

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in Sections 1, 4(i)–(j), 201–205, 211, 214, 219–220, 303(r), 309 and 403 of the Communications Act of 1934, as amended, 47 U.S.C 151, 154(i)–(j), 201–205, 211, 214, 219–220, 303(r), and 403.

Total Annual Burden: 15 hours.

Annual Cost Burden: \$13,300.

Needs and Uses: The Federal Communications Commission (Commission) is requesting that the Office of Management and Budget (OMB) to approve a revision to OMB Control No. 3060–1028—International Signaling Point Code. The Commission is developing revised and new electronic forms for this collection as part of the Commission’s modernization of its online, web-based electronic filing system—the International Bureau filing system (IBFS). This information collection seeks approval for the new and revised forms to request an International Signaling Point Code (ISPC), and reflects changes in the costs and burdens associated with these applications.

An ISPC is a unique, seven-digit code used to identify the signaling network of each international carrier. The ISPC has a unique format that is used at the international level for signaling message routing and identification of signaling points in Signaling System 7 networks. ISPC applications are filed through IBFS. After receipt of the ISPC application, the Commission assigns the ISPC code to each applicant (international carrier) free of charge on a first-come, first-served basis. The collection of this information is required to assign a unique identification code to each international carrier and to facilitate communication among international carriers by their use of the ISPC code on the shared signaling network. The Commission informs the International Telecommunication Union (ITU) of its assignment of ISPCs to international carriers on an ongoing basis.

In 1987, the Commission assumed the responsibility as the Administrator for the U.S. of issuing ISPCs to international carriers based on an exchange of letters between AT&T, the Commission, and the International Telecommunications Union-Telecommunications Standardization (ITU-T). The ITU allocates a specific amount of ISPCs to member countries for assignment to carriers. ITU-T Recommendation Q.708 includes a list of criteria for assignment of signaling point codes.

The ITU, headquartered in Geneva, Switzerland, is an international organization within the United Nations System where governments and the private sector coordinate global telecom networks and services. The ITU-T, which is one of three sectors of the ITU, has a continuing role in preparing the technical specifications for telecommunications systems, networks and services, including their operation, performance and maintenance. In addition, the ITU-T oversees the tariff principles and accounting methods used to provide international services.

Pursuant to the ITU guidance contained in ITU-T Recommendation Q.708, the Commission must obtain certain information from an applicant requesting a new ISPC assignment. This information is used by the Commission to assess whether the applicant’s use of the ISPC will be in compliance with ITU guidelines. The minimum information required is the name of the applicant and the name of the signaling point (typically the city where the ISPC will be located). ITU-T Recommendation Q.708 states that administrators can request additional information from applicants, which may include applicant contact information; location(s) where the ISPC(s) will be implemented; description of the nature of the use of the ISPC(s) in the network; a statement regarding the signaling point manufacturer/type; and identification of at least one planned Message Transfer Part (MTP) signaling relation. Applicants must also make several certifications/acknowledgments regarding their obligations and rights associated with an ISPC assignment.

Operators that have been assigned an ISPC must also notify the Commission when any parameters of their code assignment(s) have changed (*i.e.*, modifications), such as a change in the location where the ISPC has been implemented. In the event that an assigned ISPC has undergone a transfer of control as a result of a merger, acquisition, divestiture, or formation of a joint venture, the ISPC operator must notify the Commission of the transfer and the identity of the new holder of the ISPC (along with relevant contact information).

IBFS Modernization of ISPC Electronic Forms. The Commission seeks OMB approval of revisions to its ISPC application form and the addition of new forms that will be electronically filed through IBFS. The new online forms will ensure the Commission collects the information required by the Commission’s rules. The use of such online forms will reduce costs and administrative burdens on applicants, resulting in greater efficiencies, and improve transparency to the public. Once the Commission receives approval for the new forms from OMB, as required by section 1.10006 of the Commission’s rules, we will announce the availability of mandated e-forms and their effective dates.

Federal Communications Commission.

FEDERAL MARITIME COMMISSION

[Docket No. 23-05]

Rahal International, Inc., Complainant v. Hapag-Lloyd AG, Hapag-Lloyd (America) LLC, Hapag-Lloyd USA, LLC, Respondents; Notice of Filing of Complaint and Assignment

Served: June 30, 2023.

Notice is given that a complaint has been filed with the Federal Maritime Commission (hereinafter "Commission") by Rahal International, Inc. (hereinafter "Complainant") against Hapag-Lloyd AG, Hapag-Lloyd (America), LLC, and Hapag-Lloyd USA, LLC (hereinafter collectively referred to as "Respondents"). Complainant states that it is an independent importer and broker and corporation duly organized under the laws of Delaware with a principal place of business in Illinois. Complainant identifies Hapag-Lloyd AG as a global ocean common carrier based in Germany with a principal place of business in Germany. Complainant identifies Hapag-Lloyd (America), LLC as a United States limited liability company and agent and subsidiary of Hapag-Lloyd AG with its principal office located in Georgia. Complainant identifies Hapag-Lloyd USA, LLC as a United States limited liability company, ocean common carrier/common carrier, and agent and subsidiary of Hapag-

Lloyd AG with its principal office located in New Jersey.

Complainant alleges that Respondents violated the Shipping Act of 1984, as amended, 46 U.S.C. 40101 to 46108, specifically including that Respondents violated 46 U.S.C. 41102(c), 41104(a)(2)(A), 41104(a)(14), 41104(a)(15), 41104(d) and part 545 of title 46, Code of Federal Regulations regarding a failure to establish, observe, and enforce just and reasonable regulations and practices relating to or connected with receiving, handling, storing or delivering Complainant's property, the assessment of excessive charges, inconsistent and/or noncompliant charges, and noncompliant demurrage or detention charges. The Complainant alleges these violations arose from Respondents failure to provide adequate facilities for the return of empty containers while continuing to accept business and charge excessive ocean freight fees with knowledge of the lack of facilities and without providing alternatives, as well as, resulting logistical paralysis that precluded Complainant from its retrieval of loaded containers.

An answer to the complaint is due to be filed with the Commission within twenty-five (25) days after the date of service.

The full text of the complaint can be found in the Commission's Electronic Reading Room at <https://www2.fmc.gov/readingroom/proceeding/23-05/>. This proceeding has been assigned to the Office of Administrative Law Judges. The initial decision of the presiding judge in this proceeding shall be issued by July 1, 2024, and the final decision of the Commission shall be issued by January 15, 2025.
