such information is available only to those involved in the sample design and its implementation in the field. Upon

completion of the data collection, access by the contractor is limited to the specific information necessary to complete the initial processing of the data and to respond to requests from survey participants.

RECORD ACCESS PROCEDURES:

The Privacy Act allows individuals the right to access records maintained about them in a Board system of records.
