

In calculating the information collection burdens, BOEM accounted for decreases in the number of plans submitted annually and for the changes resulting from the GOM BiOp. BOEM currently requires monthly marine mammal observation and monitoring reports and a final report within 90 days of the completion of a lessee's OCS survey, consistent with GOM BiOp Appendix A, "Seismic Survey Mitigation and Protected Species Observer Protocols." The GOM BiOp requirements supersede BOEM's Notice to Lessees and Operators 2016-G02, which had required two reports each month. Therefore, BOEM estimates an overall decrease in the burden related to these monitoring reports.

The GOM BiOp requires additional reporting if one or more individuals from a protected species are observed within an enclosed moon pool, which is an opening in the bottom of a marine platform, drill ship, or vessel through which drilling is done. The operator must report the observation within 24 hours and daily thereafter as long as any individual from a protected species remains within the moon pool. With this new requirement, BOEM estimates a slight increase in annual reporting.

While the GOM BiOp increased certain reporting burdens for lessees and operators in the Gulf of Mexico, the overall burdens are estimated to decrease slightly due to the anticipated reduction in the number of plans submitted to BOEM.

A **Federal Register** notice with a 60-day public comment period on this proposed ICR was published on March 3, 2023 (88 FR 13459). BOEM received one comment during the 60-day comment period, which was supportive of the Federal Government's reporting and burden updates. No burdens were changed in connection with the public comment.

BOEM is again soliciting comments on the proposed ICR. BOEM is especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments submitted in response to this notice are a matter of public record and will be available for public review

on www.reginfo.gov. BOEM will include or summarize each comment in its ICR to OMB for approval of this information collection. You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information included in your comment—may be made publicly available at any time. Even if BOEM withholds your information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA). If your submission is requested under FOIA, your information will only be withheld if a determination is made that one of the FOIA exemptions to disclosure applies. Such a determination will be made in accordance with the Department's FOIA regulations (43 CFR part 2) and applicable law.

In order for BOEM to consider withholding from disclosure your personal identifying information, you must identify, in a cover letter, any information contained in your comment that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm. Note that BOEM will make available for public inspection all comments in their entirety (except for proprietary information submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses).

BOEM protects proprietary information in accordance with FOIA (5 U.S.C. 552), the DOI's implementing regulations (43 CFR part 2), and 30 CFR part 550.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Agency Information Collection Activities; Renewable Energy and Alternate Uses of Existing Facilities on the Outer Continental Shelf

AGENCY: Bureau of Safety and Environmental Enforcement, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Bureau of Safety and Environmental Enforcement (BSEE) proposes to renew an information collection with revisions.

DATES: Interested persons are invited to submit comments on or before September 11, 2023.

ADDRESSES: Send your comments on this information collection request (ICR) by either of the following methods listed below:

- Electronically go to <http://www.regulations.gov>. In the Search box, enter BSEE-2023-0013 then click search. Follow the instructions to submit public comments and view all related materials. We will post all comments.

- Email nikki.mason@bsee.gov, fax (703) 787-1546, or mail or hand-carry comments to the Department of the Interior; Bureau of Safety and Environmental Enforcement; Regulations and Standards Branch; ATTN: Nikki Mason; 45600 Woodland Road, Sterling, VA 20166. Please reference OMB Control Number 1014-0034 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Nikki Mason by email at nikki.mason@bsee.gov or by telephone at (703) 787-1607. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>. **SUPPLEMENTARY INFORMATION:** In accordance with the PRA and 5 CFR

1320.8(d)(1), all information collections require approval under the PRA. We may not conduct, or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: BSEE will use the information to oversee facility design, fabrication, installation, and safety management systems; ensure the safety of operations, including inspection programs and incident reporting and investigations; enforce compliance with all applicable safety, environmental, and other laws and regulations through

enforcement actions (such as noncompliance notices, cessation orders, and certain lease suspensions); and oversee decommissioning activities. These responsibilities include enforcement provisions under the existing part 285, subpart D, various information submittal requirements under Subpart F, as well as provisions governing activities conducted under an approved plan, including the design, construction, operation, and decommissioning of facilities under subparts G, H, and I. The requirements for and standards of review regarding the Facility Design Report (FDR) and Facility Fabrication and Installation Report (FIR) are unchanged: the FDR and FIR will continue to be evaluated for consistency with the Construction and Operations Plan (COP) and applicable engineering standards. Decommissioning requirements related to rights-of-use and easement for alternate uses of existing OCS facilities (Alternate Use RUE) have also been transferred from the existing subpart J to part 285.

BSEE assumes the responsibility for ordering a lease or grant suspension when continued activities pose an imminent threat of serious or irreparable harm or damage to natural resources, life, property, the marine coastal, or human environment, or sites, structures, or objects of historical or archaeological significance. BSEE may also order a suspension when necessary to comply with a judicial decree. Under the rule, BSEE also assumes authority to issue cessation orders to address noncompliance on the part of the grantee or lessee.

The Department does not issue Suspensions for Alternate Use RUEs upon the grantee's request, but only by order. BOEM will retain authority to order suspensions required for National security, and BSEE will assume authority to order suspensions to address a threat of harm from continued operations. Either bureau may order a suspension when necessary to comply with a judicial decree. BSEE will order suspensions when operations are halted on the existing facility and BSEE determines continuation of the alternate use is unsafe or causes undue interference with the facility.

Part 285, subpart D, Lease and Grant Administration, includes the authority to issue notices of noncompliance (NONCs) and cessation orders, and to pursue civil penalties and recommend criminal penalties. BSEE assumes authority for oversight and enforcement of the design, construction, operation, and decommissioning phases of offshore wind development, as well as

enforcement of requirements related to Alternate Use RUEs.

This ICR includes a new form: Form BSEE-1835, *Notification of Noncompliance* (NONC).

BSEE will use the information to determine that respondents have corrected all Notifications of Noncompliance (NONCs) identified during inspections. Everything on the NONC form is filled out by a BSEE inspector/representative. The only thing industry does with this form is sign the document upon receipt and respond to BSEE when each NONC has been corrected. Dependent on the severity of the non-compliance identified by the BSEE inspector, the responses are assigned different intervals and are described in the form table titled Enforcement Timeline:

1—At Time of Inspection

14—Within 14 Days

30—Within 30 Days

50—Prior to Returning to Service/ Operation

60—Prior to Next Scheduled Maintenance

70—During Next Scheduled Maintenance

80—Prior to Next scheduled Audit

90—During Next Scheduled Audit

Title of Collection: 30 CFR part 285, Renewable Energy and Alternate Uses of Existing Facilities on the Outer Continental Shelf.

OMB Control Number: 1014-0034.

Form Number: Form BSEE-1835,

Notice(s) of Noncompliance.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Primary respondents comprise Federal OCS companies that submit unsolicited proposals or responses to **Federal Register** notices; or are lessees, designated operators, and ROW or RUE grant holders. Other potential respondents are companies or state and local governments that submit information or comments relative to alternative energy-related uses of the OCS; certified verification agents (CVAs); and surety or third-party guarantors.

Total Estimated Number of Annual Respondents: Currently there are approximately 47 Lessees in the OCS. Not all the potential respondents will submit information in any given year, and some may submit multiple times.

Total Estimated Number of Annual Responses: 103.

Estimated Completion Time per Response: Varies from 30 minutes to 6,000 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 8,908.

Respondent's Obligation: Responses are mandatory and are required to obtain or retain a benefit.

Frequency of Collection: generally occasional or annual.

Total Estimated Annual Nonhour Burden Cost: \$1,908,000.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-1347]

Certain Location-Sharing Systems, Related Software, Components Thereof, and Products Containing Same; Notice of Commission Determination Not To Review Three Initial Determinations Terminating the Investigation as to Certain Respondents and in Its Entirety; Termination of the Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review three initial determinations (“IDs”) of the presiding administrative law judge (“ALJ”) that terminate the above-captioned investigation as to: (1) respondent OnePlus Technology (Shenzhen) Co., Ltd. based on settlement (Order No. 24); (2) respondents Xiaomi Corporation, Xiaomi H.K. Ltd., Xiaomi Communications Co., Ltd., and Xiaomi Inc. based on settlement (Order No. 25); and (3) the remaining respondents based on withdrawal of the complaint (Order No. 26). The investigation is terminated.

FOR FURTHER INFORMATION CONTACT: Richard P. Hadorn, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205-3179. Copies of non-confidential documents filed in connection with this investigation may be viewed on the Commission’s electronic docket (EDIS) at <https://edis.usitc.gov>. For help accessing EDIS, please email EDIS3Help@usitc.gov. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the

Commission’s TDD terminal, telephone (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on December 30, 2022, based on a complaint filed by Advanced Ground Information Systems, Inc. of Jupiter, Florida and AGIS Software Development LLC of Marshall, Texas (collectively, “AGIS”). 87 FR 80568–69 (Dec. 30, 2022). The complaint, as supplemented, alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, based on the importation into the United States, the sale for importation, and the sale within the United States after importation of certain location-sharing systems, related software, components thereof, and products containing same by reason of the infringement of certain claims of U.S. Patent Nos. 8,213,970 (“the ‘970 patent”); 9,445,251 (“the ‘251 patent”); 9,467,838 (“the ‘838 patent”); 9,749,829 (“the ‘829 patent”); and 9,820,123 (“the ‘123 patent”). *Id.* at 80568. The complaint further alleges that a domestic industry exists. *Id.*
