SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Disclosure of Adjustable Rate Mortgage (ARM) Rates.

OMB Approval Number: 2502–0322.

OMB Expiration Date: 8–31–2023.

Type of Request: Extension.

Form Number: None.

Description of the need for the information and proposed use: Mortgage lenders must provide loan applicants wishing to obtain an FHA-insured Adjustable Rate Mortgage (ARM) with a pre-loan disclosure that includes a written explanation of the ARM loan features. Loan servicers must also provide mortgagors with adjustable rate mortgages an annual ARM Disclosure Notice at least 25 days before any adjustment to a mortgagor’s monthly payment may occur, advising the

borrower of the new interest rate, the new monthly payment, index value and how the adjustment was calculated. Lenders generate the ARM Disclosures electronically and generally provide these disclosures on paper to their borrowers or in electronic formats. HUD collects the pre-loan ARM disclosure as part of the origination case binder. HUD may collect post-closing ARM disclosures as part of HUD’s program monitoring and enforcement activities, e.g., when a loan is selected for HUD’s post-endorsement quality review, or the lender sends the file to HUD for claim. HUD may review collected disclosures to ensure compliance with the ARM disclosure requirements.

Respondents: Lenders.

Estimated Number of Respondents: 2,250.

Estimated Number of Responses: 60,401.

Frequency of Response: One per FHA-insured adjustable rate loan.

Average Hours per Response: .05.

Total Estimated Burden: 3,020.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507.

DEPARTMENT OF JUSTICE

Notice of Proposed Modification of Consent Decree Under the Clean Water Act

On June 29, 2023, the Department of Justice lodged a proposed First Modification of Consent Decree (“Modification”) in the United States District Court for the District of Puerto Rico in the lawsuit entitled *United States v. Puerto Rico Aqueduct and Sewer Authority*, No. 3:15–CV–02283. In this action, filed on September 15, 2015, the United States alleged that the Puerto Rico Aqueduct and Sewer Authority (“PRASA”) had violated the Clean Water Act (“CWA”), 33 U.S.C. 1251, *et seq.*, with regard to 52 PRASA wastewater treatment plants (“WWTPs”) and their associated wastewater collection systems, 768 wastewater pump stations, 119 water treatment plants (“WTPs”), and PRASA’s Puerto Nuevo Regional WWTP Sewer System (“Puerto Nuevo Sewer System”), the sewer system that services San Juan. On May 23, 2016, the United States District Court for the District of Puerto Rico entered a Consent Decree (“Decree”) that required extensive injunctive relief. The Modification makes certain changes to the requirements of the Decree, including granting extensions of time for PRASA to complete certain projects. The most significant revisions of the Decree are as follows:

The Decree required PRASA to implement six projects to address washwater discharges from drinking water treatment plants by various deadlines from December 2017 to December 2020. PRASA has not completed one of these projects. The deadline for this project has been extended to May 31, 2027.

The Decree required PRASA to implement 17 projects to address various problems in its sanitary wastewater system by various dates from December 2015 to December 2020. PRASA has completed ten of these projects. The Modification provides an extension of time for seven of the projects with new deadlines ranging from December 31, 2023, to December 31, 2028.

The Decree required that PRASA implement a Sewer System Reconnaissance involving the inspection and cleaning of the sewers located in the Puerto Nuevo Sewer System. The Modification extends certain of the deadlines for these projects and establishes deadlines for other aspects of these projects.

The Decree required that PRASA begin reporting the amount of wet weather and dry weather discharges from combined sewer (sewers conveying both wastewater and stormwater) outfalls by September 15, 2018, including estimated flow, and that, if PRASA determined that it could not estimate flow by that date, explain why such reporting was not feasible and provide a date by which such reporting would be feasible. The Modification provides that, by May 31, 2025, PRASA have a calibrated and validated model for the Puerto Nuevo Sewer System that will enable PRASA to estimate, based on combined sewer outfall level monitoring and sewer system modeling, the volume of each Combined Sewer Overflow (“CSO”) discharge and that PRASA begin to report the location, time, and estimated volume of each CSO discharge.

The Decree required PRASA to include in its Spill Response and Clean-up Plan criteria and strategies for public notification of SSOs/CSOs. The Modification requires PRASA to post to its website a table providing information concerning SSOs and CSOs. The Modification also requires PRASA to provide information on its website concerning where CSOs occur, the dangers posed by CSOs, methods for reporting CSOs, and its efforts to control CSOs.

In addition to the changes to the Decree discussed above, the Modification also requires PRASA to implement 17 new wastewater projects, at a total estimated cost of about \$530 million. The deadlines for completion of these projects range from December 31, 2024, to December 31, 2030.

The publication of this notice opens a period for public comment on the Modification. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Puerto Rico Aqueduct and Sewer Authority*, No. 3:15–CV–02283 (D.P.R.), D.J. Ref. No. 90–5–1–1–08385/4. All comments must be submitted no later than 30 days after the publication date of this notice. Comments may be submitted either by email or by mail:

DEPARTMENT OF JUSTICE

[OMB Number 1140–0002]

Agency Information Collection Activities; Proposed eCollection eComments Requested; Revision of a Previously Approved Collection; Application for Restoration of Firearms Privileges—ATF Form 3210.1

AGENCY: Bureau of Alcohol, Tobacco, Firearms and Explosives, Department of Justice.

ACTION: 60-Day notice.

SUMMARY: The Department of Justice (DOJ), Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: Comments are encouraged and will be accepted for 60 days until September 5, 2023

FOR FURTHER INFORMATION CONTACT: If you have additional comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, contact: Laura O’Lena, Explosives Enforcement Branch, either by mail at 3750 Corporal Road, Huntsville, AL 35898, by email at *FROD@atf.gov* or telephone at 256–261–7640.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

—Evaluate whether the proposed collection of information is necessary

- for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Abstract: The information requested on Application for Restoration of Firearms Privileges—ATF Form 3210.1, fulfills the requirements of 18 U.S.C. chapter 44. Under Federal law, individuals prohibited from purchasing, possessing, receiving, or transporting firearms are permitted to apply for restoration of their firearms privileges. Currently, only corporations may apply for relief as Congress has not appropriated funds for individuals who are prohibited. Information Collection (IC) OMB 1140–0002 is being revised to change the name of the form to “Application for Relief from Federal Firearms Disabilities” to reflect the process characterized in U.S.C. 925(c) and its implementing regulations at 27 CFR 478.144.
