

DEPARTMENT OF LABOR**Office of the Acting Secretary****All Items Consumer Price Index for All Urban Consumers; United States City Average**

Pursuant to section 33105(c) of title 49, United States Code, and the delegation of the Secretary of Transportation's responsibilities under that Act to the Administrator of the Federal Highway Administration (49 CFR 1.95(a)), the Secretary of Labor has certified to the Administrator and published this notice in the **Federal Register** that the United States City Average All Items Consumer Price Index for All Urban Consumers (1967=100) increased 181.8 percent from its 1984 annual average of 311.1 to its 2022 annual average of 876.664.

Signed at Washington, DC.

Julie A. Su,

Acting Secretary of Labor.

BILLING CODE 4510-24-P

DEPARTMENT OF LABOR**Agency Information Collection Activities; Submission for OMB Review; Comment Request; Asbestos in General Industry Standard**

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Occupational Safety & Health Administration (OSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before August 7, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of

the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT:

Nicole Bouchet by telephone at 202-693-0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: This standard requires employers to monitor employee exposure, provide medical surveillance, and to maintain accurate records of employee exposure to asbestos. These records will be used by employers, employees, and the Government to ensure that employees are not harmed by exposure to asbestos in the workplace. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 3, 2023 (88 FR 19682).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL-OSHA.

Title of Collection: Asbestos in General Industry Standard.

OMB Control Number: 1218-0133.

Affected Public: Private Sector—Businesses or other for-profits.

Total Estimated Number of Respondents: 121.

Total Estimated Number of Responses: 30,269.

Total Estimated Annual Time Burden: 10,124 hours.

Total Estimated Annual Other Costs Burden: \$877,203.

(Authority: 44 U.S.C. 3507(a)(1)(D))

Nicole Bouchet,

Senior PRA Analyst.

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR**Mine Safety and Health Administration****Petition for Modification of Application of Existing Mandatory Safety Standards**

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice.

SUMMARY: This notice is a summary of a petition for modification submitted to the Mine Safety and Health Administration (MSHA) by the party listed below.

DATES: All comments on the petition must be received by MSHA's Office of Standards, Regulations, and Variances on or before August 7, 2023.

ADDRESSES: You may submit comments identified by Docket No. MSHA-2023-0027 by any of the following methods:

1. *Federal eRulemaking Portal:*

<https://www.regulations.gov>. Follow the instructions for submitting comments for MSHA-2023-0027.

2. *Fax:* 202-693-9441.

3. *Email:* petitioncomments@dol.gov

4. *Regular Mail or Hand Delivery:*

MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, Virginia 22202-5452.

Attention: S. Aromie Noe, Director, Office of Standards, Regulations, and Variances. Persons delivering documents are required to check in at the receptionist's desk in Suite 4E401. Individuals may inspect copies of the petition and comments during normal business hours at the address listed above. Before visiting MSHA in person, call 202-693-9455 to make an appointment, in keeping with the Department of Labor's COVID-19 policy. Special health precautions may be required.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Office of Standards, Regulations, and Variances at 202-693-9440 (voice), Petitionsformodification@dol.gov (email), or 202-693-9441 (fax). [These are not toll-free numbers.]

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and title 30 of the Code of Federal Regulations (CFR) part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, sections 44.10 and 44.11 of 30 CFR establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M–2023–001–M.

Petitioner: Bunker Hill Mining Corp., 1 Mine Road, Kellogg, ID 83837.

Mine: Bunker Hill Mine, MSHA ID No. 10–00083, located in Shoshone County, Idaho.

Regulation Affected: 30 CFR 57.11052(d), Refuge areas.

Modification Request: The petitioner requests a modification of 30 CFR 57.11052(d) to allow the mine to use compressed air cylinders to supply air inside the refuge chamber in lieu of the use of a compressed air line and to provide commercially purchased water in sealed bottles inside the refuge chamber in lieu of a waterline.

The petitioner states that:

(a) The mine is an underground silver, zinc, and lead mine with one refuge chamber that is purpose built with sealed cinder block walls integrated into the mine infrastructure.

(b) Mining access is by single, lateral development drifts driven through waste rock adjacent to the ore body with entry points on different levels for ore body exploration and development.

(c) There are generally 15 miners working in the mine when development activities are underway and typically 6 miners working on the same level as the refuge chamber, one to two times a week, for approximately 6 hours at each time.

(d) There is no natural or potable water source at the mine readily available to supply water through a waterline. The storage of commercially purchased bottled water will ensure that high-quality water is available to miners in the refuge chamber, without risk of damage to a waterline.

(e) The mine does not have usable compressed air lines throughout the

mine. Due to insufficient power supply, the mine currently uses portable diesel compressors to supply compressed air periodically. However, portable diesel compressors are subject to damage or failure, so the use of portable diesel compressors to supply constant air through compressed air lines for refuge chambers is not practical or safe.

The petitioner proposes the following alternative method:

(a) The refuge chamber shall have drinking water supplied with commercially purchased water in sealed bottles inside the chamber.

(1) The water provided shall be sufficient for 6 miners for a 96 hour period. Six cases, each consisting of 32, 16.9 fluid ounce bottles of commercially bottled water shall be maintained in the refuge chamber.

(2) The bottled water shall be visually inspected monthly.

(3) The bottled water shall be replaced every 2 years or sooner in the event of damage, usage, or degradation.

(b) There shall be 4 compressed air cylinders, supplied by OXARC, inc., in the refuge chamber, each providing 322 cubic feet of compressed air.

(1) Each compressed air cylinder shall provide a minimum of 24 hours of air at a setting of 6 liters per minute or 1.32 cubic feet per hour per person of air. The total time of sufficient air provided by the 4 compressed air cylinders shall be at least 96 hours.

(2) The compressed air cylinders shall be inspected monthly during escapeway inspections to ensure that the cylinders have sufficient air and are properly maintaining pressure.

(3) Carbon dioxide (CO₂) scrubbing inside the refuge chamber shall be administered using ChemBio Enviro curtains (MSHA approval #07–LPA130002).

(4) There shall be 6 units of curtains in the refuge chamber with each curtain supplying each miner with 96 hours of CO₂ scrubbing capability.

(c) All underground personnel shall be trained on the operation of the air cylinders to release air and water rationing for a 96-hour period.

The petitioner provided a ventilation and emergency escape map that shows the refuge chamber location and primary and secondary escapeways, among other information.

The petitioner asserts that the alternative method proposed will at all times guarantee no less than the same

measure of protection afforded the miners under the mandatory standard.

Song-ae Aromie Noe,

Director, Office of Standards, Regulations, and Variances.

BILLING CODE 4520–43–P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NOTICE: 23–069]

Name of Information Collection: The NASA Visitor Management System for Intermittent Access to NASA Hosted/ Sponsored Events and Activities

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

DATES: Comments are due by July 6, 2023.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Bill Edwards-Bodmer, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546, 757–864–7998, or b.edwards-bodmer@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

NASA hosts/sponsors numerous events on federally owned/leased property which are open to NASA affiliates and members of the public. The events include but are not limited to meetings, conferences, briefings, public outreach activities, tours, focus groups, etc. Visitor access is substantiated by a credentialed NASA sponsor who validates the visitor’s need to access a building/area, guest networking services, etc. for a specific event/purpose. Information is collected
