DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; PSM On-Site Consultation Agreements

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Occupational Safety & Health Administration (OSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before July 27, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Comments are invited on: (1) whether the collection of information is necessary for the proper

performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Nicole Bouchet by telephone at 202–693–0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: OSHA provides guidance to State On-Site Consultation programs to meet the requirements of the On-Site Consultation regulations, 29 CFR part 1908, through the OSHA Consultation Policies and Procedures Manual (CPPM), CSP 02–00–004, March 19, 2021. The CPPM complies with the requirements of 29 CFR 1908 to specify the framework for administering and managing the OSHA On-Site Consultation Program, and to establish policies and procedures. The On-Site Consultation Program is administered by OSHA's Directorate of Cooperative and State Programs (DCSP), Office of Small Business Assistance (OSBA). The “On-Site Consultation Program” is the Program administered by OSHA for the implementation of Consultation programs by U.S. States and territories. “On-Site Consultation program” refers to a State/U.S. territory operated program that provides no-cost consultative services to small- and medium-sized businesses. OSHA is seeking approval of the Process Safety Management (PSM) policy and procedures for the On-Site Consultation Program to apply when they assess PSM processes at small- or medium-sized business workplaces. This establishes the framework for a consistent and thorough evaluation of PSM processes to enhance the quality of Consultation services provided to employers who request such services. OSHA is also requesting a clearance for 4 information collections in the CPPM that have been in use without an OMB number to assure compliance with the Paperwork Reduction Act. The CPPM prescribes the policies and procedures for the application of the following worksheets: Interim Year SHARP Site Self-Evaluation Template, Action Plan Template for SHARP or Pre-SHARP Participation, Optional Safety and

Health Program Action Plan Tool for Implementation at Workplaces, and Incident Investigation Reporting Templates. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 22, 2023 (88 FR 10938).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NOTICE: 23–068]

Request for Information: Freedom of Information Act (FOIA) Disclosures: Proposed NASA Grant Application Marking for FOIA Disclosure-Exempt Material

AGENCY: National Aeronautics and Space Administration.

ACTION: Request for information.

SUMMARY: National Aeronautics and Space Administration’s (NASA) Grants Policy and Compliance (GPC) in the Office of Procurement is soliciting public comment on the Agency’s proposed change to the marking of grant application materials, requiring marking of proprietary or trade secrets in NASA grant and cooperative agreement applications.

DATES: Comments must be received by July 20, 2023.

ADDRESSES: Comments should be addressed to National Aeronautics and Space Administration Headquarters, 300 E Street SW, Rm. 6087, Washington, DC 20546 or sent by email to laila.ouhamou@nasa.gov; Phone Number: 202–358–2180, FAX Number: 202–358–3336. We encourage respondents to submit comments electronically to ensure timely receipt. We cannot guarantee that comments mailed will be received before the comment closing date. Please include “NASA Grants FOIA RFI” in the subject line of the email message. Please also include the full body of your comments in the text of the message and as an attachment. Include your name, title, organization, postal address, telephone number, and email address in your message.

FOR FURTHER INFORMATION CONTACT: Laila Ouhamou, 300 E Street SW, Rm. 6087, Washington, DC 20546, (202) 993–5942, email: laila.ouhamou@nasa.gov.

SUPPLEMENTARY INFORMATION: The Freedom of Information Act (FOIA) provides that any person has a right, enforceable in court, to obtain access to Federal agency records, except to the extent that such records (or portions of them) are protected from public disclosure by one of nine exemptions or by one of three special law enforcement record exclusions. Grant applicants to NASA should be aware that award information may be subject to disclosure through a FOIA request. FOIA rules contain exemptions for certain categories of information that may be restricted from release, including proprietary information which includes trade secrets or commercial or financial information that is confidential or privileged. NASA is considering a requirement that applicants indicate areas in their grant applications that they believe fall under this exemption to FOIA release. In order for NASA to determine how this proposed change may impact NASA grant and cooperative agreement applicants and recipients, please consider including answers to these questions in your response:

(1) What impacts would this grant application requirement have on your organization?

(2) Should NASA keep the same page limits if applicants must mark FOIA-exempt portions of applications?

(3) If page limits should be increased, how many pages would enable your organization need to mark the FOIA-release exempt portions?

(4) What else should NASA consider in its development of guidance surrounding FOIA for NASA grants and cooperative agreements?

NASA’s expectation is that this proposed marking of application information will enable NASA to promptly respond to FOIA requests for grant information, as required by law.

Cheryl Parker,

Federal Register Liaison Officer.
