

accordance with TSA security program requirements, regulated entities may use an alternate manual submission method to identify known shippers.

Regulated entities must also enter into IACMS the information required from applicants requesting to be approved as IACs in accordance with 49 CFR 1548.7 and the information required for their IAC annual renewal. Regulated entities must also maintain records, including records pertaining to security programs, training, and compliance to demonstrate adherence with the regulatory requirements. These records must be made available to TSA upon request. The forms used in this collection of information include the Aviation Security Known Shipper Verification Form and the Security Threat Assessment Application.

Finally, select aircraft operators and foreign air carriers operating under certain amendments to their security programs must provide to TSA detailed screening volumes and the methodology utilized to arrive at these volumes, as well as demonstrating progress toward full compliance with the cargo security measures specified in such amendments.

Estimated Burden Hours

This ICR covers multiple activities. TSA estimates that there will be—

- (1) 3,575 annual respondents regarding Security Programs, for an annual hour burden of 14,335;
- (2) 1,546 annual respondents regarding Security Program Amendments, for an annual hour burden of 1,546.
- (3) 98,500 annual responses from regulated entities applying for an STA, for an annual hour burden of 24,625;
- (4) 801,400 annual responses from regulated entities accessing the KSMS, for an annual hour burden of 28,067; and
- (5) 3,575 annual respondents to the Security Program and STA recordkeeping requirement, for an annual hour burden of 8,504.

Comprehensively, TSA estimates total annual respondents of 3,575 and annual burden of 77,077 hours for this collection.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Technical Suitability of Products.

OMB Approval Number: 2502-0313.

OMB Expiration Date: 3/31/2024.

Type of Request: Revision of a currently approved collection.

Form Number: HUD-92005, Description of Materials.

Description of the need for the information and proposed use: This information is needed under HUD’s Technical Suitability of Products program, which provides for the acceptance of new materials and products used in buildings financed with HUD-insured mortgages. This includes new single-family homes, multi-family homes, and healthcare-type facilities.

Respondents: Business or other for-profit.

Estimated Number of Respondents: 39.

Estimated Number of Responses: 39.

Frequency of Response: 1.

Average Hours per Response: 26.

Total Estimated Burden: 1,131 hours.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comments in response to these questions.

DEPARTMENT OF THE INTERIOR**Geological Survey**

[GX23GB00UM20200; OMB Control Number 1028–0133]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Earth Mapping Resources Initiative (Earth MRI) Competitive Cooperative Agreement Program With State Geological Surveys

AGENCY: U.S. Geological Survey, Department of the Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the U.S. Geological Survey (USGS) will seek Office of Management and Budget (OMB) approval of an extension of a previously approved information collection.

DATES: Interested persons are invited to submit comments on or before August 2, 2023.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to USGS, Information Collections Clearance Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to *gs-info_collections@usgs.gov*. Please reference OMB Control Number “1028–0133 Earth MRI” in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact James Mosely by email at *jmosley@usgs.gov*, or by telephone at (703) 648–6312. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may

also view the ICR at *http://www.reginfo.gov/public/do/PRAMain*.

SUPPLEMENTARY INFORMATION: In accordance with the PRA (44 U.S.C. 3501 *et seq.* and 5 CFR 1320.8(d)(1)), we provide the general public and other federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on April 25, 2023 (88 FR 25010). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: Public Law 117–58, section 40201, “*Earth Mapping Resources Initiative*” contained in the Bipartisan Infrastructure Law (BIL) (November 15,

2021) authorizes and accelerates the mapping efforts of the Earth Mapping Resources Initiative (Earth MRI).

Earth MRI is a component of the U.S. Geological Survey (USGS) Mineral Resources Program and is a national effort to carry out the fundamental resources- and mapping mission of the USGS. The goal of Earth MRI is to modernize the surface and subsurface geologic mapping of the United States, with a focus on identifying areas that may have the potential to contain mineral resources.

The BIL directed the USGS to accelerate efforts to carry out fundamental integrated topographic, geologic, geochemical, and geophysical mapping and provide interpretation of subsurface and above-ground (mine waste) critical-mineral resources data at a funding level of \$320,000,000 annually for five years (FY2022–FY2026). The USGS developed a new competitive cooperative agreement program with the state geological surveys to support mine-waste activities authorized and funded by the BIL. State geological surveys apply for funds through an annual competitive agreement process. Individual state projects last for up to two years.

BIL section 40201 stipulates that the USGS may enter into cooperative agreements with state geological surveys to accelerate the efforts of Earth MRI. The BIL requires the USGS to collect information necessary to ensure that cooperative-agreement funds authorized by this legislation are used in accordance with the BIL and federal assistance requirements under 2 CFR 200. Information collected by Earth MRI as part of the consolidated workplan is described below. The USGS seeks OMB approval to continue to collect this information to manage and monitor cooperative agreement awards to comply with the BIL.
