

Manufacturers with 10 or more employees or importers entering products purchased from or manufactured by manufacturers with 10 or more employees must demonstrate compliance with the lead free definition by obtaining third party certification by an American National Standards Institute (ANSI) accredited, third party certification body. Firms with fewer than 10 employees can use a third party certification body or self-certify that their products conform to the Safe Drinking Water Act's (SDWA) lead free requirements. This self-certification option also extends to custom fabricated products regardless of a manufacturer's number of employees. The final rule required that manufacturers or importers certify that their products meet the requirements using a consistent verification process before September 2023.

Form Numbers: None.

Respondents/affected entities: manufacturers of lead-free pipes, fixtures and fittings.

Respondent's obligation to respond: mandatory for compliance with Reduction of Lead in Drinking Water Act of 2011.

Estimated number of respondents: 2,193 (total).

Frequency of response: annual.

Total estimated burden: 77,838 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$9.14 million (per year), includes \$2.5 million annualized capital or operation & maintenance costs.

Changes in Estimates: There is an expected decrease of hours in the total estimated respondent burden compared with the ICR currently approved by OMB due to removing the burden for initial rule implementation, which is complete.

Title: FMC Web Portal.

OMB Approval Number: 3072-XXXX.

Abstract: Section 17(a) of the Ocean Shipping Reform Act of 2022 requires that the Commission "establish on the public website of the Commission a web page that allows for the submission of comments, complaints, concerns, reports of noncompliance, requests for investigation, and requests for alternative dispute resolution"; and that it direct each submission to the appropriate component office of the Commission.

The FMC will implement a new web portal available through the agency's website to collect this information from the public. The collected information will be internally routed to the appropriate component office for response. As this collection includes inquiries related to dispute resolution services, it also encompasses Forms FMC-32 (Dispute Resolution Service Request-Cruise) and FMC-33 (Dispute Resolution Service Request-Cargo). These forms are available at <https://www.fmc.gov/forms-and-applications/>. The burden associated with these forms is included in this collection.

Current Actions: The information being submitted contains a new data collection.

Type of Review: New information collection.

Needs and Uses: The Commission will use the web portal to receive requests from the public and ensure prompt response to the shipping public.

Frequency: This information will be collected when members of the public choose to submit it.

Type of Respondents: Individuals and establishments who wish to ask questions, express concerns, or submit complaints to the Federal Maritime Commission.

Number of Annual Respondents: The Commission estimates an annual respondent universe of 5,000. The Commission further estimates 300 of these responses will require attaching an FMC form related to dispute resolution services (FMC-32 or FMC-33).

Estimated Time per Response: The time per response is estimated at 6 minutes per response for submissions that do not involve attaching forms and 20 minutes for responses requiring attaching forms.

Total Annual Burden: Burden is calculated as $4,700 \times 6$ minutes = 470 hours per portal submission that does not also include a form and 300×20 minutes = 100 hours for a submission

that also includes either a FMC-32 or FMC-33. Total burden equals 570 hours.

William Cody,
Secretary.
