In addition to damage repairs, these grants are also intended to develop system capacity and resiliency in order to reduce or eliminate long-term risks from future events. Subject to any updates to the Presidentially Declared Disasters, the following states have been identified as containing areas that have been impacted by qualifying events during CY 2022: Alaska, American Samoa, Arizona, California, Florida, Hawaii, Idaho, Illinois, Iowa, Kansas, Kentucky, Maine, Massachusetts, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, New York, North Carolina, North Dakota, Oklahoma, Oregon, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, U.S. Virgin Islands, Virginia, Washington, and West Virginia. Median Household Income (MHI). The income data used in this part to determine MHI must be that which most accurately reflects the income of the service area. The MHI will be the income data for the service area as determined by the Agency-approved five-year income dataset from the United States Department of Commerce, United States Census Bureau, American Community Survey (ACS) or, if needed, other Agency-approved Census Bureau data. If there is reason to believe that the ACS data is not an accurate representation of the MHI within the area to be served, the reasons will be documented and the applicant may furnish, or the Agency may obtain, additional information regarding such MHI. Information will consist of reliable data from local, regional, State, Tribal or Federal sources, or from a survey conducted by a reliable impartial source which meets Agency established standards.

right to offer the applicant less than the grant funding requested.

F. Federal Award Administration Information

1. Federal Award Notices

(a) *Application Outcomes.* There are four possible outcomes following the submission of an application under the CY 2022 Disaster Water Grants Program. The Agency reserves the right to make no grant awards if all applications are ineligible, incomplete or do not meet the established program objectives and priorities. The Agency may determine that the application is:

- (1) Eligible and selected for funding,
- (2) Eligible but offered fewer funds than requested,
- (3) Eligible but not selected for funding, or
- (4) Ineligible for the grant.

(b) *Award Notices.* Applicants selected for funding will be sent a Letter of Conditions, accompanied by a grant agreement, which outlines the terms and conditions of the award, and other applicable documents. Pursuant to the grant agreement, 2 CFR parts 200 and 400, and other applicable provisions, grant funds may be released over the course of the grant period in reimbursement for the performance of eligible, approved activities which do not duplicate similar federal efforts or tasks. The grant agreement may also include reporting and pre-approval requirements. If such requirements are not met, it may result in a delay in reimbursement, disallowance of expense, or a suspension of the grant.

(c) *Payments/Reimbursements.* Grantees will be reimbursed as per Letter of Conditions, the grant agreement, and this Notice. No funds will be disbursed prior to the Agency’s receipt of the fully executed grant agreement. Funding requests may be submitted for allowable costs up to monthly and must include the

appropriate supporting documentation, which may include copies of payments made to contractors and other parties, and evidence of the completed work. Payment requests must be submitted using form SF–270, “Request for Advance or Reimbursement,” or similar agency approved substitute. The grantee is responsible for the monitoring and oversight of any construction, including the monitoring of progress related to the goals and objectives and any reporting required in Section F.3. of this Notice. Construction must be performed in accordance with 7 CFR 1780, sections 1780.57, 1780.61, and 1780.67 through 1780.76.

(d) *Scope of Services.* The scope of work will be attached to the executed grant agreement. Related to non-reimbursement construction applications, the grantee is responsible for ensuring that all contractual, legal, and program requirements are met prior to starting work. Construction projects that require refinement to the scope of work post-obligation will provide an updated scope of work prior to proceeding with any design or entering into any contracts. RUS will review the scope of work to ensure that the project costs are eligible and then affix the revised scope of work to the grant agreement. The grantee must ensure that any updated scope of work documents meet all accessibility, civil rights, environmental, and other applicable standards.

Any change in the scope of the project, budget adjustments of more than 20 percent of the total budget, or any other significant change in the project scope must be reported to and approved by the approval official by written amendment to the grant agreement. Any change not properly approved may cause for termination of the grant.

2. Administrative and National Policy Requirements. There are no known

unusual Administrative and National Policy Requirements associated with the CY 2022 Disaster Water Grants Program. This Notice is subject to the terms and requirements of Departmental and other regulations, including 2 CFR parts 180, 182, 200, 400, 421 and any successor regulations implementing the appropriate administrative and national policy requirements.

3. *Reporting.* Performance reporting, including applicable forms, narratives, financials, and other documentation, are to be completed and submitted in accordance with the provisions of this Notice, 2 CFR parts 200 and 400, and the grant agreement. Further, all grantees must submit an audit or financial information covering the defined period of performance as outlined in this Notice, 2 CFR part 200, subpart F, and the grant agreement.

As outlined in Section F.1. of this Notice, Grant recipients shall constantly monitor performance to ensure that time schedules are being met, projected work by time periods is being accomplished, and other performance objectives are being achieved. The recipient will provide project reports to the Agency as follows:

(a) “*Federal Financial Report (SF 425)*” and *Project Performance Report*. An SF 425 and a project performance activity report will be required of all recipients on a quarterly basis, due 30 days after the end of each quarter.

(b) *Final Project Performance Report*. A final project performance report will be required with the last SF 425 due 90 days after the end of the last quarter in which the project is completed.

(c) *Financial Reporting*. The recipient will provide an audit report or financial statements to the Agency as follows:

(1) Recipients expending \$750,000 or more Federal funds per fiscal year will submit an audit conducted in accordance with 2 CFR part 200.
