SUPPLEMENTARY INFORMATION:

I. Abstract

This collection of information is required by the Trademark Act (Act), 15 U.S.C. 1051 *et seq.*, which provides for the registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. Individuals and businesses that use or intend to use such marks in commerce may file an application to register their marks with the United States Patent and Trademark Office (USPTO). The USPTO administers the Act through title 37 of the Code of Federal Regulations. These rules allow the USPTO to request and receive information required to process applications. These rules also allow applicants to submit certain amendments to their applications. This information collection generally contains information that is not submitted with the initial trademark application but is associated with, or required for, the USPTO review of applications for registration.

In some cases, the USPTO issues Office Actions to applicants who have applied to register a mark, requesting information that was not provided with the initial submission, but is required before the issuance of a registration.

Also, the USPTO may determine that a mark is not entitled to registration, pursuant to one or more provisions of the Act. In such cases, the USPTO will issue an Office Action advising the applicant of the refusal to register the mark. Applicants reply to these Office Actions by providing the required information and/or by putting forth legal arguments as to why the refusal of registration should be withdrawn.

Applicants may also supplement their applications and provide further information by filing the items included in this information collection. These items include a Voluntary Amendment Not in Response to USPTO Office Action/Letter, a Request for Reconsideration after Final Office Action, a Post-Approval/Publication/Post-Notice of Allowance (NOA) Amendment, a Petition to Amend Basis Post-Publication, or a Response to Suspension Inquiry or Letter of Suspension.

II. Method of Collection

Items in this information collection must be submitted electronically through the Trademark Electronic Application System (TEAS). In limited circumstances, applicants may also be permitted to submit the information in paper form by mail or hand delivery.
