

1862(a)(1)(E) of the Act. Consistent with section 1142 of the Act, AHRQ collaborates with CMS to define standards for clinical research studies to address the CED questions and meet the general standards for CED studies (<https://www.cms.gov/Medicare/Coverage/Coverage-with-Evidence-Development>). Since we anticipate that many of the NCDs conducted under the TCET pathway will result in CED decisions, AHRQ will continue to review all CED NCDs consistent with current practice. Additionally, AHRQ will collaborate with CMS as resources allow to evaluate the Evidence Preview and EDP and will have opportunities to offer feedback throughout the process that will be shared with manufacturers. AHRQ will be a partner with CMS as the Evidence Preview and EDP are being developed and approvals for these documents will be a joint CMS–AHRQ decision.

F. TCET and Parallel Review

While the TCET pathway will be limited to Breakthrough Devices, other potential expedited coverage mechanisms, such as Parallel Review, remain available. Eligibility for the Parallel Review program is broader than for the TCET pathway and could facilitate expedited CMS review of non-Breakthrough Devices. To achieve greater efficiency and to simplify the coverage process generally, CMS intends to work with FDA to consider updates to the Parallel Review program and other initiatives to align procedures, as appropriate.

G. Prioritizing Requests

CMS intends to review TCET pathway nominations and respond within 30 days after receipt of the email. At present, CMS anticipates accepting up to five TCET candidates annually due to CMS resource constraints. CMS intends to prioritize innovative medical devices that, as determined by CMS, have the potential to benefit the greatest number of individuals with Medicare.

III. Collection of Information Requirements

Based on our initial assessment of Breakthrough Devices applying the characteristics we list in II.C. of this notice with comment period regarding appropriate candidates for the TCET pathway, we anticipate that we will receive approximately eight nominations for the TCET pathway per

year. Due to current CMS resource constraints, we do not anticipate the TCET pathway will accept more than five candidates per year. Since we estimate fewer than 10 respondents, the information collection requirements are exempt in accordance with the implementing regulations of the Paperwork Reduction Act (PRA) at 5 CFR 1320.3(c). As we gain experience with the TCET pathway, if we receive a higher number of respondents than anticipated, we will provide an updated analysis.

IV. Response to Comments

Because of the large number of public comments, we normally receive on **Federal Register** documents, we are not able to acknowledge or respond to them individually. We will consider all comments we receive by the date and time specified in the **DATES** section of this notice, and, when we proceed with a subsequent document, we will respond to the comments in that document.

Administration for Children and Families

Proposed Information Collection Activity; Proposed Information Collection Activity, Temporary Assistance for Needy Families (TANF) Data Reporting for Work Participation (Office of Management and Budget #0970–0338)

AGENCY: Office of Family Assistance, Administration for Children and Families, United States Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Administration for Children and Families (ACF) is requesting to extend approval of the Temporary Assistance for Needy

Families (TANF) Data Reporting for Work Participation, with proposed revisions. Revisions are intended to improve the clarity of the instructions, streamline reporting, and ensure all instructions are up-to-date.

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: You can obtain copies of the proposed collection of information and submit comments by emailing infocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: This request includes the following information collections: work verification procedures, the Caseload Reduction Documentation Process, the TANF Data Report, the Separate State Program (SSP)-Maintenance of Effort (MOE) Data Report, and TANF sampling instructions. The data and information from these reports and processes are used—and will continue to be used—for program analysis and oversight, including the calculation and administration of the work participation rate and associated penalties. Congress provides federal funds to operate TANF programs in the states, the District of Columbia, Guam, Puerto Rico, the U.S. Virgin Islands, and for approved federally recognized tribes and Alaskan Native Villages. We are proposing to continue the same information collections with only changes to instructions to improve clarity and eliminate data elements and guidance that are no longer relevant. The Work Verification Plan Guidance has been updated to incorporate further guidance that was published in 2006. The TANF and SSP–MOE Data Report instructions were revised to streamline the data collection, reduce the burden on respondents by eliminating unnecessary data elements, and clarify confusing data elements. The TANF and SSP–MOE Data Report layouts were also updated to reflect the streamlined instructions. The TANF Sample Manual was revised to eliminate outdated and unused sections.

Respondents: The 50 states of the U.S., the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands.

Justification: The Consolidated Appropriations Act, 2023, included additional funds to support Infant Toddler Courts. Guidance provided in House Report 117–403 specified a “funding increase of \$5,000,000 above the fiscal year 2022 enacted level to existing court team grantees,” which

HRSA understands is intended to include support for teams currently funded by ITCP State awards (HRSA–22–073). The supplemental awards align with the current ITCP—State awards funding opportunity (HRSA–22–073) and program purpose to continue and expand research-based infant-toddler

court teams to improve child welfare practices and enhance the early developmental health and well-being of infants, toddlers, and their families. HRSA is awarding a total of approximately \$2.7 million to the 12
