VI. NSPIRE and the Public Housing Assessment System (PHAS)

For Public Housing properties subject to the Public Housing Assessment System, HUD will use the NSPIRE scoring methodology and associated property inspection scores to calculate the PHAS Physical Condition Indicator component of PHAS once a PHA’s entire portfolio has been inspected under NSPIRE. This indicator, also known as the Physical Assessment Sub-system (PASS) indicator, comprises 40 points of the 100-point PHAS score, except for Small and Rural PHAs, which are subject to 24 CFR 902 Subpart H. HUD will employ the same unit-weighted average score methodology under § 902.22 to calculate the PASS indicator score for PHAs subject to PHAS in calendar year 2023 using NSPIRE property inspection scores. Until all properties with public housing units are inspected under NSPIRE, a PHA’s physical condition indicator will continue to be based on the most recent UPCS scoring and unit-weighted average.
