Cash Deposit Requirements

Pursuant to section 751(a)(2)(C) of the Act, Commerce intends, upon publication of the final results, to instruct U.S. Customs and Border Protection (CBP) to collect cash deposits of estimated countervailing duties in the amounts calculated in the final results of this review for the company listed above, on shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review. If the rate calculated in the final results for 2021 is zero or *de minimis*, no cash deposit will be required on shipments of the subject merchandise entered or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this review. For all non-reviewed companies, CBP will continue to collect cash deposits of estimated countervailing duties at the all-others rate (*i.e.*, 6.46 percent)¹⁰ or the most recent company-specific rate applicable to the company, as appropriate. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Assessment Rates

Upon issuance of the final results of this administrative review, consistent with section 751(a)(1) of the Act and 19 CFR 351.212(b)(2), Commerce shall determine, and CBP shall assess, countervailing duties on all appropriate entries covered by this review. For Sailun and KTCL, Commerce will instruct CBP to assess countervailing duties on all appropriate entries at the rate equal to the cash deposit of estimated countervailing duties required at the time of entry, or withdrawal from warehouse, for consumption, during the period November 10, 2020, through December 31, 2021, in accordance with 19 CFR 351.212(c)(1)(i). With respect to KTV, entries produced and/or exported by KTV during the period November 10, 2020, through December 31, 2021, are enjoined from liquidation;¹¹ as a result, we will issue the appropriate

liquidation instructions for KTV once the statutory injunction is lifted.

For Bridgestone Tire Manufacturing Vietnam, LLC (Bridgestone), the only company subject to this review, Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Disclosure and Public Comment

We intend to disclose the calculations performed for these preliminary results to parties in this proceeding within five days after public announcement of the preliminary results in accordance with 19 CFR 351.224(b). SUPPLEMENTARY INFORMATION:

Background

On March 3, 2023, Commerce published the notice of intent to rescind a circumvention inquiry regarding whether certain lawn mowers assembled or completed in the United States by attaching Chinese cutting deck shells (attached to at least one significant non-engine component) to internal combustion engines are circumventing the AD and CVD orders on lawn mowers from China under section 781(a) of the Tariff Act of 1930, as amended (the Act).¹ We invited interested parties to submit comments and rebuttals on our intent to rescind.² On March 17, 2023, MTD Products Inc. and its parent company, Stanley Black & Decker, Inc. (collectively, the petitioner) submitted comments.³ On

March 24, 2023, Ningbo Daye Garden Machinery Co., Ltd., Ningbo Lingyue Intelligent Equipment Co., Ltd., and Daye North America, Inc. (collectively, Daye) submitted rebuttal comments.⁴

For a full discussion of the basis for our rescission of this circumvention inquiry, see the Decision Memorandum.⁵ A list of topics discussed in the Decision Memorandum is included as the appendix to this notice. The Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Scope of the Orders

The products covered by these *Orders* are lawn mowers from China. A full description of the scope of the *Orders* is provided in the Decision Memorandum.

Merchandise Subject to the Circumvention Inquiry

The merchandise subject to this circumvention inquiry are lawn mower sub-assemblies imported from China and comprised of a cutting deck shell attached to at least one other significant non-engine component, such as, but not limited to, a handle, wheels, grass catcher bag, or an electronic starter. These sub-assemblies are assembled or completed in the United States by attaching internal combustion engines to produce rotary walk-behind lawn mowers of the type that would be subject to the *Orders*.⁶ The cutting deck shell is the portion of the lawn mower—typically of aluminum or steel—that houses and protects a user from a rotating blade. Cutting deck shells are typically entered under Harmonized Tariff Schedule of the United States

⁴ See Daye's Letter, "Response to Petitioner's Comments in Opposition to the Notice of Intent to Rescind the Anticircumvention Inquiry," dated March 24, 2023.

⁵ See Memorandum, "Certain Walk-Behind Lawn Mowers and Parts Thereof from the People's Republic of China: Rescission of Circumvention Inquiry on the Antidumping and Countervailing Duty Orders," dated concurrently with, and hereby adopted by, this notice (Decision Memorandum).

⁶ This inquiry does not include lawn mowers assembled or completed in the United States using small vertical engines from China that are covered by the scope of the antidumping and countervailing duty orders on certain vertical shaft engines between 99cc and up to 225 cc, and parts thereof. See *Initiation Notice*, 87 FR at 65034, n.11.

(HTSUS) subheading 8433.11 or 8433.90.

Rescission of Circumvention Inquiry

As explained above, this circumvention inquiry covers cutting deck shells attached to at least one other significant non-engine component, such as, but not limited to, a handle, wheels, grass catcher bag, or an electronic starter. We find that the inquiry merchandise is specifically excluded from the scope of the *Orders* because it is not imported as "at a minimum, a sub-assembly comprised of an engine and a cutting deck shell attached to one another."⁷ We also find that it is not appropriate to conduct a circumvention inquiry on such specifically excluded merchandise. Therefore, Commerce is rescinding this circumvention inquiry, in accordance with 19 CFR 351.226(f)(6). For more explanation, see the Decision Memorandum.

Suspension of Liquidation

Pursuant to 19 CFR 351.226(l)(1), Commerce notified U.S. Customs and Border Protection (CBP) of the initiation of this circumvention inquiry and directed CBP to continue the suspension of liquidation of entries of products subject to the circumvention inquiry that were already subject to the suspension of liquidation under the *Orders* and to apply the cash deposit rate that would be applicable if the products were determined to be covered by the scope of the *Orders*.⁸ Because we are now rescinding this inquiry, Commerce will inform CBP accordingly and instruct CBP to continue to suspend entries of lawn mowers from China that are subject to the *Orders* at the applicable rate(s) in effect on the date of entry until specific liquidation instructions are issued.

Notification to Interested Parties

This notice is issued and published in accordance with 19 CFR 351.226(f)(6).

Dated: July 17, 2023.

Assistant Secretary for Enforcement and Compliance.

SUPPLEMENTARY INFORMATION:

I. Abstract

The CHIPS Incentives Program is authorized by Title XCIX—Creating Helpful Incentives to Produce Semiconductors for America of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal

Year 2021 (Pub. L. 116–283, referred to as the CHIPS Act or Act), as amended by the CHIPS Act of 2022 (Division A of Pub. L. 117–167). The CHIPS Incentives Program is administered by the CHIPS Program Office (CPO) within the National Institute of Standards and Technology (NIST) of the United States Department of Commerce (Department).

The CPO is considering collecting key data and information from recipients of CHIPS funding for the purposes of monitoring progress and performance on selected projects; ensuring compliance with the terms of an award; general programmatic financial management activities; and executing long-term program evaluation initiatives. CPO intends to collect key data and information in three primary categories: metrics, milestones, and reports. Metrics are quantitative measures that describe project progress or impact, and milestones are discrete action steps that are tied to target dates. Examples of data or information collected in the metric category may include but are not limited to number of jobs created, wafer starts per month, cumulative obligations, number of new customers contracts, or percentage of total childcare seats filled. Examples of milestone data or information collected may include but are not limited to construction milestones (e.g., permit issuance, utilities installation, fab groundbreaking, fab completion, etc.) or production go-live. Reports describe progress or details of a given content area in a narrative fashion.

The frequency and granularity of data and information collection is still under development by CPO. CPO will aim for a balance of utility to the government and burden on the recipient when determining the data and information to collect.

II. Method of Collection

CPO intends to collect data from recipients electronically, although other methods, e.g., interviews, email, etc., may also be leveraged. The primary data collection tool will be Salesforce, which CPO leverages for the application process and will leverage for communication with recipients post award.
