- Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection

In compliance with OMB Guidelines contained in 2 CFR 200, recipient organizations are required to provide, and the U.S. Department of State is required to collect, periodic program and financial performance reports. The responsibility of the Department to track and monitor the programmatic and financial performance necessitates a database that can help facilitate this in a consistent and standardized manner. The SAMS Domestic Results Monitoring Module enables enhanced monitoring and evaluation of grants through standardized collection and storage of relevant award elements, such as quarterly progress reports, workplans, results monitoring plans, grant agreements, and other business information related to implementers. The SAMS Domestic Results Monitoring Module streamlines communication with implementers and allows for rapid identification of information gaps for specific projects.

Methodology

Information will be electronically entered into SAMS Domestic by respondents.

Nathalie B. Stevens,

Division Director, Bureau of Administration, Office of Logistic Management, Department of State.
