SUPPLEMENTARY INFORMATION:

For 2700–0092:

I. Abstract

This is a notice to revise OMB control number 2700–0092 to include a voluntary demographic information collection that is currently represented by 2700–0161. This collection is required to ensure proper accounting of Federal funds and property provided under financial assistance awards (grants and cooperative agreements) per 2 CFR 200—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. 2 CFR 200, Subparts A through F, applies to all NASA award recipients except for for-profit organizations. Only Subparts A through D of 2 CFR 200 apply to for-profit organizations. Reporting and recordkeeping are prescribed at 2 CFR part 1800—Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards. The requirements in 2 CFR part 1800 are applicable to awards

that NASA issues to non-Federal entities, government, for-profit organization, and foreign organizations as allowed by 2 CFR 200.101, Applicability.

II. Methods of Collection

Grant and cooperative agreement proposals are submitted electronically through the NASA Solicitation and Proposal Integrated Review and Evaluation System (NSPIRES) or *Grants.gov*. The use of these systems reduces the need for proposers to submit multiple copies to the agency. Proposers may submit multiple proposals and notices of intent to different funding announcements without registering in NSPIRES each time.

Basis of Estimate

Approximately 7000 NASA financial assistance awards are open at any one time. It is estimated that out of the 9,900 proposals received each year, NASA awards approximately 1,977 new awards. The period of performance for each financial assistance award is usually three to five years. Performance reports are filed annually, and historical records indicate that, on average, 1,625 changes to these reports are submitted annually. The total number of respondents is based on the average number of proposals that are received each year and the average number of active grants and cooperative agreements that are managed each year. The total number of hours spent on each task was estimated through historical records and experience of former recipients. Using past calculations, the total cost was estimated using the average salary (wages and benefits) for a GS–12 step 5.

Estimated Total Annual Cost: \$47,952,000.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA’s estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

William Edwards-Bodmer,

NASA PRA Clearance Officer.
