BILLING CODE 4312–52–P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[Docket No. BOEM–2023–0029]

Notice of Availability of a Joint Record of Decision (ROD) for the Ocean Wind LLC Proposed Wind Energy Facility Offshore New Jersey

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior; National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Availability (NOA); record of decision (ROD).

SUMMARY: BOEM announces the availability of the joint ROD on the Final Environmental Impact Statement (EIS) for the construction and operations plan (COP) submitted by Ocean Wind LLC (Ocean Wind) for its Ocean Wind 1 Offshore Wind Farm Project (Project) offshore New Jersey. The joint ROD includes the decisions of the Department of the Interior (DOI) regarding the Ocean Wind 1 COP and NMFS regarding Ocean Wind LLC's requested Incidental Take Regulations (ITR) and an associated Letter of Authorization (LOA) under the Marine Mammal Protection Act (MMPA). NMFS has adopted the Final EIS to support its decision of whether or not to issue the requested ITR under the MMPA. The joint ROD concludes the National Environmental Policy Act (NEPA) process for each agency and is available with associated information on BOEM's website at: <https://www.boem.gov/>

renewable-energy/state-activities/ocean-wind-1.

FOR FURTHER INFORMATION CONTACT: For information on the Project ROD, please contact Jessica Stromberg, BOEM Office of Renewable Energy Programs, 45600 Woodland Road, Sterling, Virginia 20166, (703) 787–1730, or Jessica.stromberg@boem.gov. For information related to NMFS' action, please contact Katherine Renshaw, NOAA Office of General Counsel, (302) 515–0324.

SUPPLEMENTARY INFORMATION: Ocean Wind seeks approval to construct, operate, and maintain the Project: a wind energy facility on the Outer Continental Shelf (OCS) offshore New Jersey. The Project would be developed within the range of design parameters outlined in the Ocean Wind 1 COP, subject to applicable mitigation measures. The Project as proposed in the COP would include up to 98 wind turbine generators (WTGs), up to 3 offshore high voltage alternating current substations, inter-array cables linking the individual turbines to the offshore substations, substation interconnector cables linking the substations to each other, offshore export cables, an onshore export cable system, 2 onshore substations, and connections to the existing electrical grid in New Jersey. The WTGs, offshore substations, inter-array cables, and substation interconnector cables would be located on the OCS approximately 13 nautical miles (15 statute miles) southeast of Atlantic City, New Jersey, within the area defined by Renewable Energy Lease OCS–A 0498 (Lease Area). The offshore export cables would be buried below the seabed surface in the OCS and State of New Jersey-owned submerged lands. The onshore export cables, substations, and grid connections would be located in Ocean County and Cape May County, New Jersey. After carefully considering alternatives described and analyzed in the Final EIS and comments from the public on the Draft EIS, the Department of the Interior has decided to approve the COP for Ocean Wind 1 under Alternative A (the Proposed Action) in combination with Alternative E (Submerged Aquatic Vegetation Avoidance Alternative), which is the Preferred Alternative identified in the FEIS and one of the three environmentally preferred alternatives identified in the ROD. The full text of the mitigation, monitoring, and reporting requirements, which will be included in BOEM's COP approval as terms and conditions, are available in the ROD, which is available on BOEM's website at: <https://www.boem.gov/>

renewable-energy/state-activities/ocean-wind-1.

NMFS has adopted BOEM's Final EIS to support its decision making of whether or not to issue the requested ITR and associated LOA to Ocean Wind. NMFS' final decision of whether or not to issue the requested ITR and LOA will be documented in a separate Decision Memorandum prepared in accordance with internal NMFS policy and procedures. The ITR and associated LOA, if issued, will govern the authorization of take of marine mammals while prescribing the means of take as well as mitigation and monitoring requirements, including those mandated by the Biological Opinion issued to complete the formal Endangered Species Act Section 7 consultation process. The final ITR and a notice of issuance of the LOA, if issued, will be published in the **Federal Register**.

Authority: This Notice of Availability is published in accordance with regulations (40 CFR parts 1500–1508) implementing the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*).

Karen Baker,

*Chief, Office of Renewable Energy Programs,
Bureau of Ocean Energy Management.*

BILLING CODE 4340–98–P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–570 and 731–TA–1346 (Review)]

Aluminum Foil From China; Scheduling of Expedited Five-Year Reviews

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the scheduling of expedited reviews pursuant to the Tariff Act of 1930 (“the Act”) to determine whether revocation of the antidumping and countervailing duty orders on aluminum foil from China would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time.

DATES: June 5, 2023.

FOR FURTHER INFORMATION CONTACT: Julie Duffy (202) 708–2579, Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting

the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On June 5, 2023, the Commission determined that the domestic interested party group response to its notice of institution (88 FR 12990, March 1, 2023) of the subject five-year reviews was adequate and that the respondent interested party group response was inadequate. The Commission did not find any other circumstances that would warrant conducting full reviews.¹ Accordingly, the Commission determined that it would conduct expedited reviews pursuant to section 751(c)(3) of the Tariff Act of 1930 (19 U.S.C. 1675(c)(3)).

For further information concerning the conduct of these reviews and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

Staff report.—A staff report containing information concerning the subject matter of the reviews has been placed in the nonpublic record, and will be made available to persons on the Administrative Protective Order service list for these reviews on August 16, 2023. A public version will be issued thereafter, pursuant to § 207.62(d)(4) of the Commission's rules.

Written submissions.—As provided in § 207.62(d) of the Commission's rules, interested parties that are parties to the reviews and that have provided individually adequate responses to the notice of institution,² and any party other than an interested party to the reviews may file written comments with the Secretary on what determinations

¹ A record of the Commissioners' votes, the Commission's statement on adequacy, and any individual Commissioner's statements will be available from the Office of the Secretary and at the Commission's website.

² The Commission has found the responses submitted on behalf of the Aluminum Association Trade Enforcement Working Group and its individual members, Granges Americas Inc., JW Aluminum Company, Novelis Corporation, and Reynolds Consumer Products, LLC, to be individually adequate. Comments from other interested parties will not be accepted (*see* 19 CFR 207.62(d)(2)).

the Commission should reach in the reviews. Comments are due on or before 5:15 p.m. on August 24, 2023 and may not contain new factual information. Any person that is neither a party to the five-year reviews nor an interested party may submit a brief written statement (which shall not contain any new factual information) pertinent to the reviews by August 24, 2023. However, should the Department of Commerce (“Commerce”) extend the time limit for its completion of the final results of its reviews, the deadline for comments (which may not contain new factual information) on Commerce's final results is three business days after the issuance of Commerce's results. If comments contain business proprietary information (BPI), they must conform with the requirements of §§ 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission's procedures with respect to filings.

In accordance with §§ 201.16(c) and 207.3 of the rules, each document filed by a party to the reviews must be served on all other parties to the reviews (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Determination.—The Commission has determined these reviews are extraordinarily complicated and therefore has determined to exercise its authority to extend the review period by up to 90 days pursuant to 19 U.S.C. 1675(c)(5)(B).

Authority: These reviews are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to § 207.62 of the Commission's rules.

By order of the Commission.

Issued: July 6, 2023.

Lisa Barton,

Secretary to the Commission.
