FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 0, 1, and 80

[MD Docket No. 23-156; FCC 23-39; FR ID 145447]

Closure of FCC Lockbox 979097 Used To File Fees for Services Provided by the Wireless Telecommunications Bureau

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Federal Communications Commission (FCC or Commission) adopts an Order that

closes Lockbox 979097 and modifies the relevant rule provisions to require electronic filing and fee payments.

DATES: Effective August 14, 2023.

FOR FURTHER INFORMATION CONTACT: Warren Firschein, Office of Managing Director at (202) 418-2653 or Roland Helvajian, Office of Managing Director at (202) 418-0444.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Order, FCC 23-39, MD Docket No. 23-156, adopted on May 17, 2023 and released on May 18, 2023, which is the subject of this rulemaking. The full text of this document is available for public inspection and copying by downloading the text from the Commission's website at <https://www.fcc.gov/document/closure-lockbox-used-collect-fee-payments-wtb>.

I. Procedural Matters

A. Final Regulatory Flexibility Analysis

1. Section 603 of the Regulatory Flexibility Act, as amended, requires a regulatory flexibility analysis in notice and comment rulemaking proceedings. See 5 U.S.C. 603(a). As we are adopting these rules without notice and comment, no regulatory flexibility analysis is required.

B. Final Paperwork Reduction Act of 1995 Analysis

2. This document does not contain new or modified information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. In addition, therefore, it does not contain any new or modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4).

C. Congressional Review Act

3. The Commission will not send a copy of the Order pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A), because the adopted rules are rules of agency organization, procedure, or practice that do not "substantially affect the rights or obligations of non-agency parties. See 5 U.S.C. 804(3)(C).

II. Introduction

4. In the Order, we reduce expenditures by the Federal Communications Commission (FCC or Commission) and modernize Commission procedures by amending § 1.1102 of our rules, 47 CFR 1.1102, which sets forth the fees for applications and other filings processed by the FCC's

Wireless Telecommunications Bureau (WTB). The rule amendment reflects the closure of the P.O. Box 979097 (*i.e.*, lockbox)¹ used for manual payment of filing fees for three different broad categories of filings: (1) Site-based license applications; (2) Personal license applications; and (3) Geographic-based license applications. We discontinue the option of manual fee payments and instead require the use of an electronic payment for each listing in this rule, and make conforming changes to other related provisions.

5. Section 1.1102 of the Commission's rules, 47 CFR 1.1102, provides a schedule of fees for applications and other filings processed by WTB. The rule also directs filers that do not utilize the Commission's on-line filing and fee payment systems to send manual filings and/or payments to the Commission at P.O. Box 979097 at U.S. Bank in St. Louis, Missouri. In recent years, there have been a decreasing number of lockbox payments, and, although paper filings are contemplated by the rule, WTB now requires electronic filing of all wireless radio service applications and pleadings. As a result, transition to all electronic payments is consistent with Commission-wide efforts to digitize our systems and create efficient and more accessible interactions with the agency.

6. The Commission has reduced its reliance on P.O. Boxes for the collection of fees, instead encouraging the use of electronic payment systems for all application and regulatory fees and closing certain lockboxes. We find that electronic payment of fees for the services processed by WTB reduces the agency's expenditures (including eliminating the annual fee for the bank's services) and the cost of manually processing each transaction, with little or no inconvenience to the Commission's regulatees, applicants, and the public. As part of this effort, we are now closing P.O. Box 979097 and modifying the relevant rule provisions that permit manual filings and require payment of fees via the closed P.O. Box. Specifically, §§ 0.482, 1.1102, and 1.2107 are being modified to eliminate references to the lockbox at U.S. Bank. In addition, § 1.907 is being modified to eliminate references to applications submitted on paper, and the caption to § 1.913 is being adjusted to eliminate a reference to manual filing. In addition, we make minor modifications to our

¹ Our rules and other Commission documents refer to a series of P.O. Boxes used for the collection of fees as "lockboxes." These P.O. Boxes are located at U.S. Bank in St. Louis, Missouri. Once a payment is received, it is processed and recorded by the bank.

rules to reflect the replacement of the Commission’s prior payment interface, Fee Filer, with a module contained within the Commission’s Registration System (CORES). These rule changes are contained in the Appendix of the Order and the Final Rules of this document. We make these changes without notice and comment because they are rules of agency organization, procedure, or practice exempt from the general notice-and-comment requirements of the Administrative Procedure Act, see 5 U.S.C. 553(b)(A).

7. *Implementation of Lockbox Closure.* As a temporary transition measure, for 90 days after publication of this order in the **Federal Register**, U.S. Bank will continue to process payments to P.O. Box 979097. After that date, payments for these WTB services must be made in accordance with the procedures set forth on the Commission’s website, <https://www.fcc.gov/wireless-fees>. For now, such payments will be made upon login at <https://apps.fcc.gov/cores/userLogin.do>. Users will then access the link Manage Existing FRNs, and subsequently FRN Financials. Batch filers will use ULS Pay fees to make electronic payments. In the event an applicant is unable to make an electronic payment, the Commission’s existing waiver standard in 47 CFR 1.925(b)(3) remains the appropriate vehicle to seek relief from the electronic payment requirement. As we assess and implement U.S. Treasury initiatives toward an all-electronic payment system, we may transition to other secure payment systems with appropriate public notice and guidance.

III. Ordering Clauses

9. Accordingly, *it is ordered*, that pursuant to sections 4(i), 4(j), 158, 208, and 224 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 154(j), 158, 208, and 224, the Order is hereby *adopted* and the rules set forth in the Appendix of the Order are hereby *amended* effective August 14, 2023.

50 CFR Part 660

[Docket No.230508-0124; RTID 0648-XD072]

Fisheries Off West Coast States; Modification of the West Coast Salmon Fisheries; Inseason Actions #1-#10

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Inseason modification of 2023 management measures.

SUMMARY: NMFS announces ten inseason actions for the 2023-2024 ocean salmon fishing season. These inseason actions modify the commercial salmon troll fisheries in the area from the U.S./Canada border to Cape Falcon, OR.

DATES: The effective date for these inseason actions are set out in this document under the heading "Inseason Actions" and the actions remain in effect until superseded or modified.

FOR FURTHER INFORMATION CONTACT: Shannon Penna, 562-980-4239, Shannon.Penna@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

The annual management measures for the 2023 and early 2024 ocean salmon fisheries (88 FR 30235, May 11, 2023) govern the commercial and recreational fisheries in the area from the U.S./Canada border to the U.S./Mexico border, effective from 0001 hours Pacific Daylight Time (PDT), May 16, 2023, until the effective date of the 2024 management measures, as published in the **Federal Register**. NMFS is authorized to implement inseason management actions to modify fishing seasons and quotas as necessary to provide fishing opportunity while meeting management objectives for the affected species (50 CFR 660.409). Inseason actions in the salmon fishery may be taken directly by NMFS (50 CFR 660.409(a)—Fixed inseason management provisions) or upon

consultation with the Chairman of the Pacific Fishery Management Council (Council), and the appropriate State Directors (50 CFR 660.409(b)—Flexible inseason management provisions).

Management of the salmon fisheries is divided into two geographic areas: north of Cape Falcon (NOF) (U.S./Canada border to Cape Falcon, OR), and south of Cape Falcon (Cape Falcon, OR, to the U.S./Mexico border). The action described in this document affects the NOF commercial salmon troll fisheries, as set out under the heading "Inseason Actions" below.

Consultation with the Council Chairperson on these inseason actions occurred on May 16, 2023, May 24, 2023, and June 8, 2023. These consultations included representatives from NMFS, Washington Department of Fish and Wildlife, Oregon Department of Fish and Wildlife, and California Department of Fish and Wildlife. Representatives from the Salmon Advisory Subpanel and Salmon Technical Team were also present. A Council representative was present on May 24, 2023, and June 8, 2023.

These inseason actions were announced on NMFS' telephone hotline and U.S. Coast Guard radio broadcast on the date of the consultations (50 CFR 660.411(a)(2)).

Inseason Actions

Authorization for Inseason Actions #1-#10

The NMFS West Coast Regional Administrator (RA) considered the 2023 abundance forecasts for Chinook salmon stocks, the timing of the actions relative to the length of the season, and determined that these inseason actions described below are necessary to meet management and conservation goals for the 2023-2024 management measures. These inseason actions modified quotas and/or fishing seasons under 50 CFR 660.409(b)(1)(i).

Inseason Action #1

Description of the action: Inseason action #1 modifies the NOF ocean salmon troll commercial fishery. The area between the U.S./Canada border and the Queets River (La Push and Neah Bay subareas) is closed.

Effective dates: Inseason action #1 takes effect on May 17, 2023, at 12:01 a.m. and remains in effect until superseded.

Reason for the action: The area between the U.S./Canada border and the Queets River (La Push and Neah Bay subareas) was closed through inseason action under the 2022-2023 management measures (88 FR 37479,

June 8, 2023) from May 11, 2023, to May 15, 2023. The 2023 management measures (88 FR 30235, May 11, 2023) set the start of the season on Tuesday, May 16, 2023, however, the landing week adopted in the 2023 management measures is Thursday-Wednesday. To remain consistent with the fishing season as adopted into regulation, the fishery was closed in order for managers to take subsequent action to align the initial open fishery period with the landing week as defined in the 2023 management measures.

Inseason Action #2

Description of the action: Inseason action #2 modifies the NOF ocean salmon troll commercial fishery. The landing and possession limit in the area between the U.S./Canada border and Cape Falcon is 150 Chinook salmon per vessel per landing week (Thursday-Wednesday) May 17, 2023, through June 21, 2023, and for the period June 22, 2023, through June 29, 2023.

Effective dates: Inseason action #2 took effect on May 17, 2023, at 12:01 a.m. and remains in effect until June 29, 2023, at 11:59 p.m.

Reason for the action: Inseason action #2 was necessary to align the landing and possession limit for the area between the U.S./Canada border to Cape Falcon under the 2022-23 management measures (adopted through inseason action (88 FR 37479, June 8, 2023)) for fisheries occurring after May 15, 2023, with fisheries that occurred from May 11, 2023, through May 15, 2023.

Inseason Action #3

Description of the action: Inseason action #3 modifies the NOF ocean salmon troll commercial fishery. The area between the U.S./Canada border and the Queets River (La Push and Neah Bay subareas) is open. For the area between the U.S./Canada border and the Queets River, the landing and possession limit is 35 Chinook salmon per vessel per landing week (Thursday-Wednesday) May 18, 2023, through June 21, 2023, and for the period June 22, 2023, through June 29, 2023.

Effective dates: Inseason action #3 took effect on May 18, 2023, at 12:01 a.m. and remains in effect until June 29, 2023, at 11:59 p.m.

Reason for the action: Inseason action #3 opens the area from the U.S./Canada border and the Queets River (La Push and Neah Bay subareas) that was previously closed on May 11, 2023 (88 FR 37479, June 8, 2023). In addition, the landing and possession limit that was put in place for the landing week from May 1, 2023, to May 10, 2023, was reduced from 70 Chinook salmon to 35
